Focus List - 2017 Lease Expirations

As of 6/30/16, 2017 is shaping up very well to have excellent cash and GAAP results.

- 2017 expirations total 3.0 million square feet, or 15% of leased space (reduced from 3.6 million at 12/31/15).
- 1.2 million square feet do not expire until the fourth quarter.
- Anticipate occupancy of approximately 89-90% at year-end 2016; at that level will backfill any vacant space quickly.
- As of now, 2017 is the size of a normal year for our expirations and by year end 2016, it will be reduced further.

· Progress on 2017 expirations has been made as follows:

(Square footage in 000's)

2017 expirations as of December 31, 2015	3,591
Reduction in 2017 expirations, year-to-date 2016	(603)
2017 expirations as of June 30, 2016	2,988

Following is our approach to remaining 2017 expirations:

(Square footage in 000's)

2,988	expiring
(699)	in properties we plan to sell
(698)	remaining on Waterfront, with a growing backlog of tenant demand
(644)	in Flex space, with historically high retention and occupancy rates
947	remaining in Core suburban properties

- 947,000 square feet expiring within Core suburban portfolio of 9.7 million square feet represents a manageable 9.8% rollover in 2017.

During the three months ended June 30, 2016, the Company signed agreements to dispose of five office properties totaling approximately 567,000 square feet, and one 220-unit multi-family rental property, subject to certain conditions. The office and multi-family rental properties are located in Parsippany, New Jersey, Upper Saddle River, New Jersey and Andover, Massachusetts. The Company identified these properties as held for sale at June 30, 2016. The total estimated sales proceeds expected from the four separate sales are approximately \$84 million. The Company determined that the carrying amounts of four of the office properties were not expected to be recovered from estimated net sales proceeds and accordingly recognized an unrealized loss allowance of \$3.6 million at June 30, 2016. In July 2016, the Company completed the disposition of four of these office properties for sales proceeds of approximately \$24.9 million. All the remaining dispositions are expected to be completed in the third quarter of 2016.

Balance Sheet/Capital Markets

In January 2016, the Company obtained a new \$350 million unsecured term loan, which matures in January 2019 with two one-year extension options. The interest rate for the new term loan is currently 140 basis points over LIBOR, subject to adjustment on a sliding scale based on the Company's unsecured debt ratings, or at the Company's option, a defined leverage ratio. Mack-Cali entered into interest rate swap arrangements to fix LIBOR for the duration of the term loan. Including costs, the loan provides for a current all-in fixed rate of 3.13 percent. There is no premium or penalty associated with full or partial prepayment of the term loan.

Proceeds from the unsecured term loan were used primarily to repay outstanding borrowings on its \$600 million unsecured revolving credit facility, and to repay the Company's \$200 million, 5.8 percent senior unsecured notes that matured on January 15, 2016.

As of June 30, 2016, the Company had total indebtedness of approximately \$2.3 billion, with a weighted average annual interest rate of approximately 4.79 percent and a debt-to-undepreciated assets ratio of 40.3 percent. Information About FFO, Core FFO and AFFO

Funds from operations ("FFO") is defined as net income (loss) before noncontrolling interests of unitholders, computed in accordance with generally accepted accounting principles ("GAAP"), excluding gains or losses from depreciable rental property transactions, and impairments related to depreciable rental property, plus real estate-related depreciation and amortization. The Company believes that FFO per share is helpful to investors as one of several measures of the performance of an equity REIT. The Company further believes that as FFO per share excludes the effect of depreciation, gains (or losses) from sales of properties and impairments related to depreciable rental property (all of which are based on historical costs which may be of limited relevance in evaluating current performance), FFO per share can facilitate comparison of operating performance between equity REITs.

FFO per share should not be considered as an alternative to net income available to common shareholders per share as an indication of the Company's performance or to cash flows as a measure of liquidity. FFO per share presented herein is not necessarily comparable to FFO per share presented by other real estate companies due to the fact that not all real estate companies use the same definition. However, the Company's FFO per share is comparable to the FFO per share of real estate companies that use the current definition of the National Association of Real Estate Investment Trusts ("NAREIT"). A reconciliation of net income per share to FFO per share is included in the financial tables above.

