EXPLANATORY NOTE

This report combines the annual reports on Form 10-K for the year ended December 31, 2019 of Mack-Cali Realty Corporation and Mack-Cali Realty, L.P. Unless stated otherwise or the context otherwise requires, references to the “Operating Partnership” mean Mack-Cali Realty, L.P., a Delaware limited partnership, and references to the “General Partner” mean Mack-Cali Realty Corporation, a Maryland corporation and real estate investment trust (“REIT”), and its subsidiaries, including the Operating Partnership. References to the “Company,” “we,” “us” and “our” mean collectively the General Partner, the Operating Partnership and those entities/subsidiaries consolidated by the General Partner.

The Operating Partnership conducts the business of providing leasing, management, acquisition, development, construction and tenant-related services for its General Partner. The Operating Partnership, through its operating divisions and subsidiaries, including the Mack-Cali property-owning partnerships and limited liability companies is the entity through which all of the General Partner’s operations are conducted. The General Partner is the sole general partner of the Operating Partnership and has exclusive control of the Operating Partnership’s day-to-day management.

As of December 31, 2019, the General Partner owned an approximate 90.4 percent common unit interest in the Operating Partnership. The remaining approximate 9.6 percent common unit interest is owned by limited partners. The limited partners of the Operating Partnership are (1) persons who contributed their interests in properties to the Operating Partnership in exchange for common units (each, a “Common Unit”) or preferred units of limited partnership interest in the Operating Partnership or (2) recipients of long term incentive plan units of the Operating Partnership pursuant to the General Partner’s executive compensation plans.

A Common Unit of the Operating Partnership and a share of common stock of the General Partner (the “Common Stock”) have substantially the same economic characteristics in as much as they effectively share equally in the net income or loss of the Company. The General Partner owns a number of common units of the Operating Partnership equal to the number of issued and outstanding shares of the General Partner’s common stock. Common unitholders (other than the General Partner) have the right to redeem their Common Units, subject to certain restrictions under the Second Amended and Restated Agreement of Limited Partnership of the Operating Partnership, as amended (the “Partnership Agreement”) and agreed upon at the time of issuance of the units that may restrict such right for a period of time, generally one year from issuance. The redemption is required to be satisfied in shares of Common Stock of the General Partner, cash, or a combination thereof, calculated as follows: one share of the General Partner’s Common Stock, or cash equal to the fair market value of a share of the General Partner’s Common Stock at the time of redemption, for each Common Unit. The General Partner, in its sole discretion, determines the form of redemption of Common Units (i.e., whether a common unitholder receives Common Stock of the General Partner, cash, or any combination thereof). If the General Partner elects to satisfy the redemption with shares of Common Stock of the General Partner as opposed to cash, the General Partner is obligated to issue shares of its Common Stock to the redeeming unitholder. Regardless of the rights described above, the common unitholders may not put their units for cash to the Company or the General Partner under any circumstances. With each such redemption, the General Partner’s percentage ownership in the Operating Partnership will increase. In addition, whenever the General Partner issues shares of its Common Stock other than to acquire Common Units, the General Partner must contribute any net proceeds it receives to the Operating Partnership and the Operating Partnership must issue to the General Partner an equivalent number of Common Units. This structure is commonly referred to as an umbrella partnership REIT, or UPREIT.

The Company believes that combining the annual reports on Form 10-K of the General Partner and the Operating Partnership into this single report provides the following benefits:

- enhance investors’ understanding of the General Partner and the Operating Partnership by enabling investors to view the business as a whole in the same manner as management views and operates the business of the Company;
- eliminate duplicative disclosure and provide a more streamlined and readable presentation because a substantial portion of the disclosure applies to both the General Partner and the Operating Partnership; and
- create time and cost efficiencies through the preparation of one combined report instead of two separate reports.

The Company believes it is important to understand the few differences between the General Partner and the Operating Partnership in the context of how they operate as a consolidated company. The financial results of the Operating Partnership are consolidated into the financial statements of the General Partner. The General Partner does not have any other significant assets, liabilities or operations, other than its interests in the Operating Partnership, nor does the Operating Partnership have employees of its own. The Operating Partnership, not the General Partner, generally executes all significant business relationships other than transactions involving the securities of the General Partner. The Operating Partnership holds substantially all of the assets of the General Partner, including ownership interests in joint ventures. The Operating Partnership conducts the operations of the business and is structured as a partnership with no publicly traded equity. Except for the net proceeds from equity offerings by the General Partner, which are contributed to the capital of the Operating Partnership in consideration of common or preferred units in the Operating Partnership, as applicable, the Operating Partnership generates all remaining capital required by the Company’s

[Table of Contents](#)

business. These sources include working capital, net cash provided by operating activities, borrowings under the Company's unsecured revolving credit facility and unsecured term loan facilities, the issuance of secured and unsecured debt and equity securities and proceeds received from the disposition of properties and joint ventures.

Shareholders' equity, partners' capital and noncontrolling interests are the main areas of difference between the consolidated financial statements of the General Partner and the Operating Partnership. The limited partners of the Operating Partnership are accounted for as partners' capital in the Operating Partnership's financial statements as is the General Partner's interest in the Operating Partnership. The noncontrolling interests in the Operating Partnership's financial statements comprise the interests of unaffiliated partners in various consolidated partnerships and development joint venture partners. The noncontrolling interests in the General Partner's financial statements are the same noncontrolling interests at the Operating Partnership's level and include limited partners of the Operating Partnership. The differences between shareholders' equity and partners' capital result from differences in the equity issued at the General Partner and Operating Partnership levels.

To help investors better understand the key differences between the General Partner and the Operating Partnership, certain information for the General Partner and the Operating Partnership in this report has been separated, as set forth below:

- Item 6. Selected Financial Data;
- Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations includes information specific to each entity, where applicable;
- Item 8. Financial Statements and Supplementary Data which includes the following specific disclosures for Mack-Cali Realty Corporation and Mack-Cali Realty, L.P.:
 - ⌚ Note 2. Significant Accounting Policies, where applicable;
 - ⌚ Note 15. Redeemable Noncontrolling Interests;
 - ⌚ Note 16. Mack-Cali Realty Corporation's Stockholders' Equity and Mack-Cali Realty, L.P.'s Partners' Capital;
 - ⌚ Note 17. Noncontrolling Interests in Subsidiaries;
 - ⌚ Note 18. Segment Reporting, where applicable; and
 - ⌚ Note 20. Condensed Quarterly Financial Information (unaudited).

This report also includes separate Part II, Item 9A. Controls and Procedures sections and separate Exhibits 31 and 32 certifications for each of the General Partner and the Operating Partnership in order to establish that the requisite certifications have been made and that the General Partner and Operating Partnership are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934 and 18 U.S.C. §1350.

PART I

ITEM 1. BUSINESS

GENERAL

Mack-Cali Realty Corporation, a Maryland corporation, together with its subsidiaries (collectively the “General Partner”), is a fully-integrated, self-administered and self-managed real estate investment trust (“REIT”). The General Partner controls Mack-Cali Realty, L.P., a Delaware limited partnership, together with its subsidiaries (collectively, the “Operating Partnership”), as its sole general partner and owned an 90.4 percent and 89.8 percent common unit interest in the Operating Partnership as of December 31, 2019 and December 31, 2018, respectively. The General Partner’s business is the ownership of interests in and operation of the Operating Partnership and all of the General Partner’s expenses are incurred for the benefit of the Operating Partnership. The General Partner is reimbursed by the Operating Partnership for all expenses it incurs relating to the ownership and operation of the Operating Partnership.

The Operating Partnership conducts the business of providing leasing, management, acquisition, development, construction and tenant-related services for its General Partner. The Operating Partnership, through its operating divisions and subsidiaries, including the Mack-Cali property-owning partnerships and limited liability companies, is the entity through which all of the General Partner’s operations are conducted. Unless stated otherwise or the context requires, the “Company” refers to the General Partner and its subsidiaries, including the Operating Partnership and its subsidiaries.

The Company owns and operates a real estate portfolio comprised predominantly of Class A office and multi-family rental properties located primarily in the Northeast. The Company performs substantially all real estate leasing, management, acquisition and development on an in-house basis. Mack-Cali Realty Corporation was incorporated on May 24, 1994. The Company’s executive offices are located at Harborside 3, 210 Hudson Street, Suite 400, Jersey City, New Jersey 07311, and its telephone number is (732) 590-1010. The Company has an internet website at www.mack-cali.com.

As of December 31, 2019, the Company owned or had interests in 71 properties, consisting of 42 office properties, totaling approximately 10.7 million square feet, leased to approximately 400 commercial tenants, 21 multi-family rental properties containing 6,524 residential units, four parking/retail properties totaling approximately 108,000 square feet, three hotels containing 723 rooms and a parcel of land leased to a third party, plus developable land (collectively, the “Properties”). The Properties are comprised of: (a) 59 wholly-owned or Company-controlled properties consisting of 40 office buildings aggregating approximately 10.5 million square feet, 14 multi-family properties totaling 3,913 apartment units, two parking/retail properties, two hotels and a parcel of land leased to a third party (collectively, the “Consolidated Properties”); and (b) two office properties totaling approximately 0.2 million square feet, seven multi-family properties totaling 2,611 apartment units, two retail properties totaling 81,700 square feet and a 351-room hotel, which are owned by unconsolidated joint ventures in which the Company has investment interests. Unless otherwise indicated, all references to square feet represent net rentable area. As of December 31, 2019, the Company’s core, stabilized office properties included in the Consolidated Properties were 80.7 percent leased. Percentage leased includes all leases in effect as of the period end date, some of which have commencement dates in the future, and leases that expire at the period end date. Leases that expired as of December 31, 2019 aggregate 31,982 square feet, or 0.3 percent of the net rentable square footage. The Properties are located in four states, primarily in the Northeast, and the District of Columbia. See Item 2: Properties.

The Company believes that its Properties have excellent locations and access, and are well-maintained and professionally managed. As a result, the Company believes that its Properties attract high quality tenants and residents and achieve high rental occupancy and tenant and resident retention rates within their markets. The Company also believes that its extensive market knowledge provides it with a significant competitive advantage, which is further enhanced by its strong reputation for, and emphasis on, delivering highly responsive, professional management services.

The Company’s historical strategy has been to focus its operations, acquisition and development of office and multi-family rental properties in high-barrier-to-entry markets and sub-markets where it believes it is, or can become, a significant and preferred owner and operator.

In September 2015, the Company announced an initiative to transform into a more concentrated owner of New Jersey Hudson River waterfront and transit-oriented office properties and a regional owner of luxury multi-family rental properties. As part of this plan, the Company has sold multiple properties, primarily commercial office and office/flex properties, which it believes do not meet its long-term goals.

STRATEGIC DIRECTION

Following the General Partner's 2019 Annual Meeting of Stockholders, the Board of Directors of the General Partner (the "Board") formed a Shareholder Value Committee comprised of four independent directors to review the Company's strategic direction and make a recommendation to the full Board. On December 19, 2019, the Company announced that, based on the recommendations of the Shareholder Value Committee, the Board had determined to sell the Company's entire suburban New Jersey office portfolio totaling approximately 6.6 million square feet (collectively, the "Suburban Office Portfolio"). This does not include the Company's waterfront office properties in Jersey City and Hoboken, New Jersey. As the decision to sell the Suburban Office Portfolio represented a strategic shift in the Company's operations, the portfolio's results are being classified as discontinued operations for all periods presented herein.

Following the December 2019 announcement, the Shareholder Value Committee was disbanded. Subsequent thereto, the Board's Nominating and Corporate Governance Committee appointed a new committee of the Board, the Special Committee, to monitor the Company's strategic direction and to receive and consider any offers to buy the Company that may be proffered.

During the year ended December 31, 2019, the Company completed the sale of two of these suburban office properties, totaling 497,000 square feet, for net sales proceeds of \$52.2 million. As of December 31, 2019, the Company has identified as held for sale the remaining 35 office properties in the Suburban Office Portfolio, totaling 6.1 million square feet.

The Company expects to complete the sale of its remaining Suburban Office Portfolio properties in 2020, and plans to use the available sales proceeds to pay down its corporate-level, unsecured indebtedness. After the completion of the Suburban Office Portfolio sales, the Company's holdings will consist of its waterfront class A office portfolio and its multi-family rental portfolio, and related development projects and land holdings.

BUSINESS STRATEGIES

Operations

Reputation: The Company has established a reputation as a highly-regarded landlord with an emphasis on delivering quality customer service in buildings it owns and/or manages. The Company believes that its continued success depends in part on enhancing its reputation as an operator of choice, which will facilitate the retention of current tenants and residents and the attraction of new tenants and residents. The Company believes it provides a superior level of service to its customers that is an important factor in working to achieve positive leasing results as well as improving tenant retention.

Communication with tenants: The Company emphasizes frequent communication with its customers to ensure first-class service to the Properties. Property management personnel generally are located on site at the Properties to provide convenient access to management and to ensure that the Properties are well-maintained. Property management's primary responsibility is to ensure that buildings are operated at peak efficiency in order to meet both the Company's and tenants' needs and expectations. Property management personnel additionally budget and oversee capital improvements and building system upgrades to enhance the Properties' competitive advantages in their respective markets and to maintain the quality of the Properties.

The Company's in-house leasing representatives for its office portfolio develop and maintain long-term relationships with the Company's diverse tenant base and coordinate leasing, expansion, relocation and build-to-suit opportunities. This approach allows the Company to offer office space in the appropriate size and location to current or prospective tenants in any of its sub-markets.

The Company's in-house multi-family rental management team emphasizes meticulous attention to detail and an unwavering commitment to customer service to complement the quality, design excellence and luxury living attributes of its multi-family rental properties. The Company believes this strategy will enable the Company to buttress management's reputation with the market-leading designs, amenities and features of its multi-family rental properties to attract quality residents.