Core FFO is defined as FFO, as adjusted for certain items to facilitate comparative measurement of the Company's performance over time. Adjusted FFO ("AFFO") is defined as Core FFO less (i) recurring tenant improvements, leasing commissions and capital expenditures, (ii) straight-line rents and amortization of acquired below-market leases, net, and (iii) other non-cash income, plus (iv) other non-cash charges. Core FFO and AFFO are presented solely as supplemental disclosure that the Company's management believes provides useful information to investors and analysts of its results, after adjusting for certain items to facilitate comparability of its performance from period to period. Core FFO and AFFO are both non-GAAP financial measures that are not intended to represent cash flow and are not indicative of cash flows provided by operating activities as determined in accordance with GAAP. There are not generally accepted definitions established for Core FFO or AFFO. Therefore, the Company's measures of Core FFO and AFFO may not be comparable to the Core FFO and AFFO reported by other REITs. A reconciliation of net income per share to Core FFO and AFFO in dollars and per share are included in the financial tables on page 15.

Roseland Residential Trust Overview

ROSELAND
RESIDENTIAL TRUST
A MACA-CAL COMPANY
BUILDING VISIONARY LIFESTYLE

The Company- Roseland Residential Trust

- Roseland Residential Trust (RRT or Roseland), Mack-Cali's multi-family platform, is a premier full-service residential and mixed-use developer in the Northeast with an industry-leading reputation for successful conception, execution, and management of class A residential developments
- RRT's scalable and integrated business platform oversees the Company's operating and in-construction assets, geographically desirable land portfolio, sourcing of new development and acquisition opportunities, and repurposing activities
- RRT was formed on December 31, 2015 as a separate subsidiary of Mack-Cali to further facilitate disclosures, transparency, and capital flexibility of the residential platform. RRT contains all of Mack-Cali's residential holdings, including office assets with likely residential repurposing potential
- RRT's executive leadership, a cohesive team since 2003, has an average experience of 18 years at Roseland and 27 years in the industry:

• Marshall Tycher	Founder & Chairman
• Michael DeMarco	Chief Executive Officer
• Andrew Marshall	President & Chief Operating Officer
• Ivan Baron	Chief Legal Counsel
• Bob Cappy	Chief Financial Officer
• Gabriel Shiff	Chief Investment Officer
• Brenda Cioce	President, Roseland Residential Services

- RRT is governed by a Board of Directors consisting of: William Mack, David Mack, Michael DeMarco, Mitchell Rudin, and Marshall Tycher

Roseland Overview- Management's Discussion & Objectives

RRT oversees Mack-Cali's continued expansion into the residential sector where fundamentals and macroeconomic trends in our core geographies continue to show strength. RRT manages a growing portfolio of owned, under construction, and future development assets on the New Jersey Waterfront, Boston, Philadelphia and Washington D.C, with the remaining holdings primarily in suburban locations in high income areas in New Jersey. RRT is well positioned to benefit from the demographics and shortage of housing in these markets. Rents in our primary sub-markets, markets that will fuel much of our future development activity, have demonstrated growth over the last year: Jersey City at 5.17% and Overlook Ridge at 4.46%

- **Current Portfolio:** Roseland's high-barrier-to-entry portfolio is at the forefront of characteristics supportive of market-leading valuations and competitive with leading publicly traded residential REITs: (i) top in market rents (ii) young, and trending lower, average building age (iii) geographically concentrated exclusively in the Northeast
- **Target Portfolio:** RRT targets approximately 13,750 operating and in-construction apartments by year-end 2018. This growth of approximately 5,800 apartments will be achieved primarily through development and repurposing activities from Roseland's valuable land holdings
 - Acquisition Risk: Portfolio growth is not subject to acquisition risk as Roseland controls its sizable future development portfolio inclusive of highly accretive repurposing opportunities (approximately ten sites are active)
 - Development Risk: Future development is substantially in communities where Roseland has developed before, or more specifically adjacent to existing developments, thereby dramatically reducing our development risk. This allows RRT to have intimate knowledge on operating expenses and construction costs, and most importantly, achievable rent thresholds
- **Market Conditions:** We are seeing continued strength with steady lease-up absorption in our key markets. Our 2016 deliveries have projected opening rent schedules in excess of 10% higher than pre-construction underwriting (i.e. M2 at Marbella \$41 rent/SF vs. \$48 rent/SF)
- **Geography:** Consistent with its history, Roseland plans to develop the finest residential portfolio in the Northeast focused on transit-based / urban locations. RRT developments will be concentrated around the following principal locations: New Jersey Waterfront (Jersey City and Port Imperial), Boston Region, Suburban New York/New Jersey, Washington, DC, and Philadelphia