Portfolio Management: The Company plans to continue to own and operate a portfolio of office and multi-family rental properties in high-barrier-to-entry markets, with a primary focus in the Northeast. The Company also expects to continue to complement its core portfolio of office properties by pursuing acquisition and development opportunities in the multi-family rental sector. The Company's primary objectives are to maximize operating cash flow and to enhance the value of its portfolio through effective management, acquisition, development and property sales strategies.

The Company seeks to maximize the value of its existing office and multi-family rental portfolio through implementing operating strategies designed to produce the highest effective rental and occupancy rates and lowest tenant installation costs within the markets that it operates, and further within the parameters of those markets. The Company continues to pursue internal growth through leasing

[Table of Contents](#)

vacant space, re-leasing space at the highest possible effective rents in light of current market conditions with contractual rent increases and developing or redeveloping office space for its diverse base of high credit quality tenants, including MUFG Bank Ltd; KPMG, LLP; and Merrill Lynch Pierce Fenner. In addition, the Company seeks economies of scale through volume discounts to take advantage of its size and dominance in particular sub-markets, and operating efficiencies through the use of in-house management, leasing, marketing, financing, accounting, legal and development.

The Company continually reviews its portfolio and opportunities to divest office and multi-family rental properties that, among other things, no longer meet its long-term strategy, have reached their potential, are less efficient to operate or can be sold at attractive prices when market conditions are favorable. The Company anticipates continuing to redeploy the proceeds from sales of office and multi-family rental properties to develop, redevelop and acquire multi-family rental properties, as well as reposition certain office properties into multi-family/mixed use properties, in its core Northeast sub-markets as part of its overall strategy to reposition its portfolio from office to a mix of office and multi-family rental properties.

The Company believes that the opportunity to invest in multi-family development properties at higher returns on cost will position the Company to potentially produce higher levels of net operating income than if the Company were to only purchase stabilized multi-family properties at market returns. The Company believes that the transition to a company with a greater proportion of its properties in the multi-family residential sector will ultimately result in the creation of greater shareholder value than remaining a primarily suburban commercial office company, in part due to the lower capitalization rates associated with the multi-family sector.

Acquisitions: The Company also believes that growth opportunities exist through acquiring operating properties or properties for redevelopment with attractive returns in its core Northeast sub-markets where, based on its expertise in leasing, managing and operating properties, it believes it is, or can become, a significant and preferred owner and operator. The Company intends either directly or through joint ventures to acquire, invest in or redevelop additional properties, that: (i) are expected to provide attractive long-term yields; (ii) are well-located, of high quality and competitive in their respective sub-markets; (iii) are located in its existing sub-markets or in sub-markets in which the Company is or can become a significant and preferred owner and operator; and (iv) it believes have been under-managed or are otherwise capable of improved performance through intensive management, capital improvements and/or leasing that should result in increased effective rental and occupancy rates.

Development: The Company seeks to selectively develop additional properties either directly or through joint ventures where it believes such development will result in a favorable risk-adjusted return on investment in coordination with the above operating strategies. The Company identifies development opportunities primarily through its local market presence. Such development primarily will occur: (i) in stable core Northeast sub-markets where the demand for such space exceeds available supply; and (ii) where the Company is, or can become, a significant and preferred owner and operator. As part of the Company's strategy to expand its multi-family rental portfolio, the Company may consider development opportunities with respect to improved land with existing commercial uses and seek to rezone the sites for multi-family rental use and development. As a result of competitive market conditions for land suitable for development, the Company may be required to hold land prior to construction for extended periods while entitlements or rezoning is obtained. The Company also may undertake repositioning opportunities that may require the expenditure of significant amounts of capital.

Property Sales: While management's principal intention has been to own and operate its properties on a long-term basis, it periodically assesses the attributes of each of its properties, with a particular focus on the supply and demand fundamentals of the sub-markets in which they are located. The Company continually reviews its portfolio and opportunities to divest properties that, among other things, no longer meet its long-term strategy, have reached their potential, are less efficient to operate, or can be sold at attractive prices when market conditions are favorable. The Company completed the sale of rental property for aggregate gross sales proceeds of \$1.1 billion during 2019 and \$385.1 million during 2018.

Financial

The Company currently intends to maintain a ratio of debt-to-undepreciated assets (total debt of the Company as a percentage of total undepreciated assets) of 50 percent or less, however there can be no assurance that the Company will be successful in maintaining this ratio. As of December 31, 2019 and 2018, the Company's total debt constituted approximately 48 percent and 45 percent of total undepreciated assets of the Company, respectively. The increase in this ratio in 2019 was primarily the result of an increase in debt associated with its multi-family development activity during the year. Although there is no limit in the Company's organizational documents on the amount of indebtedness that the Company may incur, the Company has entered into certain financial agreements which contain covenants that limit the Company's ability to incur indebtedness under certain circumstances. The Company intends to utilize the most appropriate sources of capital for future acquisitions, development, capital improvements and other investments, which may include funds from operating activities, proceeds from property and land sales, joint venture capital, and short-term and long-term borrowings (including draws on the Company's unsecured revolving credit facility), and the issuance of additional debt or equity securities.

EMPLOYEES

As of December 31, 2019, the Company had approximately 283 full-time employees.

COMPETITION

The leasing of real estate is highly competitive. The Properties compete for tenants and residents with lessors and developers of similar properties located in their respective markets primarily on the basis of location, the quality of properties, leasing terms (including rent and other charges and allowances for tenant improvements), services or amenities provided, the design and condition of the Properties, and reputation as an owner and operator of quality properties in the relevant markets. Additionally, the number of competitive multi-family rental properties in a particular area could have a material effect on the Company's ability to lease residential units and on rents charged. In addition, other forms of multi-family rental properties or single family housing provide alternatives to potential residents of multi-family properties. The Company competes with other entities, some of which may have significant resources or who may be willing to accept lower returns or pay higher prices than the Company in terms of acquisition and development opportunities. The Company also experiences competition when attempting to acquire or dispose of real estate, including competition from domestic and foreign financial institutions, other REITs, life insurance companies, pension trusts, trust funds, partnerships, individual investors and others.

REGULATIONS

Many laws and governmental regulations apply to the ownership and/or operation of the Properties and changes in these laws and regulations, or their interpretation by agencies and the courts, occur frequently.

Under various laws and regulations relating to the protection of the environment and human health, an owner of real estate may be held liable for the costs of removal or remediation of certain hazardous or toxic substances located on or in the property. These laws often impose liability without regard to whether the owner was responsible for, or even knew of, the presence of such substances. The presence of such substances may adversely affect the owner's ability to rent or sell the property or to borrow using such property as collateral and may expose it to liability resulting from any release of, or exposure to, such substances. Persons who arrange for the disposal or treatment of hazardous or toxic substances at another location may also be liable for the costs of removal or remediation of such substances at the disposal or treatment facility, whether or not such facility is owned or operated by such person. Certain environmental laws impose liability for the release of asbestos-containing materials into the air, and third parties may also seek recovery from owners or operators of real properties for personal injury associated with asbestos-containing materials and other hazardous or toxic substances.

In connection with the ownership (direct or indirect), operation, management and development of real properties, the Company may be considered an owner or operator of such properties or as having arranged for the disposal or treatment of hazardous or toxic substances and, therefore, potentially liable for removal or remediation costs, as well as certain other related costs, including governmental penalties and injuries to persons and property.

There can be no assurance that (i) future laws, ordinances or regulations will not impose any material environmental liability, (ii) the current environmental condition of the Properties will not be affected by tenants, by the condition of land or operations in the vicinity of the Properties (such as the presence of underground storage tanks), or by third parties unrelated to the Company, or (iii) the Company's assessments reveal all environmental liabilities and that there are no material environmental liabilities of which the Company is aware. If compliance with the various laws and regulations, now existing or hereafter adopted, exceeds the Company's budgets for such items, the Company's ability to make expected distributions to stockholders could be adversely affected.

There are no other laws or regulations which have a material effect on the Company's operations, other than typical federal, state and local laws affecting the development and operation of real property, such as zoning laws.

INDUSTRY SEGMENTS

The Company operates in two industry segments: (i) commercial and other real estate and (ii) multi-family real estate and services. As of December 31, 2019, the Company does not have any foreign operations and its business is not seasonal. Please see our financial statements attached hereto and incorporated by reference herein for financial information relating to our industry segments.

SIGNIFICANT TENANTS

As of December 31, 2019, no tenant accounted for more than 10 percent of the Company's consolidated revenues.

RECENT DEVELOPMENTS

Acquisitions

During the year ended December 31, 2019, the Company acquired an office property, two multi-family rental properties and three unimproved developable land parcels for a total of approximately \$804.1 million, which was funded using funds available with the Company's qualified intermediary from property sales proceeds, a new mortgage loan and borrowings under the Company's unsecured revolving credit facility.

Consolidations

On January 31, 2019, the Company, which held a 24.27 percent subordinated interest in the unconsolidated joint venture, Marbella Tower Urban Renewal Associates South LLC, a 311-unit multi-family operating property located in Jersey City, New Jersey, acquired its equity partner's 50 percent preferred controlling interest for \$77.5 million in cash. The property was subject to a mortgage loan that had a principal balance of \$74.7 million. The acquisition was funded primarily using available cash. Concurrently with the closing, the joint venture repaid in full the property's \$74.7 million mortgage loan and obtained a new loan collateralized by the property in the amount of \$117 million, which bears interest at 4.2 percent and matures in August 2026. The Company received \$43.3 million in distribution from the loan proceeds which was used to acquire the equity partner's 50 percent interest. As a result of the acquisition, the Company increased its ownership of the property from a 24.27 percent subordinated interest to a 74.27 percent controlling interest. In accordance with ASC 810, Consolidation, the Company evaluated the acquisition and determined that the entity meets the criteria of a VIE. As such, the Company consolidated the asset upon acquisition and accordingly, remeasured its equity interests, as required by the FASB's consolidation guidance, at fair value (based upon the income approach using current rental rates and market cap rates and discount rates). As a result, the Company recorded a gain on change of control of interests of \$13.8 million (a non-cash item) in the year ended December 31, 2019, in which the Company accounted for the transaction as a VIE that is not a business in accordance with ASC 810-10-30-4. Additional non-cash items included in the acquisition were the Company's carrying value of its interest in the joint venture of \$15.3 million and the noncontrolling interest's fair value of \$13.7 million.

Properties Commencing Initial Operations

During the year ended December 31, 2019, the Company commenced initial operations of a hotel with 208 rooms, which was completed for total development costs of approximately \$105.5 million.

Dispositions/Real Estate Held for Sale

During the year ended December 31, 2019, the Company disposed of 64 office properties, four multi-family rental properties and four developable land properties in New Jersey, Massachusetts and New York for net sales proceeds of approximately \$1.1 billion, with net gains of approximately \$390 million from the dispositions.

The Company identified 35 office properties, a retail pad leased to others and several developable land parcels as held for sale as of December 31, 2019. The total estimated sales proceeds, net of expected selling costs, from these sales are expected to be approximately \$1.2 billion. The Company determined that the carrying value of 20 of the properties and several land parcels was not expected to be recovered from estimated net sales proceeds and accordingly during the year ended December 31, 2019, recognized an unrealized loss allowance of \$174.1 million (\$137.9 million of which are from discontinued operations), and land and other impairments of \$32.4 million.

Unconsolidated Joint Venture Activity

On February 28, 2019, the Company sold its interest in the Red Bank Corporate Plaza joint venture which owns an operating property located in Red Bank, New Jersey for a sales price of \$4.2 million, and realized a gain on the sale of the unconsolidated joint venture of \$0.9 million.

Development Activity

The Company is developing a 313-unit multi-family project known as Port Imperial South 9 at Port Imperial in Weehawken, New Jersey, which began construction in third quarter 2018. The construction project, which is estimated to cost \$142.9 million, of which construction costs of \$67.8 million have been incurred through December 31, 2019, is expected to be ready for occupancy in fourth quarter 2020. The Company has funded \$50.9 million as of December 31, 2019, and the remaining construction costs are expected to

be funded primarily from a \$92 million construction loan.

The Company is developing a 326-unit multi-family project known as Chase III at Overlook Ridge in Malden, Massachusetts, which began construction in third quarter 2018. The construction project, which is estimated to cost \$100.7 million, of which \$64.3 million have been incurred through December 31, 2019, is expected to be ready for initial occupancy in first quarter 2020. The Company has funded \$38.7 million as of December 31, 2019, and the remaining construction costs are expected to be funded primarily from a \$62 million construction loan.

The Company is developing a 198-unit multi-family project known as The Upton at Short Hills located in Short Hills, New Jersey, which began construction in fourth quarter 2018. The construction project, which is estimated to cost \$99.4 million, of which \$50.4 million have been incurred through December 31, 2019, is expected to be ready for occupancy in fourth quarter 2020. The Company has funded \$35.4 million of the construction costs, and the remaining construction costs are expected to be funded primarily from a \$64 million construction loan.

The Company is developing a 750-unit multi-family project at 25 Christopher Columbus in Jersey City, New Jersey, which began construction in first quarter 2019. The construction project, which is estimated to cost \$469.5 million, of which \$151.9 million have been incurred through December 31, 2019, is expected to be ready for occupancy in first quarter 2022. The Company is expected to fund \$169.5 million of the construction costs of which the Company has funded \$122.5 million as of December 31, 2019, and the remaining construction costs are expected to be funded primarily from a newly obtained \$300 million construction loan.

Operations

Of the Company's office markets, most continue to show signs of rental rate improvement while the leased percentage has declined or stabilized. The percentage leased in the Company's stabilized core operating commercial properties included in its Consolidated Properties was 80.7 percent at December 31, 2019, as compared to 83.2 percent at December 31, 2018 and 87.6 percent at December 31, 2017 (after adjusting for properties identified as non-core at the time). Percentage leased includes all leases in effect as of the period end date, some of which have commencement dates in the future and leases that expire at the period end date. Leases that expired as of December 31, 2019, 2018 and 2017 aggregate 31,982, 10,108 and 343,217 square feet, respectively, or 0.3, 0.1 and 2.3 percentage of the net rentable square footage, respectively. With the positive rental rate results the Company has achieved in most of its markets recently, the Company believes that rental rates on new leases will generally be, on average, not lower than rates currently being paid. If these recent leasing results do not prove to be sustaining during 2020, the Company may receive less revenue from the same space.

FINANCING ACTIVITY

During the year ended December 31, 2019, the Company prepaid its unsecured term loans totaling \$675 million, using funds from property sales proceeds, proceeds from mortgage loan financing and borrowings under the Company's unsecured revolving credit facility.

Rockpoint Transaction

On February 27, 2017, the Company, Roseland Residential Trust ("RRT"), the Company's subsidiary through which the Company conducts its multi-family residential real estate operations, Roseland Residential, L.P. ("RRLP"), the operating partnership through which RRT conducts all of its operations, and certain other affiliates of the Company entered into a preferred equity investment agreement (the "Original Investment Agreement") with certain affiliates of Rockpoint Group, L.L.C. (Rockpoint Group, L.L.C. and its affiliates, collectively, "Rockpoint"). The Original Investment Agreement provided for RRT to contribute property to RRLP in exchange for common units of limited partnership interests in RRLP (the "Common Units") and for multiple equity investments by Rockpoint in RRLP from time to time for up to an aggregate of \$300 million of preferred units of limited partnership interests in RRLP (the "Preferred Units"). The initial closing under the Original Investment Agreement occurred on March 10, 2017 for \$150 million of Preferred Units and the parties agreed that the Company's contributed equity value ("RRT Contributed Equity Value"), was \$1.23 billion at closing. During the year ended December 31, 2018, a total additional amount of \$105 million of Preferred Units were issued and sold to Rockpoint pursuant to the Original Investment Agreement. During the three months ended March 31, 2019, a total additional amount of \$45 million of Preferred Units were issued and sold to Rockpoint pursuant to the Original Investment Agreement, which brought the Preferred Units to the full balance of \$300 million. In addition, certain contributions of property to RRLP by RRT subsequent to the execution of the Original Investment Agreement resulted in RRT being issued approximately \$46 million of Preferred Units and Common Units in RRLP prior to June 26, 2019.

On June 26, 2019, the Company, RRT, RRLP, certain other affiliates of the Company and Rockpoint entered into an additional preferred equity investment agreement (the "Add On Investment Agreement"). The closing under the Add On Investment Agreement occurred

on June 28, 2019. Pursuant to the Add On Investment Agreement, Rockpoint invested an additional \$100 million in Preferred Units and the Company and RRT agreed to contribute to RRLP two additional properties located in Jersey City, New Jersey. The Company used the \$100 million in proceeds received to repay outstanding borrowings under its unsecured revolving credit facility and other debt by June 30, 2019. In addition, Rockpoint has a right of first refusal to invest another \$100 million in Preferred Units in the event RRT determines that RRLP requires additional capital prior to March 1, 2023 and, subject thereto, RRLP may issue up to approximately \$154 million in Preferred Units to RRT or an affiliate so long as at the time of such funding RRT determines in good faith that RRLP has a valid business purpose to use such proceeds. See Note 15: Redeemable Noncontrolling Interests – to the Financial Statements for additional information about the Add On Investment Agreement and the related transactions with Rockpoint.

DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

We consider portions of this report, including the documents incorporated by reference, to be forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 21E of such act. Such forward-looking statements relate to, without limitation, our future economic performance, plans and objectives for future operations and projections of revenue and other financial items. Forward-looking statements can be identified by the use of words such as "may," "will," "plan," "potential," "projected," "should," "expect," "anticipate," "estimate," "target," "continue," or comparable terminology. Forward-looking statements are inherently subject to certain risks, trends and uncertainties, many of which we cannot predict with accuracy and some of which we might not even anticipate. Although we believe that the expectations reflected in such forward-looking statements are based upon reasonable assumptions at the time made, we can give no assurance that such expectations will be achieved. Future events and actual results, financial and otherwise, may differ materially from the results discussed in the forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements.

Among the factors about which we have made assumptions are:

- ⊗ risks and uncertainties affecting the general economic climate and conditions, which in turn may have a negative effect on the fundamentals of our business and the financial condition of our tenants and residents;
- ⊗ the value of our real estate assets, which may limit our ability to dispose of assets at attractive prices or obtain or maintain debt financing secured by our properties or on an unsecured basis;
- ⊗ the extent of any tenant bankruptcies or of any early lease terminations;
- ⊗ our ability to lease or re-lease space at current or anticipated rents;
- ⊗ changes in the supply of and demand for our properties;
- ⊗ changes in interest rate levels and volatility in the securities markets;
- ⊗ our ability to complete construction and development activities on time and within budget, including without limitation obtaining regulatory permits and the availability and cost of materials, labor and equipment;
- ⊗ forward-looking financial and operational information, including information relating to future development projects, potential acquisitions or dispositions, leasing activities, capitalization rates, and projected revenue and income;
- ⊗ changes in operating costs;
- ⊗ our ability to obtain adequate insurance, including coverage for terrorist acts;
- ⊗ our credit worthiness and the availability of financing on attractive terms or at all, which may adversely impact our ability to pursue acquisition and development opportunities and refinance existing debt and our future interest expense;
- ⊗ changes in governmental regulation, tax rates and similar matters; and

- ① other risks associated with the development and acquisition of properties, including risks that the development may not be completed on schedule, that the tenants or residents will not take occupancy or pay rent, or that development or operating costs may be greater than anticipated.

For further information on factors which could impact us and the statements contained herein, see Item 1A: Risk Factors. We assume no obligation to update and supplement forward-looking statements that become untrue because of subsequent events, new information or otherwise.

ITEM 1A. RISK FACTORS

Our results from operations and ability to make distributions on our equity and debt service on our indebtedness may be affected by the risk factors set forth below. All investors should consider the following risk factors before deciding to purchase securities of the Company. The Company refers to itself as “we” or “our” in the following risk factors.

Adverse economic and geopolitical conditions in general and the Northeastern office markets in particular could have a material adverse effect on our results of operations, financial condition and our ability to pay distributions to you.

Our business may be affected by the continuing volatility in the financial and credit markets, the general global economic conditions, continuing high unemployment, and other market or economic challenges experienced by the U.S. economy or the real estate industry as a whole. Our business also may be adversely affected by local economic conditions, as substantially all of our revenues are derived from our properties located in the Northeast, particularly in New Jersey and New York. Because our portfolio currently consists primarily of office and multi-family rental buildings (as compared to a more diversified real estate portfolio) located in the Northeast, if economic conditions persist or deteriorate, then our results of operations, financial condition and ability to service current debt and to pay distributions to our shareholders may be adversely affected by the following, among other potential conditions:

- ① significant job losses in the financial and professional services industries may occur, which may decrease demand for our office space, causing market rental rates and property values to be negatively impacted;
- ① our ability to borrow on terms and conditions that we find acceptable, or at all, may be limited, which could reduce our ability to pursue acquisition and development opportunities and refinance existing debt, reduce our returns from both our existing operations and our acquisition and development activities and increase our future interest expense;
- ① reduced values of our properties may limit our ability to dispose of assets at attractive prices or to obtain debt financing secured by our properties and may reduce the availability of unsecured loans;
- ① the value and liquidity of our short-term investments and cash deposits could be reduced as a result of a deterioration of the financial condition of the institutions that hold our cash deposits or the institutions or assets in which we have made short-term investments, the dislocation of the markets for our short-term investments, increased volatility in market rates for such investments or other factors;
- ① reduced liquidity in debt markets and increased credit risk premiums for certain market participants may impair our ability to access capital; and
- ① one or more lenders under our line of credit could refuse or be unable to fund their financing commitment to us and we may not be able to replace the financing commitment of any such lenders on favorable terms, or at all.

These conditions, which could have a material adverse effect on our results of operations, financial condition and ability to pay distributions, may continue or worsen in the future.

Our performance is subject to risks associated with the real estate industry.

General: Our business and our ability to make distributions or payments to our investors depend on the ability of our properties to generate funds in excess of operating expenses (including scheduled principal payments on debt and capital expenditures). Events or conditions that are beyond our control may adversely affect our operations and the value of our properties. Such events or conditions could include:

- ① changes in the general economic climate and conditions;
- ① changes in local conditions, such as an oversupply of office space, a reduction in demand for office space, or reductions in office market rental rates;

- ⌚ an oversupply or reduced demand for multi-family apartments caused by a decline in household formation, decline in employment or otherwise;
- ⌚ decreased attractiveness of our properties to tenants and residents;
- ⌚ competition from other office and multi-family properties;
- ⌚ development by competitors of competing multi-family communities;
- ⌚ unwillingness of tenants to pay rent increases;
- ⌚ rent control or rent stabilization laws, or other housing laws and regulations that could prevent us from raising multi-family rents to offset increases in operating costs;
- ⌚ our inability to provide adequate maintenance;
- ⌚ increased operating costs, including insurance premiums, utilities and real estate taxes, due to inflation and other factors which may not necessarily be offset by increased rents;
- ⌚ changes in laws and regulations (including tax, environmental, zoning and building codes, landlord/tenant and other housing laws and regulations) and agency or court interpretations of such laws and regulations and the related costs of compliance;
- ⌚ changes in interest rate levels and the availability of financing;
- ⌚ the inability of a significant number of tenants or residents to pay rent;
- ⌚ our inability to rent office or multi-family rental space on favorable terms; and
- ⌚ civil unrest, earthquakes, acts of terrorism and other natural disasters or acts of God that may result in uninsured losses.

We may suffer adverse consequences if our revenues decline since our operating costs do not necessarily decline in proportion to our revenue: We earn a significant portion of our income from renting our properties. Our operating costs, however, do not necessarily fluctuate in relation to changes in our rental revenue. This means that our costs will not necessarily decline even if our revenues do. Our operating costs could also increase while our revenues do not. If our operating costs increase but our rental revenues do not, we may be forced to borrow to cover our costs and we may incur losses. Such losses may adversely affect our ability to make distributions or payments to our investors.

Financially distressed tenants may be unable to pay rent: If a tenant defaults, we may experience delays and incur substantial costs in enforcing our rights as landlord and protecting our investments. If a tenant files for bankruptcy, we cannot evict the tenant solely because of the bankruptcy and a potential court judgment rejecting and terminating such tenant's lease (which would subject all future unpaid rent to a statutory cap) could adversely affect our ability to make distributions or payments to our investors as we may be unable to replace the defaulting tenant with a new tenant at a comparable rental rate without incurring significant expenses or a reduction in rental income.

Renewing leases or re-letting space could be costly: If a tenant does not renew its lease upon expiration or terminates its lease early, we may not be able to re-lease the space on favorable terms or at all. If a tenant does renew its lease or we re-lease the space, the terms of the renewal or new lease, including the cost of required renovations or concessions to the tenant, may be less favorable than the current lease terms, which could adversely affect our ability to make distributions or payments to our investors.

Adverse developments concerning some of our major tenants and industry concentrations could have a negative impact on our revenue: We have tenants concentrated in various industries that may be experiencing adverse effects of current economic conditions. For instance, 24.9 percent of our revenue is derived from tenants in the Securities, Commodity Contracts and Other Financial industry, 12.3 percent from tenants in the Credit Intermediation and Related Activities industry and 11.5 percent from tenants in the Insurance Carriers and Related Activities industry. Our business could be adversely affected if any of these industries suffered a downturn and/or these tenants or any other tenants became insolvent, declared bankruptcy or otherwise refused to pay rent in a timely manner or at all.

Our insurance coverage on our properties may be inadequate or our insurance providers may default on their obligations to pay claims: We currently carry comprehensive insurance on all of our properties, including insurance for liability, fire and flood. We cannot guarantee that the limits of our current policies will be sufficient in the event of a catastrophe to our properties. We cannot guarantee that we will be able to renew or duplicate our current insurance coverage in adequate amounts or at reasonable prices. In addition, while our current insurance policies insure us against loss from terrorist acts and toxic mold, in the future, insurance companies may no longer offer coverage against these types of losses, or, if offered, these types of insurance may be prohibitively expensive. If any or all of the foregoing should occur, we may not have insurance coverage against certain types of losses and/or there may be decreases in the limits of insurance available. Should an uninsured loss or a loss in excess of our insured limits occur, we could lose all or a portion of the capital we have invested in a property or properties, as well as the anticipated future revenue from the property or properties. Nevertheless, we might remain obligated for any mortgage debt or other financial obligations related to the property or properties. We cannot guarantee that material losses in excess of insurance proceeds will not occur in the future. If any of our properties were to

experience a catastrophic loss, it could seriously disrupt our operations, delay revenue and result in large expenses to repair or rebuild the property. Such events could adversely affect our ability to make distributions or payments to our investors. If one or more of our insurance providers were to fail to pay a claim as a result of insolvency, bankruptcy or otherwise, the nonpayment of such claims could have an adverse effect on our financial condition and results of operations. In addition, if one or more of our insurance providers were to become subject to insolvency, bankruptcy or other proceedings and our insurance policies with the provider were terminated or canceled as a result of those proceedings, we cannot guarantee that we would be able to find alternative coverage in adequate amounts or at reasonable prices. In such case, we could experience a lapse in any or adequate insurance coverage with respect to one or more properties and be exposed to potential losses relating to any claims that may arise during such period of lapsed or inadequate coverage.

Illiquidity of real estate limits our ability to act quickly: Real estate investments are relatively illiquid. Such illiquidity may limit our ability to react quickly in response to changes in economic and other conditions. If we want to sell an investment, we might not be able to dispose of that investment in the time period we desire, and the sales price of that investment might not recoup or exceed the amount of our investment. The prohibition in the Internal Revenue Code of 1986, as amended (the “IRS Code”), and related regulations on a real estate investment trust holding property for sale also may restrict our ability to sell property. In addition, we acquired a significant number of our properties from individuals to whom the Operating Partnership issued Units as part of the purchase price. In connection with the acquisition of these properties, in order to preserve such individual’s income tax deferral, we contractually agreed not to sell or otherwise transfer the properties for a specified period of time, except in a manner which does not result in recognition of any built-in-gain (which may result in an income tax liability) or which reimburses the appropriate individuals for the income tax consequences of the recognition of such built-in-gains. These restrictions expired in February 2016. Upon the expiration of such restrictions we are generally required to use commercially reasonable efforts to prevent any sale, transfer or other disposition of the subject properties from resulting in the recognition of built-in gain to the appropriate individuals. After the effects of tax-free exchanges on certain of the originally contributed properties, either wholly or partially, over time, 27 of our properties, as well as certain land and development projects, including properties classified as held for sale as of December 31, 2019, with an aggregate carrying value of approximately \$1.9 billion, are subject to these conditions. The above limitations on our ability to sell our investments could adversely affect our ability to make distributions or payments to our investors.