Roseland Overview- Recent Highlights – Q2

- **Acquisitions:** RRT closed on multiple acquisitions in Q2, including:
 - Majority partner interest in Portside 7 and minority JV partner interest in Portside 7, 5/6, and 1-4
 - Minority JV partner's 25% subordinated interest in RiverTrace in Port Imperial
 - JV partner's interest in five land parcels in Port Imperial
 - JV partner's interest in Port Imperial Garage and Retail South
 - JV partner's priority land account in Parcel 2 at Port Imperial

- **Dispositions and Sales:**
 - RRT's subordinate interests in RiversEdge (236 – units) and RiverParc (280 – units) for approximately \$6.4 million
 - RRT's 100% interest in Andover Place for approximately \$40.5 million (\$184,000/unit) - under contract with a targeted close in August 2016

- **Lease-Up Commencement:** In May 2016, RRT completed construction and commenced leasing activities at M2 at Marbella, a 311 – unit apartment community. As of June 30th, M2 at Marbella was 44.7% leased (139 units). Since opening, our market rent schedule has increased from \$44/SF to \$48/SF

Roseland Overview- Recent Acquisitions Spotlight

RRT simplified and expanded its portfolio ownership in the second quarter on operating, in-construction and future development communities in its core markets through the following key acquisitions

Portside at East Pier – East Boston, MA: Roseland acquired its partner's majority interest in the 175 apartment community (Portside 7) located on the East Boston waterfront, thereby increasing Roseland's interest to 85%. Subsequently, Roseland acquired its heads-up partner's interest in Portside at East Pier, as well as its interest in future East Boston development (Portside 5/6 currently in-construction and the future development rights of Portside 1-4). As such, for total combined consideration of approximately \$39 million, Roseland owns 100% of all Portside communities. A stabilized 4.80% capitalization rate, before Portside 5/6 operational efficiencies recognized upon completion, was used for valuation purposes. RRT unlocked \$5.2 million of promote value that was applied toward the acquisition price, effectively resulting in a 5.10% capitalization rate. As a result of our acquisition and permanent financing (closed post quarter-end), we envision an initial return on net capital investment of approximately 10%

Portside at East Pier

Port Imperial - Weehawken, NJ: Roseland (i) acquired its historical land partner's interest across five waterfront development parcels, including the recently started RiverHouse 11, thereby increasing its ownership to 100% (ii) acquired its historical land partner's interest in Port Imperial Garage and Retail South, thereby increasing its ownership to 70% (iii) transferred a sixth waterfront parcel, Parcel 2, to a new 50/50 heads-up entity by acquiring its land partner's priority account. Total consideration for the combined acquisition was approximately \$36 million

Roseland Overview- 2016 Objectives

- Capital Raise:** The Company is exploring select capital alternatives to facilitate the growth of the RRT portfolio. To that the end, the company has engaged Eastdil Secured to raise capital via a direct equity investment in RRT. The form of this investment would likely be common equity with co-investment equity from Mack-Cali, though the Company is considering other capital alternatives and structures as well
- Subordinate Interest Reduction:** In 2016, RRT has made significant strides in reducing its subordinate interest partnerships. At year-end 2015, RRT had an interest in 3,025 subordinate operating apartments. As of June 30, 2016 RRT's subordinate interest portfolio was reduced to 1,963 apartments (a **35% reduction**). RRT will continue to focus on this objective with a target year-end 2016 goal of 1,235 apartments (representing a year over year reduction of **59%**). In addition to operating conversions, we increased our ownership to 100% across five land parcels in Port Imperial and in East Boston
- Portfolio:** Remaining 2016 construction start activity of 1,217 apartments will produce a target operating and in-construction portfolio at year-end 2016 of approximately 9,211 apartments RRT's average ownership of 60.6% represents significant growth, to date and will continue to be a priority of the Company