We may not be able to dispose of non-core office assets within our anticipated timeframe or at favorable prices: The Company has determined to sell over time properties at total estimated sales proceeds of up to \$1.2 billion, including the sale of the Suburban Office Portfolio. This does not include the Company’s waterfront office properties in Jersey City and Hoboken, New Jersey. While we intend to dispose of these properties opportunistically over time, there can be no assurance that these dispositions will be completed during the period of our strategic initiative. In addition, market conditions will impact our ability to dispose of these properties, and there can be no assurance that we will be successful in disposing of these properties for their estimated sales prices. A failure to dispose of these properties for their estimated market values as planned, or unfavorable tax consequences of the disposition of these properties could have a material adverse effect on our ability to finance our acquisition and development plans and could adversely affect our ability to make distributions or payments to our investors.

New acquisitions, including acquisitions of multi-family rental real estate, may fail to perform as expected and will subject us to additional new risks and could adversely affect our ability to make distributions or payments to our investors: We intend to and may acquire new properties, primarily in the multi-family rental sector, assuming that we are able to obtain capital on favorable terms. Such newly acquired properties may not perform as expected and may subject us to unknown liability with respect to liabilities relating to such properties for clean-up of undisclosed environmental contamination or claims by tenants, residents, vendors or other persons against the former owners of the properties. Inaccurate assumptions regarding future rental or occupancy rates could result in overly optimistic estimates of future revenues. In addition, future operating expenses or the costs necessary to bring an acquired property up to standards established for its intended market position may be underestimated. The search for and process of acquiring such properties will also require a substantial amount of management’s time and attention. As our portfolio shifts from primarily commercial office properties to increasingly more multi-family rental properties we will face additional and new risks such as:

- ⌚ shorter-term leases of one-year on average for multi-family rental communities, which allow residents to leave after the term of the lease without penalty;
- ⌚ increased competition from other housing sources such as other multi-family rental communities, condominiums and single-family houses that are available for rent as well as for sale;
- ⌚ dependency on the convenience and attractiveness of the communities or neighborhoods in which our multi-family rental properties are located and the quality of local schools and other amenities;
- ⌚ dependency on the financial condition of Fannie Mae or Freddie Mac which provide a major source of financing to the multi-family rental sector; and
- ⌚ compliance with housing and other new regulations.

The above factors could adversely affect our ability to make distributions or payments to our investors.

Americans with Disabilities Act compliance could be costly: Under the Americans with Disabilities Act of 1990 (“ADA”), all public accommodations and commercial facilities must meet certain federal requirements related to access and use by disabled persons. Compliance with the ADA requirements could involve removal of structural barriers from certain disabled persons’ entrances. Other federal, state and local laws may require modifications to or restrict further renovations of our properties with respect to such accesses. Although we believe that our properties are substantially in compliance with present requirements, noncompliance with the ADA or related laws or regulations could result in the United States government imposing fines or private litigants being awarded damages against us. Such costs may adversely affect our ability to make distributions or payments to our investors.

Environmental problems are possible and may be costly: Various federal, state and local laws and regulations subject property owners or operators to liability for the costs of removal or remediation of certain hazardous or toxic substances located on or in the property. These laws often impose liability without regard to whether the owner or operator was responsible for or even knew of the presence of such substances. The presence of or failure to properly remediate hazardous or toxic substances (such as toxic mold, lead paint and asbestos) may adversely affect our ability to rent, sell or borrow against contaminated property and may impose liability upon us for personal injury to persons exposed to such substances. Various laws and regulations also impose liability on persons who arrange for the disposal or treatment of hazardous or toxic substances at another location for the costs of removal or remediation of such substances at the disposal or treatment facility. These laws often impose liability whether or not the person arranging for such disposal ever owned or operated the disposal facility. Certain other environmental laws and regulations impose liability on owners or operators of property for injuries relating to the release of asbestos-containing or other materials into the air, water or otherwise into the environment. As owners and operators of property and as potential arrangers for hazardous substance disposal, we may be liable under such laws and regulations for removal or remediation costs, governmental penalties, property damage, personal injuries and related expenses. Payment of such costs and expenses could adversely affect our ability to make distributions or payments to our investors.

We face risks associated with property acquisitions: We have acquired in the past, and our long-term strategy is to continue to pursue the acquisition of rental properties, primarily in New Jersey, particularly multi-family rental properties. We may be competing for investment opportunities with entities that have greater financial resources. Several developers and real estate companies may compete with us in seeking properties for acquisition, land for development and prospective tenants. Such competition may adversely affect our ability to make distributions or payments to our investors by:

- ① reducing the number of suitable investment opportunities offered to us;
- ② increasing the bargaining power of property owners;
- ③ interfering with our ability to attract and retain tenants;
- ④ increasing vacancies which lowers market rental rates and limits our ability to negotiate rental rates; and/or
- ⑤ adversely affecting our ability to minimize expenses of operation.

Our acquisition activities and their success are subject to the following risks:

- ① adequate financing to complete acquisitions may not be available on favorable terms or at all as a result of the continuing volatility in the financial and credit markets;
- ② even if we enter into an acquisition agreement for a property, we may be unable to complete that acquisition and risk the loss of certain non-refundable deposits and incurring certain other acquisition-related costs;
- ③ the actual costs of repositioning or redeveloping acquired properties may be greater than our estimates;
- ④ any acquisition agreement will likely contain conditions to closing, including completion of due diligence investigations to our satisfaction or other conditions that are not within our control, which may not be satisfied; and
- ⑤ we may be unable to quickly and efficiently integrate new acquisitions, particularly acquisitions of portfolios of properties, into our existing operations, and acquired properties may fail to perform as expected; which may adversely affect our results of operations and financial condition.

Development of real estate, including the development of multi-family rental real estate could be costly: As part of our operating strategy, we may acquire land for development or construct on owned land, under certain conditions. Included among the risks of the real estate development business are the following, which may adversely affect our ability to make distributions or payments to our investors:

- ① financing for development projects may not be available on favorable terms;
- ② long-term financing may not be available upon completion of construction;
- ③ failure to complete construction and lease-up on schedule or within budget may increase debt service expense and construction and other costs; and

- ⌚ failure to rent the development at all or at rent levels originally contemplated.

Property ownership through joint ventures could subject us to the contrary business objectives of our co-venturers: We, from time to time, invest in joint ventures or partnerships in which we do not hold a controlling interest in the assets underlying the entities in which we invest, including joint ventures in which (i) we own a direct interest in an entity which controls such assets, or (ii) we own a direct interest in an entity which owns indirect interests, through one or more intermediaries, of such assets. These investments involve risks that do not exist with properties in which we own a controlling interest with respect to the underlying assets, including the possibility that (i) our co-venturers or partners may, at any time, become insolvent or otherwise refuse to make capital contributions when due, (ii) we may be responsible to our co-venturers or partners for indemnifiable losses, (iii) we may become liable with respect to guarantees of payment or performance by the joint ventures, (iv) we may become subject to buy-sell arrangements which could cause us to sell our interests or acquire our co-venturer's or partner's interests in a joint venture, or (v) our co-venturers or partners may, at any time, have business, economic or other objectives that are inconsistent with our objectives. Because we lack a controlling interest, our co-venturers or partners may be in a position to take action contrary to our instructions or requests or contrary to our policies or objectives. While we seek protective rights against such contrary actions, there can be no assurance that we will be successful in procuring any such protective rights, or if procured, that the rights will be sufficient to fully protect us against contrary actions. Our organizational documents do not limit the amount of available funds that we may invest in joint ventures or partnerships. If the objectives of our co-venturers or partners are inconsistent with ours, it may adversely affect our ability to make distributions or payments to our investors.

Our performance is subject to risks associated with repositioning a significant portion of the Company's portfolio from office to multi-family rental properties, including the sale of the Suburban Office Portfolio.

Repositioning the Company's office portfolio may result in impairment charges or less than expected returns on office properties and could adversely affect our ability to make distributions or payments to our investors: There can be no assurance that the Company, as it seeks to reposition a portion of its portfolio from office to the multi-family rental sector, including the sale of the Suburban Office Portfolio, will be able to sell office properties and purchase multi-family rental properties at prices that in the aggregate are profitable for the Company or are efficient uses of its capital or that would not result in a reduction of the Company's cash flow, and such transactions could adversely affect our ability to make distributions or payments to our investors. Because real estate investments are relatively illiquid, it also may be difficult for the Company to promptly sell its office properties that are held or may be designated for sale promptly or on favorable terms, which could have a material adverse effect on the Company's financial condition. In addition, as the Company identifies non-core office properties that may be held for sale or that it intends to hold for a shorter period of time than previously, it may determine that the carrying value of a property is not recoverable over the anticipated holding period of the property. As a result, the Company may incur impairment charges for certain of these properties to reduce their carrying values to the estimated fair market values. Moreover, as the Company seeks to reposition a portion of its portfolio from office to the multi-family rental sector, the Company may be subject to a Federal income tax on gain from sales of properties due to limitations in the IRS Code and related regulations on a real estate investment trust's ability to sell properties. The Company intends to structure its property dispositions in a tax-efficient manner and avoid the prohibition in the IRS Code against a real estate investment trust holding properties for sale. There is no guaranty, however, that such dispositions can be achieved without the imposition of federal income tax on any gain recognized.

Unfavorable changes in market and economic conditions could adversely affect multi-family rental occupancy, rental rates, operating expenses, and the overall market value of our assets, including joint ventures. Local conditions that may adversely affect conditions in multi-family residential markets include the following:

- ⌚ plant closings, industry slowdowns and other factors that adversely affect the local economy;
- ⌚ an oversupply of, or a reduced demand for, apartment units;
- ⌚ a decline in household formation or employment or lack of employment growth;
- ⌚ the inability or unwillingness of residents to pay rent increases;
- ⌚ rent control or rent stabilization laws, or other laws regulating housing, that could prevent us from raising rents to offset increases in operating costs; and
- ⌚ economic conditions that could cause an increase in our operating expenses, such as increases in property taxes, utilities, compensation of on-site associates and routine maintenance.

Changes in applicable laws, or noncompliance with applicable laws, could adversely affect our operations or expose us to liability: We must develop, construct and operate our communities in compliance with numerous federal, state and local laws and regulations, some of which may conflict with one another or be subject to limited judicial or regulatory interpretations. These laws and regulations may include zoning laws, building codes, landlord tenant laws and other laws generally applicable to business operations. Noncompliance with applicable laws could expose us to liability. Lower revenue growth or significant unanticipated expenditures may result from our

need to comply with changes in (i) laws imposing remediation requirements and the potential liability for environmental conditions existing on properties or the restrictions on discharges or other conditions, (ii) rent control or rent stabilization laws or other residential landlord/tenant laws, or (iii) other governmental rules and regulations or enforcement policies affecting the development, use and operation of our communities, including changes to building codes and fire and life-safety codes.

Failure to succeed in new markets, or with new brands and community formats, or in activities other than the development, ownership and operation of residential rental communities may have adverse consequences: We are actively engaged in development and acquisition activity in new submarkets within our core, Northeast markets where we have owned and operated our historical portfolio of office properties. Our historical experience with properties in our core, Northeast markets in developing, owning and operating properties does not ensure that we will be able to operate successfully in the new multi-family submarkets. We will be exposed to a variety of risks in the multi-family submarkets, including:

- ⌚ an inability to accurately evaluate local apartment market conditions;
- ⌚ an inability to obtain land for development or to identify appropriate acquisition opportunities;
- ⌚ an acquired property may fail to perform as we expected in analyzing our investment;
- ⌚ our estimate of the costs of repositioning or developing an acquired property may prove inaccurate; and
- ⌚ lack of familiarity with local governmental and permitting procedures.

Our real estate construction management activities are subject to risks particular to third-party construction projects.

As we may perform fixed price construction services for third parties, we are subject to a variety of risks unique to these activities. If construction costs of a project exceed original estimates, such costs may have to be absorbed by us, thereby making the project less profitable than originally estimated, or possibly not profitable at all. In addition, a construction project may be delayed due to government or regulatory approvals, supply shortages, or other events and circumstances beyond our control, or the time required to complete a construction project may be greater than originally anticipated. If any such excess costs or project delays were to be material, such events may adversely affect our cash flow and liquidity and thereby impact our ability to make distributions or payments to our investors.

Debt financing could adversely affect our economic performance.

Scheduled debt payments and refinancing could adversely affect our financial condition: We are subject to the risks normally associated with debt financing. These risks, including the following, may adversely affect our ability to make distributions or payments to our investors:

- ⌚ our cash flow may be insufficient to meet required payments of principal and interest;
- ⌚ payments of principal and interest on borrowings may leave us with insufficient cash resources to pay operating expenses;
- ⌚ we may not be able to refinance indebtedness on our properties at maturity; and
- ⌚ if refinanced, the terms of refinancing may not be as favorable as the original terms of the related indebtedness.

As of December 31, 2019, we had total outstanding indebtedness of \$2.8 billion comprised of \$575 million of senior unsecured notes, outstanding borrowings of \$329 million under our unsecured revolving credit facility, and approximately \$1.9 billion of mortgages, loans payable and other obligations. We may have to refinance the principal due on our current or future indebtedness at maturity, and we may not be able to do so.