- Capital Commitments:** Roseland's projected future capital commitments for its in-construction and remaining 2016 start portfolio is approximately \$163 million, net of contributed/acquired land and costs incurred as of June 30, 2016:

<u>Category</u>	<u>Apts/Keys</u>	<u>Amount (\$M)</u>
In-Construction Portfolio (Remaining Commitment)	2,560	\$72
2016 Remaining Starts	<u>1,217</u>	<u>91</u>

Roseland Overview- NAV and Cash Flow Growth

- **Actual Growth:** Roseland has exhibited growth across key financial metrics since its acquisition with forecasts of continued material growth
- **Projected Growth:** Roseland's growth through 2018 will result from completion and lease-up of its active construction portfolio (2,560 apartments and keys) and construction starts of its remaining 2016 development schedule

Portfolio Overview- Repurposing Success

A primary synergistic component of the Mack-Cali / Roseland combination is the repurposing of select office holdings to higher valued residential use. To that end, highlights of our activities to date include:

- **Construction Start:** We commenced construction in 4Q – 2015 on Signature Place in Morris Plains, NJ a 197- unit community
- **Pending Starts:** We have pending starts at:
 - Q3 2016 - 150 Monument Road in Bala Cynwyd, PA (206 units)

The quarter’s Core FFO per share of \$0.55 increased 22.2 percent from the same quarter last year primarily due to increased base rents and lower net property expenses.

OPERATING HIGHLIGHTS

Mack-Cali’s consolidated commercial in-service portfolio was 86.7 percent leased at June 30, 2016, as compared to 87.2 percent leased at March 31, 2016 and an increase of 4.4 percent as compared to June 30, 2015.

For the quarter ended June 30, 2016, the Company executed 74 leases at its consolidated in-service commercial portfolio totaling 660,373 square feet. Of these totals, 154,069 square feet were for new leases and 506,304 square feet were for lease renewals and other tenant retention transactions. Lease transactions included 270,199 square feet in Core properties, 127,745 square feet in Waterfront properties, 150,786 square feet in Flex properties and 111,643 square feet in Non-Core properties. Lease spreads on a GAAP basis were 2.2 percent for new leases and 29.9 percent for renewed or retained leases, for an average of 27.3 percent for the quarter.

Mitchell E. Rudin, chief executive officer, commented “Our leasing pace is encouraging. During the quarter, we addressed over 275,000 square feet of our 2017 expirations and anticipate additional progress. As we embark on repositioning Harborside, we continue to attract technology, media and financial services users to this premier waterfront, mixed-use complex, as evidenced by our recent announcement of new leases with Omnicom and Zurich Insurance. These recent leases, along with our previously announced acquisition of 111 River Street in Hoboken, bring our current waterfront presence of 4.9 million square feet to 94.7 percent leased — strongly outperforming the Hudson Waterfront submarket.”

RECENT TRANSACTIONS

In July, the Company announced a series of transactions in the redeployment of disposition proceeds as part of its announced strategic plan. The Company has sold approximately \$400 million of assets year to date. Currently, Mack-Cali has contracts out for an additional \$250 million of dispositions, \$200 million of which it expects to close in the third quarter or early fourth quarter, with the remainder in early 2017. In addition, the Company is currently marketing for sale \$200 million in assets for total potential sale proceeds of \$850 million. The proceeds from these dispositions is expected to be used to pay down debt, fund development, and purchase suitable acquisitions.