If we are unable to refinance our indebtedness on acceptable terms, or at all, events or conditions that may adversely affect our ability to make distributions or payments to our investors include the following:

- ⌚ we may need to dispose of one or more of our properties upon disadvantageous terms or adjust our capital expenditures in general or with respect to our strategy of acquiring multi-family residential properties and development opportunities in particular;
- ⌚ prevailing interest rates or other factors at the time of refinancing could increase interest rates and, therefore, our interest expense;
- ⌚ we may be subject to an event of default pursuant to covenants for our indebtedness;
- ⌚ if we mortgage property to secure payment of indebtedness and are unable to meet mortgage payments, the mortgagee could foreclose upon such property or appoint a receiver to receive an assignment of our rents and leases; and
- ⌚ foreclosures upon mortgaged property could create taxable income without accompanying cash proceeds and, therefore, hinder our ability to meet the real estate investment trust distribution requirements of the IRS Code.

We are obligated to comply with financial covenants in our indebtedness that could restrict our range of operating activities: The mortgages on our properties contain customary negative covenants, including limitations on our ability, without the prior consent of the lender, to further mortgage the property, to enter into new leases outside of stipulated guidelines or to materially modify existing leases. In addition, our unsecured revolving credit facility and term loans each contains customary requirements, including restrictions and other limitations on our ability to incur debt, debt to assets ratios, secured debt to total assets ratios, interest coverage ratios and minimum ratios of unencumbered assets to unsecured debt. The indentures under which our senior unsecured debt have been issued contain financial and operating covenants including coverage ratios and limitations on our ability to incur secured and unsecured debt. These covenants limit our flexibility in conducting our operations and create a risk of default on our indebtedness if we cannot continue to satisfy them. Some of our debt instruments are cross-collateralized and contain cross default provisions with other debt instruments. Due to this cross-collateralization, a failure or default with respect to certain debt instruments or properties could have an adverse impact on us or our properties that are subject to the cross-collateralization under the applicable debt instrument. Failure to comply with these covenants could cause a default under the agreements and, in certain circumstances, our lenders may be entitled to accelerate our debt obligations. Defaults under our debt agreements could materially and adversely affect our financial condition and results of operations.

Rising interest rates may adversely affect our cash flow: As of December 31, 2019, outstanding borrowings of approximately \$329 million under our unsecured revolving credit facility and approximately \$187 million of our mortgage indebtedness bear interest at variable rates. We may incur additional indebtedness in the future that bears interest at variable rates. Variable rate debt creates higher debt service requirements if market interest rates increase. Higher debt service requirements could adversely affect our ability to make distributions or payments to our investors and/or cause us to default under certain debt covenants.

Our degree of leverage could adversely affect our cash flow: We fund acquisition opportunities and development partially through short-term borrowings (including our unsecured revolving credit facility), as well as from proceeds from property sales and undistributed cash. We expect to refinance projects purchased with short-term debt either with long-term indebtedness or equity financing depending upon the economic conditions at the time of refinancing. The Board of Directors has a general policy of limiting the ratio of our indebtedness to total undepreciated assets (total debt as a percentage of total undepreciated assets) to 50 percent or less, although there is no limit in our organizational documents on the amount of indebtedness that we may incur. However, we have entered into certain financial agreements which contain financial and operating covenants that limit our ability under certain circumstances to incur additional secured and unsecured indebtedness. The Board of Directors could alter or eliminate its current policy on borrowing at any time at its discretion. If this policy were changed, we could become more highly leveraged, resulting in an increase in debt service that could adversely affect our cash flow and our ability to make distributions or payments to our investors and/or could cause an increased risk of default on our obligations.

We are dependent on external sources of capital for future growth: To qualify as a real estate investment trust under the IRS Code, the General Partner must distribute to its shareholders each year at least 90 percent of its net taxable income, excluding any net capital gain. Because of this distribution requirement, it is not likely that we will be able to fund all future capital needs, including for acquisitions and developments, from income from operations. Therefore, we will have to rely on third-party sources of capital, which may or may not be available on favorable terms or at all. Our access to third-party sources of capital depends on a number of things, including the market's perception of our growth potential and our current and potential future earnings. Moreover, additional equity offerings may result in substantial dilution of our shareholders' interests, and additional debt financing may substantially increase our leverage.

Adverse changes in our credit ratings could adversely affect our business and financial condition: The credit ratings assigned to our senior unsecured notes by nationally recognized statistical rating organizations (the "NRSROs") are based on our operating performance, liquidity and leverage ratios, overall financial position and other factors employed by the NRSROs in their rating analyses of us. These ratings and similar ratings of us and any debt or preferred securities we may issue are subject to ongoing evaluation by the NRSROs, and we cannot assure you that any such ratings will not be changed by the NRSROs if, in their judgment, circumstances warrant. Our credit ratings can affect the amount of capital we can access, as well as the terms of any financings we may obtain. There can be no assurance that we will be able to maintain our current credit ratings, and in the event our current credit ratings are downgraded, we would likely incur higher borrowing costs and may encounter difficulty in obtaining additional financing. See "Item 7. Management's Discussion & Analysis of Financial Condition and Results of Operations - Executive Overview" for a discussion of the Company's current credit ratings."

Competition for skilled personnel could increase our labor costs.

We compete with various other companies in attracting and retaining qualified and skilled personnel. We depend on our ability to attract and retain skilled management personnel who are responsible for the day-to-day operations of our company. Competitive pressures may require that we enhance our pay and benefits package to compete effectively for such personnel. We may not be able to offset such added costs by increasing the rates we charge our tenants. If there is an increase in these costs or if we fail to attract and retain qualified

and skilled personnel, our business and operating results could be harmed.

We are dependent on our key personnel whose continued service is not guaranteed.

We are dependent upon key personnel for strategic business direction and real estate experience, including our chief executive officer, chief financial officer, chief investment officer, chief accounting officer, general counsel, executive vice president of leasing and chairman of RRT. While we believe that we could find replacements for these key personnel, loss of their services could adversely affect our operations. We do not have key man life insurance for our key personnel. In addition, as the Company seeks to reposition a portion of its portfolio from office to the multi-family rental sector, the Company may become increasingly dependent on non-executive personnel with residential development and leasing expertise to effectively execute the Company's long-term strategy.

Certain provisions of Maryland law and the General Partner's charter and bylaws could hinder, delay or prevent changes in control.

Certain provisions of Maryland law and General Partner's charter and bylaws have the effect of discouraging, delaying or preventing transactions that involve an actual or threatened change in control. These provisions include the following:

Removal of Directors: Under the General Partner's charter, subject to the rights of one or more classes or series of preferred stock to elect one or more directors, a director may be removed only for cause and only by the affirmative vote of at least two-thirds of all votes entitled to be cast by our stockholders generally in the election of directors. Neither the Maryland General Corporation Law nor the General Partner's charter define the term "cause." As a result, removal for "cause" is subject to Maryland common law and to judicial interpretation and review in the context of the facts and circumstances of any particular situation.

Number of Directors, Board Vacancies, Terms of Office: The General Partner has, in its bylaws, elected to be subject to certain provisions of Maryland law which vest in the Board of Directors the exclusive right to determine the number of directors and the exclusive right, by the affirmative vote of a majority of the remaining directors, even if the remaining directors do not constitute a quorum, to fill vacancies on the board. These provisions of Maryland law, which are applicable even if other provisions of Maryland law or the charter or bylaws provide to the contrary, also provide that any director elected to fill a vacancy shall hold office for the remainder of the full term of the class of directors in which the vacancy occurred, rather than the next annual meeting of stockholders as would otherwise be the case, and until his or her successor is elected and qualifies. The General Partner has, in its corporate governance principles, adopted a mandatory retirement age of 80 years old for directors.

Stockholder Requested Special Meetings: The General Partner's bylaws provide that its stockholders have the right to call a special meeting only upon the written request of the stockholders entitled to cast not less than a majority of all the votes entitled to be cast by the stockholders at such meeting.

Advance Notice Provisions for Stockholder Nominations and Proposals: The General Partner's bylaws require advance written notice for stockholders to nominate persons for election as directors at, or to bring other business before, any meeting of stockholders. This bylaw provision limits the ability of stockholders to make nominations of persons for election as directors or to introduce other proposals unless we are notified in a timely manner prior to the meeting.

Preferred Stock: Under the General Partner's charter, its Board of Directors has authority to issue preferred stock from time to time in one or more series and to establish the terms, preferences and rights of any such series of preferred stock, all without approval of its stockholders. As a result, its Board of Directors may establish a series of preferred stock that could delay or prevent a transaction or a change in control.

Duties of Directors with Respect to Unsolicited Takeovers: Maryland law provides protection for Maryland corporations against unsolicited takeovers by limiting, among other things, the duties of the directors in unsolicited takeover situations. The duties of directors of Maryland corporations do not require them to (a) accept, recommend or respond to any proposal by a person seeking to acquire control of the corporation, (b) authorize the corporation to redeem any rights under, or modify or render inapplicable, any stockholders rights plan, (c) make a determination under the Maryland Business Combination Act or the Maryland Control Share Acquisition Act, or (d) act or fail to act solely because of the effect the act or failure to act may have on an acquisition or potential acquisition of control of the corporation or the amount or type of consideration that may be offered or paid to the stockholders in an acquisition. Maryland law also contains a statutory presumption that an act of a director of a Maryland corporation satisfies the applicable standards of conduct for directors under Maryland law.

Ownership Limit: In order to preserve the General Partner's status as a real estate investment trust under the IRS Code, its charter generally prohibits any single stockholder, or any group of affiliated stockholders, from beneficially owning more than 9.8 percent of

its outstanding capital stock unless its Board of Directors waives or modifies this ownership limit.

Maryland Business Combination Act: The Maryland Business Combination Act provides that unless exempted, a Maryland corporation may not engage in certain business combinations, including mergers, consolidations, share exchanges or, in circumstances specified in the statute, asset transfers, issuances or reclassifications of shares of stock and other specified transactions, with an “interested stockholder” or an affiliate of an interested stockholder, for five years after the most recent date on which the interested stockholder became an interested stockholder, and thereafter unless specified criteria are met. An interested stockholder is generally a person owning or controlling, directly or indirectly, 10 percent or more of the voting power of the outstanding stock of the Maryland corporation. The General Partner’s board of directors has exempted from this statute business combinations between the Company and certain affiliated individuals and entities. However, unless its board adopts other exemptions, the provisions of the Maryland Business Combination Act will be applicable to business combinations with other persons.

Maryland Control Share Acquisition Act: Maryland law provides that holders of “control shares” of a corporation acquired in a “control share acquisition” shall have no voting rights with respect to the control shares except to the extent approved by a vote of two-thirds of the votes eligible to cast on the matter under the Maryland Control Share Acquisition Act. “Control shares” means shares of stock that, if aggregated with all other shares of stock previously acquired by the acquirer, would entitle the acquirer to exercise voting power in electing directors within one of the following ranges of the voting power: one-tenth or more but less than one-third, one-third or more but less than a majority or a majority or more of all voting power. A “control share acquisition” means the acquisition of control shares, subject to certain exceptions.

If voting rights of control shares acquired in a control share acquisition are not approved at a stockholder’s meeting, then subject to certain conditions and limitations, the issuer may redeem any or all of the control shares for fair value. If voting rights of such control shares are approved at a stockholder’s meeting and the acquirer becomes entitled to vote a majority of the shares of stock entitled to vote, all other stockholders may exercise appraisal rights. In 2018, the General Partner’s bylaws were amended to exempt any acquisition of the General Partner’s shares from the Maryland Control Share Acquisition Act. If the General Partner’s bylaws are amended to repeal or limit the exemption from the Maryland Control Share Acquisition Act, it may make it more difficult for a third party to obtain control of us and increase the difficulty of consummating a change in control.

The enactment of significant new tax legislation, generally effective for tax years beginning after December 31, 2017, could have a material and adverse effect on us and the market price of our shares.

On December 22, 2017, Pub. L. No. 15-97 (informally known as the Tax Cuts and Jobs Act (the “Act”)) was enacted into law. The Act made major changes to the Code, including a number of provisions of the Code that affect the taxation of REITs and their stockholders. The long-term effect of the significant changes made by the Act remains uncertain, and additional administrative guidance will be required in order to fully evaluate the effect of many provisions. The effect of any technical corrections with respect to the Act could have an adverse effect on us or our stockholders or holders of our debt securities.”

Consequences of the General Partner’s failure to qualify as a real estate investment trust could adversely affect our financial condition.

Failure to maintain ownership limits could cause the General Partner to lose its qualification as a real estate investment trust: In order for the General Partner to maintain its qualification as a real estate investment trust under the IRS Code, not more than 50 percent in value of its outstanding stock may be actually and/or constructively owned by five or fewer individuals (as defined in the IRS Code to include certain entities). The General Partner has limited the ownership of its outstanding shares of common stock by any single stockholder to 9.8 percent of the outstanding shares of its common stock. Its Board of Directors could waive this restriction if it was satisfied, based upon the advice of tax counsel or otherwise, that such action would be in the best interests of the General Partner and its stockholders and would not affect its qualification as a real estate investment trust under the IRS Code. Common stock acquired or transferred in breach of the limitation may be redeemed by us for the lesser of the price paid and the average closing price for the 10 trading days immediately preceding redemption or sold at the direction of the General Partner. The General Partner may elect to redeem such shares of common stock for Units, which are nontransferable except in very limited circumstances. Any transfer of shares of common stock which, as a result of such transfer, causes the General Partner to be in violation of any ownership limit, will be deemed void. Although the General Partner currently intends to continue to operate in a manner which will enable it to continue to qualify as a real estate investment trust under the IRS Code, it is possible that future economic, market, legal, tax or other considerations may cause its Board of Directors to revoke the election for the General Partner’s to qualify as a real estate investment trust. Under the General Partner’s organizational documents, its Board of Directors can make such revocation without the consent of its stockholders.

In addition, the consent of the holders of at least 85 percent of the Operating Partnership’s partnership units is required: (i) to merge (or permit the merger of) the Operating Partnership with another unrelated person, pursuant to a transaction in which the Operating

[Table of Contents](#)

Partnership is not the surviving entity; (ii) to dissolve, liquidate or wind up the Operating Partnership; or (iii) to convey or otherwise transfer all or substantially all of the Operating Partnership's assets. As of February 24, 2020, the General Partner owned approximately 90.5 percent of the Operating Partnership's outstanding common partnership units.

Tax liabilities as a consequence of failure to qualify as a real estate investment trust: The General Partner has elected to be treated and has operated so as to qualify as a real estate investment trust for federal income tax purposes since the General Partner's taxable year ended December 31, 1994. Although the General Partner believes it will continue to operate in such manner, it cannot guarantee that it will do so. Qualification as a real estate investment trust involves the satisfaction of various requirements (some on an annual and some on a quarterly basis) established under highly technical and complex tax provisions of the IRS Code. Because few judicial or administrative interpretations of such provisions exist and qualification determinations are fact sensitive, the General Partner cannot assure you that it will qualify as a real estate investment trust for any taxable year.

If the General Partner fails to qualify as a real estate investment trust in any taxable year, it will be subject to the following:

- ⌚ it will not be allowed a deduction for dividends paid to shareholders;
- ⌚ it will be subject to federal income tax at regular corporate rates, including any alternative minimum tax, if applicable; and
- ⌚ unless it is entitled to relief under certain statutory provisions, it will not be permitted to qualify as a real estate investment trust for the four taxable years following the year during which was disqualified.

A loss the General Partner's status as a real estate investment trust could have an adverse effect on us. Failure to qualify as a real estate investment trust also would eliminate the requirement that the General Partner pay dividends to its stockholders. In addition, any such dividends that the General Partner does pay to its stockholders would not constitute qualified REIT dividends and would accordingly not qualify for a deduction of up to 20 percent.

Other tax liabilities: Even if the General Partner qualifies as a real estate investment trust under the IRS Code, its subject to certain federal, state and local taxes on our income and property and, in some circumstances, certain other state and local taxes. From time to time changes in state and local tax laws or regulations are enacted, which may result in an increase in our tax liability. A shortfall in tax revenues for states and municipalities in which we operate may lead to an increase in the frequency and amount of such increase. These actions could adversely affect our financial condition and results of operations. In addition, our taxable REIT subsidiaries will be subject to federal, state and local income tax for income received in connection with certain non-customary services performed for tenants and/or third parties.

Risk of changes in the tax law applicable to real estate investment trusts: Since the Internal Revenue Service, the United States Treasury Department and Congress frequently review federal income tax legislation, we cannot predict whether, when or to what extent new federal tax laws, regulations, interpretations or rulings will be adopted. Any such legislative action may prospectively or retroactively modify our tax treatment and, therefore, may adversely affect taxation of us, and/or our investors.

Security breaches and other disruptions could compromise our information and expose us to liability, which would cause our business and reputation to suffer.

In the ordinary course of our business, we collect and store sensitive data, including intellectual property, our proprietary business information and that of our tenants and business partners, including personally identifiable information of our tenants and employees, in our data centers and on our networks. Despite our security measures, our information technology and infrastructure may be vulnerable to attacks by hackers or breached due to employee error, malfeasance or other disruptions. Any such breach could compromise our networks and the information stored there could be accessed, publicly disclosed, lost or stolen. Any such access, disclosure or other loss of information could result in legal claims or proceedings, liability under laws that protect the privacy of personal information, disrupt our operations, and damage our reputation, which could adversely affect our business.

We face possible risks associated with the physical effects of climate change.

We cannot predict with certainty whether climate change is occurring and, if so, at what rate. However, the physical effects of climate change could have a material adverse effect on our properties, operations and business. For example, all of our properties are located along the East coast, particularly those in New Jersey and Massachusetts. To the extent climate change causes changes in weather patterns, our markets could experience increases in storm intensity and rising sea-levels. Over time, these conditions could result in declining demand for office space in our buildings or the inability of us to operate the buildings at all. Climate change may also have indirect effects on our business by increasing the cost of (or making unavailable) property insurance on terms we find acceptable, increasing the cost of energy and increasing the cost of snow removal or related costs at our properties. Proposed legislation to address climate change could increase utility and other costs of operating our properties which, if not offset by rising rental income, would

reduce our net income. There can be no assurance that climate change will not have a material adverse effect on our properties, operations or business.

Changes in market conditions could adversely affect the market price of the General Partner's common stock.

As with other publicly traded equity securities, the value of the General Partner's common stock depends on various market conditions, which may change from time to time. The market price of the General Partner's common stock could change in ways that may or may not be related to our business, the General Partner's industry or our operating performance and financial condition. Among the market conditions that may affect the value of the General Partner's common stock are the following:

- ⌚ the extent of your interest in us;
- ⌚ the general reputation of REITs and the attractiveness of the General Partner's equity securities in comparison to other equity securities, including securities issued by other real estate-based companies;
- ⌚ our financial performance; and
- ⌚ general stock and bond market conditions.

The market value of the General Partner's common stock is based primarily upon the market's perception of our growth potential and our current and potential future earnings and cash dividends. Consequently, the General Partner's common stock may trade at prices that are higher or lower than its net asset value per share of common stock.

ITEM 2. PROPERTIES

PROPERTY LIST

As of December 31, 2019, the Company's Consolidated Properties consisted of 43 in-service commercial properties, as well as 14 multi-family rental properties and two hotels. The Consolidated Properties are located primarily in the Northeast. The Consolidated Properties are easily accessible from major thoroughfares and are in close proximity to numerous amenities. The Consolidated Properties contain a total of approximately 10.5 million square feet of commercial space and 3,913 apartment units with the individual commercial properties ranging from 6,216 to 1,246,283 square feet. The Consolidated Properties, managed by on-site employees, generally have attractively landscaped sites and atriums in addition to quality design and construction. The Company's commercial tenants include many service sector employers, including a large number of professional firms and national and international businesses. The Company believes that all of its in-service properties are well-maintained and do not require significant capital improvements.

Footnotes to Property List (dollars in thousands, except per square foot amounts):

- (a) Percentage leased includes all leases in effect as of the period end date, some of which have commencement dates in the future and leases expiring December 31, 2019 aggregating 31,982 square feet (representing 0.3 percent of the Company's total net rentable square footage) for which no new leases were signed.
- (b) Total base rent for the year ended December 31, 2019, determined in accordance with generally accepted accounting principles ("GAAP"). Substantially all of the commercial leases provide for annual base rents plus recoveries and escalation charges based upon the tenant's proportionate share of and/or increases in real estate taxes and certain operating costs, as defined, and the pass through of charges for electrical usage. For the 12 months ended December 31, 2019, total escalations and recoveries from tenants were: \$28,486, or \$4.11 per leased square foot, for office properties.
- (c) Excludes space leased by the Company.
- (d) Base rent for the 12 months ended December 31, 2019 divided by net rentable commercial square feet leased at December 31, 2019.
- (e) Total base rent, determined in accordance with GAAP, for 2019 minus 2019 amortization of tenant improvements, leasing commissions and other concessions and costs, determined in accordance with GAAP, divided by net rentable square feet leased at December 31, 2019.
- (f) This property is located on land leased by the Company.
- (g) As this property was acquired, commenced initial operations or initially consolidated by the Company during the 12 months ended December 31, 2019, the amounts represented in 2019 base rent reflect only that portion of those 12 months during which the Company owned or consolidated the property. Accordingly, these amounts may not be indicative of the property's full year results. For comparison purposes, the amounts represented in 2019 average base rent per sq. ft. and per unit for this property have been calculated by taking the 12 months ended December 31, 2019 base rent for such property and annualizing these partial-year results, dividing such annualized amounts by the net rentable square feet leased or occupied units at December 31, 2019. These annualized per square foot and per unit amounts may not be indicative of the property's results had the Company owned or consolidated the property for the entirety of the 12 months ended December 31, 2019.
- (h) Property is held for sale by the Company and classified as discontinued operations as of December 31, 2019.
- (i) Annualized base rent for the 12 months ended December 31, 2019 divided by units occupied at December 31, 2019, divided by 12.
- (j) Excludes properties being considered for repositioning, redevelopment, potential sale, or being prepared for lease up.
- (k) Excludes approximately \$57.6 million from properties which were disposed of or removed from service during the year ended December 31, 2019.
- (l) Includes \$148.9 million from properties held for sale and classified as discontinued operations as of December 31, 2019.
- (m) This property had Parking Income of \$1,714 in 2019.
- (n) This property had Parking Income of \$3,364 in 2019.
- (o) This property had Hotel Income of \$3,680 in 2019.
- (p) This property had Hotel Income of \$6,162 in 2019.

PERCENTAGE LEASED

The following table sets forth the year-end percentages of commercial square feet leased in the Company's stabilized operating Consolidated Properties for the last five years:

December 31,	Percentage of Square Feet Leased (%) (a)
2019	80.7 (b)
2018	83.2 (b)
2017	87.6 (b)
2016	90.6 (b)
2015	86.2

- (a) Percentage of square-feet leased includes all leases in effect as of the period end date, some of which have commencement dates in the future and leases that expire at the period end date. For all years, excludes properties being prepared for lease up.
- (b) Excludes properties being considered for repositioning or redevelopment. Inclusive of such properties, percentage of square feet leased as of 2019, 2018 2017 and 2016 was 80.6, 81.7, 85.6 and 89.6 percent, respectively.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the Consolidated Financial Statements of Mack-Cali Realty Corporation and Mack-Cali Realty, L.P. and the notes thereto (collectively, the "Financial Statements"). Certain defined terms used herein have the meaning ascribed to them in the Financial Statements.

Executive Overview

Mack-Cali Realty Corporation together with its subsidiaries, (collectively, the "General Partner"), including Mack-Cali Realty, L.P. (the "Operating Partnership"), has been involved in all aspects of commercial real estate development, management and ownership for over 60 years and the General Partner has been a publicly traded real estate investment trust (REIT) since 1994.

The Operating Partnership conducts the business of providing leasing, management, acquisition, development, construction and tenant-related services for its General Partner. The Operating Partnership, through its operating divisions and subsidiaries, including the Mack-Cali property-owning partnerships and limited liability companies, is the entity through which all of the General Partner's operations are conducted. Unless stated otherwise or the context requires, the "Company" refers to the General Partner and its subsidiaries, including the Operating Partnership and its subsidiaries. The Company owns or has interests in 71 properties (collectively, the "Properties"), consisting of 42 office properties, totaling approximately 10.7 million square feet leased to approximately 400 commercial tenants, 21 multi-family rental properties containing 6,524 apartment units, four parking/retail properties totaling approximately 108,000 square feet, three hotels containing 723 rooms and a parcel of land leased to a third party. The Properties are located in the Northeast, some with adjacent, Company-controlled developable land sites able to accommodate up to approximately 2.0 million square feet of additional commercial space and approximately 9,500 apartment units.

The Company's historical strategy has been to focus its operations, acquisition and development of office and multi-family rental properties in high-barrier-to-entry markets and sub-markets where it believes it is, or can become, a significant and preferred owner and operator.

In September 2015, the Company announced an initiative to transform into a more concentrated owner of New Jersey Hudson River waterfront and transit-oriented office properties and a regional owner of luxury multi-family rental properties. As part of this plan, the Company has sold multiple properties, primarily commercial office and office/flex properties, which it believes do not meet its long-term goals.

STRATEGIC DIRECTION

Following the General Partner's 2019 Annual Meeting of Stockholders, the Board of Directors of the General Partner (the "Board") formed a Shareholder Value Committee comprised of four independent directors to review the Company's strategic direction and make a recommendation to the full Board. On December 19, 2019, the Company announced that, based on the recommendations of the Shareholder Value Committee, the Board had determined to sell the Company's entire suburban New Jersey office portfolio totaling approximately 6.6 million square feet (collectively, the "Suburban Office Portfolio"). This does not include the Company's waterfront office properties in Jersey City and Hoboken, New Jersey. As the decision to sell the Suburban Office Portfolio represented a strategic shift in the Company's operations, the portfolio's results are being classified as discontinued operations for all periods presented herein. See Note 7: Discontinued Operations – to the Financial Statements.

Following the December 2019 announcement, the Shareholder Value Committee was disbanded. Subsequent thereto, the Board's Nominating and Corporate Governance Committee appointed a new committee of the Board, the Special Committee, to monitor the Company's strategic direction and to receive and consider any offers to buy the Company that may be proffered.

During the year ended December 31, 2019, the Company completed the sale of two of these suburban office properties, totaling 497,000 square feet, for net sales proceeds of \$52.2 million. As of December 31, 2019, the Company has identified as held for sale the remaining 35 office properties (comprised of 12 disposal groups) in the Suburban Office Portfolio, totaling 6.1 million square feet.

The Company expects to complete the sale of its remaining Suburban Office Portfolio properties in 2020, and plans to use the available sales proceeds to pay down its corporate-level, unsecured indebtedness. After the completion of the Suburban Office Portfolio sales, the Company's holdings will consist of its waterfront class A office portfolio and its multi-family rental portfolio, and related development projects and land holdings.

As an owner of real estate, almost all of the Company's earnings and cash flow are derived from rental revenue received pursuant to leased space at the Properties. Key factors that affect the Company's business and financial results include the following:

- ① the general economic climate;
- ② the occupancy rates of the Properties;
- ③ rental rates on new or renewed leases;
- ④ tenant improvement and leasing costs incurred to obtain and retain tenants;

- ① the extent of early lease terminations;
- ② the value of our office properties and the cash flow from the sale of such properties;
- ③ operating expenses;
- ④ anticipated acquisition and development costs for office and multi-family rental properties and the revenues and earnings from these properties;

- ② cost of capital; and
- ② the extent of acquisitions, development and sales of real estate, including the execution of the Company's current strategic initiative.

Any negative effects of the above key factors could potentially cause a deterioration in the Company's revenue and/or earnings. Such negative effects could include: (1) failure to renew or execute new leases as current leases expire; (2) failure to renew or execute new leases with rental terms at or above the terms of in-place leases; and (3) tenant defaults.