The Company has purchased two class A office assets for approximately \$317 million in Hoboken, and Metropark, NJ, totaling approximately 830,000 square feet. Earlier

this year, Mack-Cali also acquired three smaller assets for approximately \$34 million.

The Company's acquisitions and dispositions are part of Mack-Cali's broad-based portfolio realignment announced as part of their strategic plan last September on balance sheet management while focusing on increasing holdings in waterfront and transit-based locations. To achieve this realignment, the Company has set a goal of \$750 million in dispositions to help raise capital for reduction in debt, development funding, and key acquisitions.

Also in July, the Company announced that Roseland Residential Trust ("Roseland"), in the second quarter, completed the acquisition of various partners' interests in Port Imperial on the Hudson River Waterfront and in East Boston, as well as disposition of its subordinated ownership in two Port Imperial communities. In addition, Roseland entered into an agreement to sell Andover Place in Andover, Massachusetts.

BALANCE SHEET/CAPITAL MARKETS

In January 2016, the Company obtained a new \$350 million unsecured term loan, which matures in January 2019 with two one-year extension options. The interest rate for the new term loan is currently 140 basis points over LIBOR, subject to adjustment on a sliding scale based on the Company's unsecured debt ratings, or at the Company's option, a defined leverage ratio. Mack-Cali entered into interest rate swap arrangements to fix LIBOR for the duration of the term loan. Including costs, the loan provides for a current all-in fixed rate of 3.13 percent. There is no premium or penalty associated with full or partial prepayment of the term loan.

Proceeds from the unsecured term loan were used primarily to repay outstanding borrowings on its \$600 million unsecured revolving credit facility, and to repay the Company's \$200 million, 5.8 percent senior unsecured notes that matured on January 15, 2016.

As of June 30, 2016, the Company had total indebtedness of approximately \$2.3 billion, with a weighted average annual interest rate of approximately 4.79 percent and a debt-to-undepreciated assets ratio of 40.3 percent. The Company had an interest coverage ratio of 3.4 times for the quarter ended June 30, 2016.

DIVIDENDS

In June, the Company's Board of Directors declared a cash dividend of \$0.15 per common share (indicating an annual rate of \$0.60 per common share) for the second quarter 2016, which was paid on July 15, 2016 to shareholders of records as of July 6, 2016.

INFORMATION ABOUT FFO

Funds from operations (“FFO”) is defined as net income (loss) before noncontrolling interests of unitholders, computed in accordance with generally accepted accounting principles (“GAAP”), excluding gains or losses from depreciable rental property transactions, and impairments related to depreciable rental property, plus real estate-related depreciation and amortization. The Company believes that FFO per share is helpful to investors as one of several measures of the performance of an equity REIT. The Company further believes that as FFO per share excludes the effect of depreciation, gains (or losses) from sales of properties and impairments related to depreciable rental property (all of which are based on historical costs which may be of limited relevance in evaluating current performance), FFO per share can facilitate comparison of operating performance between equity REITs.

FFO per share should not be considered as an alternative to net income available to common shareholders per share as an indication of the Company’s performance or to cash flows as a measure of liquidity. FFO per share presented

herein is not necessarily comparable to FFO per share presented by other real estate companies due to the fact that not all real estate companies use the same definition. However, the Company’s FFO per share is comparable to the FFO per share of real estate companies that use the current definition of the National Association of Real Estate Investment Trusts (“NAREIT”). A reconciliation of net income per share to FFO per share is included in the financial tables accompanying this press release.

Core FFO is defined as FFO, as adjusted for certain items to facilitate comparative measurement of the Company’s performance over time. Core FFO is presented solely as supplemental disclosure that the Company’s management believes provides useful information to investors and analysts of its results, after adjusting for certain items to facilitate comparability of its performance from period to period. Core FFO is a non-GAAP financial measure that is not intended to represent cash flow and is not indicative of cash flows provided by operating activities as determined in accordance with GAAP. As there is not a generally accepted definition established for Core FFO, the Company’s measures of Core FFO may not be comparable to the Core FFO reported by other REITs. A reconciliation of net income per share to Core FFO in dollars and per share is included in the financial tables accompanying this press release.