A failure to renew or execute new leases as current leases expire or to execute new leases with rental terms at or above the terms of in-place leases may be affected by several factors such as: (1) the local economic climate, which may be adversely impacted by business layoffs or downsizing, industry slowdowns, changing demographics and other factors; and (2) local real estate conditions, such as oversupply of the Company's product types or competition within the market.

Of the Company's core office markets, most continue to show signs of rental rate improvement, while the lease percentage has declined or stabilized. The percentage leased in the Company's stabilized core operating commercial properties included in its Consolidated Properties aggregating 10.3 million, 14.1 million and 14.7 million square feet at December 31, 2019, 2018 and 2017, respectively, was 80.7 percent leased at December 31, 2019, as compared to 83.2 percent leased at December 31, 2018 and 87.6 percent leased at December 31, 2017 (after adjusting for properties identified as non-core at the time). Percentage leased includes all leases in effect as of the period end date, some of which have commencement dates in the future and leases that expire at the period end date. Leases that expired as of December 31, 2019, 2018 and 2017 aggregate 31,982, 10,108 and 343,217 square feet, respectively, or 0.3, 0.1 and 2.3 percentage of the net rentable square footage, respectively. Rental rates (including escalations) on the Company's commercial space that was renewed (based on first rents payable) during the year ended December 31, 2019 (on 229,429 square feet of renewals) increased an average of 16.9 percent compared to rates that were in effect under the prior leases, as compared to a 21.7 percent increase during 2018 (on 950,548 square feet of renewals) and a 1.7 percent increase in 2017 (on 1,680,687 square feet of renewals). Estimated lease costs for the renewed leases in 2019 averaged \$4.34 per square foot per year for a weighted average lease term of 3.9 years, estimated lease costs for the renewed leases in 2018 averaged \$3.46 per square foot per year for a weighted average lease term of 4.7 years and estimated lease costs for the renewed leases in 2017 averaged \$2.16 per square foot per year for a weighted average lease term of 7.2 years. The Company believes that vacancy rates at its commercial properties have begun to bottom by the end of 2019 as the majority of the known move-outs at its waterfront portfolio have already occurred, and commercial rental rates may increase in some of its markets in 2020. As of December 31, 2019, commercial leases which comprise approximately 5.9 and 10.1 percent of the Company's annualized base rent are scheduled to expire during the years ended December 31, 2020 and 2021, respectively. With the positive rental rate results the Company has achieved in most of its markets recently, the Company believes that rental rates on new leases will generally be, on average, not lower than rates currently being paid. If these recent leasing results do not prove to be sustaining in 2020, the Company may receive less revenue from the same space.

During 2017, Moody's downgraded its investment grade rating on the Company's senior unsecured debt to sub-investment grade and during 2018, Standard & Poor's lowered its investment grade rating on the Company's senior unsecured debt to sub-investment grade. Amongst other things, such downgrade would have increased the interest rate on outstanding borrowings under the Company's current \$600 million unsecured revolving credit facility (which was amended in January 2017) from the London Inter-Bank Offered Rate ("LIBOR") plus 120 basis points to LIBOR plus 155 basis points and the annual credit facility fee it pays would have increased from 25 to 30 basis points. Additionally, any such downgrade would have increased the current interest rate on each of the Company's 2016 Term Loan and 2017 Term Loan from LIBOR plus 140 basis points to LIBOR plus 185 points. Effective March 6, 2018, the Company elected to utilize the leverage grid pricing available under the unsecured revolving credit facility and both unsecured term loans. This resulted in an interest rate of LIBOR plus 130 basis points for the Company's unsecured revolving credit facility and 25 basis points for the facility fee and LIBOR plus 155 basis points for both unsecured term loans at the Company's then total leverage ratio. In addition, a downgrade in its ratings to sub-investment grade would result in higher interest rates on senior unsecured debt that the Company may issue in the future as compared to issuing such debt with investment grade ratings.

The remaining portion of this Management's Discussion and Analysis of Financial Condition and Results of Operations should help the reader understand our:

- ② recent transactions;
- ② critical accounting policies and estimates;
- ② results of operations for the year ended December 31, 2019 as compared to the year ended December 31, 2018;
- ② results of operations for the year ended December 31, 2018 as compared to the year ended December 31, 2017; and
- ② liquidity and capital resources.

Recent Transactions

Acquisitions

The Company acquired the following rental properties (which were determined to be asset acquisitions in accordance with ASU 2017-01) during the year ended December 31, 2019 (dollars in thousands):

Acquisition Date	Property Address	Location	Property Type	# of Bldgs.	Square Feet/ Apartment Units	Acquisition Cost
02/06/19	99 Wood Avenue (a)	Iselin, New Jersey	Office	1	271,988	\$ 61,858

09/26/19	Liberty Towers (b)	Jersey City, New Jersey	Multi-family	1	648	410,483
Total Acquisitions				3		\$ 736,919

- (a) This acquisition was funded using funds available with the Company's qualified intermediary from prior property sales proceeds and through borrowing under the Company's unsecured revolving credit facility.
 (b) This acquisition was funded through borrowings under the Company's unsecured revolving credit facility and a new \$232 million mortgage loan collateralized by the property.

On May 10, 2019, the Company completed the acquisition of developable land parcels for future development ("107 Morgan") located in Jersey City, New Jersey for approximately \$67.2 million. The 107 Morgan acquisition was funded using funds available with the Company's qualified intermediary from prior property sales proceeds, and through borrowing under the Company's unsecured revolving credit facility. The Company's mortgage receivable of \$46.1 million with the seller was repaid in full to the Company at closing.

Consolidations

On January 31, 2019, the Company, which held a 24.27 percent subordinated interest in the unconsolidated joint venture, Marbella Tower Urban Renewal Associates South LLC, a 311-unit multi-family operating property located in Jersey City, New Jersey, acquired its equity partner's 50 percent preferred controlling interest for \$77.5 million in cash. The property was subject to a mortgage loan that had a principal balance of \$74.7 million. The acquisition was funded primarily using available cash. Concurrently with the closing, the joint venture repaid in full the property's \$74.7 million mortgage loan and obtained a new loan collateralized by the property in the amount of \$117 million, which bears interest at 4.2 percent and matures in August 2026. The Company received \$43.3 million in distribution from the loan proceeds which was used to acquire the equity partner's 50 percent interest. As the result of the acquisition, the Company increased its ownership of the property from a 24.27 percent subordinated interest to a 74.27 percent controlling interest. In accordance with ASC 810, Consolidation, the Company evaluated the acquisition and determined that the entity meets the criteria of a VIE. As such, the Company consolidated the asset upon acquisition and accordingly, remeasured its equity interests, as required by the FASB's consolidation guidance, at fair value (based upon the income approach using current rental rates and market cap rates and discount rates). As a result, the Company recorded a gain on change of control of interests of \$13.8 million (a non-cash item) in the year ended December 31, 2019, in which the Company accounted for the transaction as a VIE that is not a business in accordance with ASC 810-10-30-4. Additional non-cash items included in the acquisition were the Company's carrying value of its interest in the joint venture of \$15.3 million and the noncontrolling interest's fair value of \$13.7 million. See Note 9: Mortgages, Loans Payable and Other Obligations – to the Financial Statements.

Real Estate Held for Sale/Discontinued Operations/Dispositions

The Company identified 35 office properties (comprised of 12 disposal groups) totaling 6.1 million square feet (See Note 7: Discontinued Operations – to the Financial Statements), a retail pad leased to others and several developable land parcels as held for sale as of December 31, 2019. The total estimated sales proceeds, net of expected selling costs, from the sales of all the assets held for sale are expected to be approximately \$1.2 billion. The Company determined that the carrying value of 21 of the properties (comprised of six disposal groups) and several land parcels held for sale was not expected to be recovered from estimated net sales proceeds, and accordingly, during the year ended December 31, 2019, recognized an unrealized loss allowance of \$174.1 million for the properties (\$137.9 million of which are from discontinued operations), and land and other impairments of \$32.4 million.

- (d) As part of the consideration from the buyer, who is a noncontrolling interest unitholder of the Operating Partnership, 301,638 Common Units were redeemed by the Company at fair market value of \$6.6 million as purchase consideration received for two of the properties disposed of in this transaction, which was a non-cash portion of this sales transaction. The Company used the net cash received at closing to repay approximately \$119.9 million of borrowings under the unsecured revolving credit facility and to repay \$90 million of its \$350 million unsecured term loan. The Company also utilized \$217.4 million of these proceeds on April 1, 2019 to acquire a 377-unit multi-family property located in Jersey City, New Jersey.
- (e) The Company recorded a valuation allowance of \$0.9 million on this property during the year ended December 31, 2018.
- (f) Proceeds from the sale, which were net of \$235.8 million of in-place mortgages assumed by the buyer, were used primarily to repay outstanding borrowings under the Company's revolving credit facility that were drawn to fund a portion of the Company's purchase of Liberty Towers. The assumed mortgages were a non-cash portion of this sales transaction.
- (g) The net sale proceeds were held by a qualified intermediary, which is noncash and recorded in deferred charges, goodwill and other assets as of December 31, 2019. See Note 5: Deferred Charges, Goodwill and Other Assets, Net – to the Financial Statements. The Company recorded an impairment charge of \$5.8 million at June 30, 2019 before the property was identified as held for sale on September 30, 2019.
- (h) These pertain to properties classified as discontinued operations. (See Note 7: Discontinued Operations – to the Financial Statements)

(b) The Company recorded a land impairment charge of \$13.6 million on this land parcel during the year ended December 31, 2018. The Company recorded additional land impairment charges of \$2.7 million on this land parcel during the year ended December 31, 2019 prior to its disposition.

Unconsolidated Joint Venture Activity

On February 28, 2019, the Company sold its interest in the Red Bank Corporate Plaza joint venture which owns an operating property located in Red Bank, New Jersey for a sales price of \$4.2 million, and realized a gain on the sale of the unconsolidated joint venture of \$0.9 million.

Rockpoint Transaction

On February 27, 2017, the Company, Roseland Residential Trust (“RRT”), the Company’s subsidiary through which the Company conducts its multi-family residential real estate operations, Roseland Residential, L.P. (“RRLP”), the operating partnership through which RRT conducts all of its operations, and certain other affiliates of the Company entered into a preferred equity investment agreement (the “Original Investment Agreement”) with certain affiliates of Rockpoint Group, L.L.C. (Rockpoint Group, L.L.C. and its affiliates, collectively, “Rockpoint”). The Original Investment Agreement provided for RRT to contribute property to RRLP in exchange for common units of limited partnership interests in RRLP (the “Common Units”) and for multiple equity investments by Rockpoint in RRLP from time to time for up to an aggregate of \$300 million of preferred units of limited partnership interests in RRLP (the “Preferred Units”). The initial closing under the Original Investment Agreement occurred on March 10, 2017 for \$150 million of Preferred Units and the parties agreed that the Company’s contributed equity value (“RRT Contributed Equity Value”), was \$1.23 billion at closing. During the year ended December 31, 2018, a total additional amount of \$105 million of Preferred Units were issued and sold to Rockpoint pursuant to the Original Investment Agreement. During the three months ended March 31, 2019, a total additional amount of \$45 million of Preferred Units were issued and sold to Rockpoint pursuant to the Original Investment Agreement, which brought the Preferred Units to the full balance of \$300 million. In addition, certain contributions of property to RRLP by RRT subsequent to the execution of the Original Investment Agreement resulted in RRT being issued approximately \$46 million of Preferred Units as well as Common Units in RRLP prior to June 26, 2019.

On June 26, 2019, the Company, RRT, RRLP, certain other affiliates of the Company and Rockpoint entered into an additional preferred equity investment agreement (the “Add On Investment Agreement”). The closing under the Add On Investment Agreement occurred on June 28, 2019. Pursuant to the Add On Investment Agreement, Rockpoint invested an additional \$100 million in Preferred Units and the Company and RRT agreed to contribute to RRLP two additional properties located in Jersey City, New Jersey. The Company used the \$100 million in proceeds received to repay outstanding borrowings under its unsecured revolving credit facility and other debt by June 30, 2019. In addition, Rockpoint has a right of first refusal to invest another \$100 million in Preferred Units in the event RRT determines that RRLP requires additional capital prior to March 1, 2023 and, subject thereto, RRLP may issue up to approximately \$154 million in Preferred Units to RRT or an affiliate so long as at the time of such funding RRT determines in good faith that RRLP has a valid business purpose to use such proceeds. See Note 15: Redeemable Noncontrolling Interests – to the Financial Statements for additional information about the Add On Investment Agreement and the related transactions with Rockpoint.

Critical Accounting Policies and Estimates

The accompanying consolidated financial statements include all accounts of the Company, its majority-owned and/or controlled subsidiaries, which consist principally of the Operating Partnership and variable interest entities for which the Company has determined itself to be the primary beneficiary, if any. See Note 2: Significant Accounting Policies – to the Financial Statements, for the Company’s treatment of unconsolidated joint venture interests. Intercompany accounts and transactions have been eliminated.

Accounting Standards Codification (“ASC”) 810, Consolidation, provides guidance on the identification of entities for which control is achieved through means other than voting rights (“variable interest entities” or “VIEs”) and the determination of which business enterprise, if any, should consolidate the VIEs. Generally, the consideration of whether an entity is a VIE applies when either: (1) the equity investors (if any) lack (i) the ability to make decisions about the entity's activities through voting or similar rights, (ii) the obligation to absorb the expected losses of the entity, or (iii) the right to receive the expected residual returns of the entity; (2) the equity investment at risk is insufficient to finance that entity's activities without additional subordinated financial support; or (3) the equity investors have voting rights that are not proportionate to their economic interests and substantially all of the activities of the entity involve or are conducted on behalf of an investor with a disproportionately small voting interest. The Company consolidates VIEs in which it is considered to be the primary beneficiary. The primary beneficiary is defined by the entity having both of the following characteristics: (1) the power to direct the activities that, when taken together, most significantly impact the variable interest entity's performance; and (2) the obligation to absorb losses and right to receive the returns from the VIE that would be significant to the VIE.

On January 1, 2016, the Company adopted accounting guidance under ASC 810, Consolidation, modifying the analysis it must perform to determine whether it should consolidate certain types of legal entities. The guidance does not amend the existing disclosure requirements for variable interest entities or voting interest model entities. The guidance, however, modified the requirements to qualify under the voting interest model. Under the revised guidance, the Operating Partnership will be a variable interest entity of the parent company, Mack-Cali Realty Corporation. As the Operating Partnership is already consolidated in the balance sheets of Mack-Cali Realty Corporation, the identification of this entity as a variable interest entity has no impact on the consolidated financial statements of Mack-Cali Realty Corporation. There were no other legal entities qualifying under the scope of the revised guidance that were consolidated as a result of the adoption.

The financial statements have been prepared in conformity with generally accepted accounting principles (“GAAP”). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates and assumptions are based on management's historical experience that are believed to be reasonable at the time. However, because future events and their effects cannot be determined with certainty, the determination of estimates requires the exercise of judgment. Actual results could differ from those estimates. Certain reclassifications have been made to prior period amounts in order to conform with current period presentation, primarily related to classification of certain properties as discontinued operations. The Company's critical accounting policies are those which require assumptions to be made about matters that are highly uncertain. Different estimates could have a material effect on the Company's financial results. Judgments and uncertainties affecting the application of these policies and estimates may result in materially different amounts being reported under different conditions and circumstances.

Rental Property

Rental properties are stated at cost less accumulated depreciation and amortization. Costs directly related to the acquisition, development and construction of rental properties are capitalized. The Company adopted FASB guidance Accounting Standards Update (“ASU”) 2017-01 on January 1, 2017, which revises the definition of a business and is expected to result in more transactions to be accounted for as asset acquisitions and significantly limit transactions that would be accounted for as business combinations. Where an acquisition has been determined to be an asset acquisition, acquisition-related costs are capitalized. Capitalized development and construction costs include pre-construction costs essential to the development of the property, development and construction costs, interest, property taxes, insurance, salaries and other project costs incurred during the period of development. Interest capitalized by the Company for the years ended December 31, 2019, 2018 and 2017 was \$19.3 million, \$27.0 million and \$20.2 million, respectively. Ordinary repairs and maintenance are expensed as incurred; major replacements and betterments, which improve or extend the life of the asset, are capitalized and depreciated over their estimated useful lives. Fully-depreciated assets are removed from the accounts.

The Company considers a construction project as substantially completed and held available for occupancy upon the substantial completion of improvements, but no later than one year from cessation of major construction activity (as distinguished from activities such as routine maintenance and cleanup). If portions of a rental project are substantially completed and occupied by tenants or residents, or held available for occupancy, and other portions have not yet reached that stage, the substantially completed portions are accounted for as a separate project. The Company allocates costs incurred between the portions under construction and the portions substantially completed and held available for occupancy, primarily based on a percentage of the relative commercial square footage or multi-family units of each portion, and capitalizes only those costs associated with the portion under construction.

Properties are depreciated using the straight-line method over the estimated useful lives of the assets. The estimated useful lives are as follows:

Leasehold interests	Remaining lease term
Buildings and improvements	5 to 40 years
Tenant improvements	The shorter of the term of the related lease or useful life
Furniture, fixtures and equipment	5 to 10 years

Upon acquisition of rental property, the Company estimates the fair value of acquired tangible assets, consisting of land, building and improvements, and identified intangible assets and liabilities assumed, generally consisting of the fair value of (i) above and below market leases, (ii) in-place leases and (iii) tenant relationships. The Company allocates the purchase price to the assets acquired and liabilities assumed based on their relative fair values. The Company records goodwill or a gain on bargain purchase (if any) if the net assets acquired/liabilities assumed differ from the purchase consideration of a business transaction. In estimating the fair value of the tangible and intangible assets acquired, the Company considers information obtained about each property as a result of its due diligence and marketing and leasing activities, and utilizes various valuation methods, such as estimated cash flow projections utilizing appropriate discount and capitalization rates, estimates of replacement costs net of depreciation, and available market information. The fair value of the tangible assets of an acquired property considers the value of the property as if it were vacant.

Above-market and below-market lease values for acquired properties are initially recorded based on the present value (using a discount rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to each in-place lease and (ii) management's estimate of fair market lease rates for each corresponding in-place lease, measured over a period equal to the remaining term of the lease for above-market leases and the remaining initial term plus the term of any below-market fixed rate renewal options for below-market leases. The capitalized above-market lease values are amortized as a reduction of base rental revenue over the remaining terms of the respective leases, and the capitalized below-market lease values are amortized as an increase to base rental revenue over the remaining initial terms plus the terms of any below-market fixed rate renewal options of the respective leases.

Other intangible assets acquired include amounts for in-place lease values and tenant relationship values, which are based on management's evaluation of the specific characteristics of each tenant's lease and the Company's overall relationship with the respective tenant. Factors to be considered by management in its analysis of in-place lease values include an estimate of carrying costs during hypothetical expected lease-up periods considering current market conditions, and costs to execute similar leases. In estimating carrying costs, management includes real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods, depending on local market conditions. In estimating costs to execute similar leases, management considers leasing commissions, legal and other related expenses. Characteristics considered by management in valuing tenant relationships include the nature and extent of the Company's existing business relationships with the tenant, growth prospects for developing new business with the tenant, the tenant's credit quality and expectations of lease renewals. The values of in-place leases are amortized to expense over the remaining initial terms of the respective leases. The values of tenant relationship intangibles are amortized to expense over the anticipated life of the relationships or leases.

On a periodic basis, management assesses whether there are any indicators that the value of the Company's rental properties held for use may be impaired. In addition to identifying any specific circumstances which may affect a property or properties, management considers other criteria for determining which properties may require assessment for potential impairment. The criteria considered by management depending on the type of property, may include reviewing low leased percentages, significant near-term lease expirations, current and historical operating and/or cash flow losses, construction cost overruns and/or other factors, including those that might impact the Company's intent and ability to hold the property. A property's value is impaired only if management's estimate of the aggregate future cash flows (undiscounted and without interest charges) to be generated by the property over its estimated holding period is less than the carrying value of the property. If there are different possible scenarios for a property, the Company will take a probability-weighted approach to estimating future cash flow scenarios. To the extent impairment has occurred, the impairment loss is measured as the excess of the carrying value of the property over the fair value of the property. The Company's estimates of aggregate future cash flows expected to be generated and estimated fair values for each property are based on a number of assumptions, including but not limited to estimated holding periods, market capitalization rates and discount rates, if applicable. For developable land, an estimated per-unit market value assumption is also considered based on development rights for the land. These assumptions are generally based on management's experience in its local real estate markets and the effects of current market conditions. The assumptions are subject to economic and market uncertainties including, among others, demand for space, competition for tenants, changes in market rental rates, and costs to operate each property. As these factors are difficult to predict and are subject to future events that may alter

management's assumptions, the future cash flows estimated by management in its impairment analyses may not be achieved, and actual losses or impairments may be realized in the future.

Real Estate Held for Sale and Discontinued Operations

When assets are identified by management as held for sale, the Company discontinues depreciating the assets and estimates the sales price, net of selling costs, of such assets. The Company generally considers assets (as identified by their disposal groups) to be held for sale when the transaction has received appropriate corporate authority, it is probable to be sold within the following 12 months, and there are no significant contingencies relating to a sale. If, in management's opinion, the estimated net sales price, net of selling costs, of the disposal groups which have been identified as held for sale is less than the carrying value of the assets, a valuation allowance (which is recorded as unrealized losses on disposition of rental property) is established. In the absence of an executed sales agreement with a set sales price, management's estimate of the net sales price may be based on a number of assumptions, including but not limited to the Company's estimates of future and stabilized cash flows, market capitalization rates and discount rates, if applicable. For developable land holdings, an estimated per-unit market value assumption is also considered based on development rights for the land. In addition, the Company classifies assets held for sale or sold as discontinued operations if the disposal groups represent a strategic shift that will have a major effect on the Company's operations and financial results. For any disposals qualifying as discontinued operations, the assets and their results are presented in discontinued operations in the financial statements for all periods presented. See Note 7: Discontinued Operations – to the Financial Statements.

If circumstances arise that previously were considered unlikely and, as a result, the Company decides not to sell an asset previously classified as held for sale, the asset is reclassified as held and used. An asset that is reclassified is measured and recorded individually at the lower of (a) its carrying value before the asset was classified as held for sale, adjusted for any depreciation (amortization) expense that would have been recognized had the asset been continuously classified as held and used, or (b) the fair value at the date of the subsequent decision not to sell.

Investments in Unconsolidated Joint Ventures

The Company accounts for its investments in unconsolidated joint ventures under the equity method of accounting. The Company applies the equity method by initially recording these investments at cost, as Investments in Unconsolidated Joint Ventures, subsequently adjusted for equity in earnings and cash contributions and distributions. The outside basis portion of the Company's joint ventures is amortized over the anticipated useful lives of the underlying ventures' tangible and intangible assets acquired and liabilities assumed. Generally, the Company would discontinue applying the equity method when the investment (and any advances) is reduced to zero and would not provide for additional losses unless the Company has guaranteed obligations of the venture or is otherwise committed to providing further financial support for the investee. If the venture subsequently generates income, the Company only recognizes its share of such income to the extent it exceeds its share of previously unrecognized losses.

If the venture subsequently makes distributions and the Company does not have an implied or actual commitment to support the operations of the venture, the Company will not record a basis less than zero, rather such amounts will be recorded as equity in earnings of unconsolidated joint ventures.

On a periodic basis, management assesses whether there are any indicators that the value of the Company's investments in unconsolidated joint ventures may be impaired. An investment is impaired only if management's estimate of the value of the investment is less than the carrying value of the investment, and such decline in value is deemed to be other than temporary. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying value of the investment over the value of the investment. The Company's estimates of value for each investment (particularly in real estate joint ventures) are based on a number of assumptions including but not limited to estimates of future and stabilized cash flows, market capitalization rates and discount rates, if applicable. These assumptions are based on management's experience in its local real estate markets and the effects of current market conditions. The assumptions are subject to economic and market uncertainties including, among others, demand for space, competition for tenants, changes in market rental rates, and operating costs. As these factors are difficult to predict and are subject to future events that may alter management's assumptions, the values estimated by management in its impairment analyses may not be realized, and actual losses or impairment may be realized in the future. See Note 4: Investments in Unconsolidated Joint Ventures – to the Financial Statements.

Revenue Recognition

Revenue from leases includes fixed base rents under leases, which are recognized on a straight-line basis over the terms of the respective leases. Unbilled rents receivable represents the cumulative amount by which straight-line rental revenue exceeds rents currently billed in accordance with the lease agreements.

Above-market and below-market lease values for acquired properties are initially recorded based on the present value (using a discount rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to each in-place lease and (ii) management's estimate of fair market lease rates for each corresponding in-place lease, measured over a period equal to the remaining term of the lease for above-market leases and the remaining initial term plus the term of any below-market fixed-rate renewal options for below-market leases. The capitalized above-market lease values for acquired properties are amortized as a reduction of revenue from leases over the remaining terms of the respective leases, and the capitalized below-market lease values are amortized as an increase to revenue from leases over the remaining initial terms plus the terms of any below-market fixed-rate renewal options of the respective leases.

The Company elected a practical expedient for its rental properties (as lessor) to avoid separating non-lease components that otherwise would need to be accounted for under the recently-adopted revenue accounting guidance (such as tenant reimbursements of property operating expenses) from the associated lease component since (1) the non-lease components have the same timing and pattern of transfer as the associated lease component and (2) the lease component, if accounted for separately, would be classified as an operating lease; this enables the Company to account for the combination of the lease component and non-lease components as an operating lease since the lease component is the predominant component of the combined components.

Due to the Company's adoption of the practical expedient discussed above to not separate non-lease component revenue from the associated lease component, the Company is aggregating revenue from its lease components and non-lease components (comprised predominantly of tenant operating expense reimbursements) into the line entitled "Revenue from leases."

Revenue from leases also includes reimbursements and recoveries from tenants received from tenants for certain costs as provided in the lease agreements. These costs generally include real estate taxes, utilities, insurance, common area maintenance and other recoverable costs. See Note 13: Tenant Leases – to the Financial Statements.

Real estate services revenue includes property management, development, construction and leasing commission fees and other services, and payroll and related costs reimbursed from clients. Fee income derived from the Company's unconsolidated joint ventures (which are capitalized by such ventures) are recognized to the extent attributable to the unaffiliated ownership interests.

Parking income includes income from parking spaces leased to tenants and others.

Hotel income includes all revenue earned from hotel properties.

Other income includes income from tenants for additional services arranged for by the Company and income from tenants for early lease terminations.

All bad debt expense is being recorded as a reduction of the corresponding revenue account starting on January 1, 2019. Management performs a detailed review of amounts due from tenants for collectability, based on factors affecting the billings and status of individual tenants. The factors considered by management in determining which individual tenant's revenues are affected include the age of the receivable, the tenant's payment history, the nature of the charges, any communications regarding the charges and other related information. Management's estimate of bad debt write-off's requires management to exercise judgment about the timing, frequency and severity of collection losses, which affects the revenue recorded.

Redeemable Noncontrolling Interests

The Company evaluates the terms of the partnership units issued in accordance with the FASB's Distinguishing Liabilities from Equity guidance. Units which embody an unconditional obligation requiring the Company to redeem the units for cash after a specified or determinable date (or dates) or upon the occurrence of an event that is not solely within the control of the issuer are determined to be contingently redeemable under this guidance and are included as Redeemable noncontrolling interests and classified within the mezzanine section between Total liabilities and Stockholders' equity on the Company's Consolidated Balance Sheets. The carrying amount of the redeemable noncontrolling interests will be changed by periodic accretions, so that the carrying amount will equal the estimated future redemption value at the redemption date.

Results From Operations

The following comparisons for the year ended December 31, 2019 ("2019"), as compared to the year ended December 31, 2018 ("2018"), and for 2018 as compared to the year ended December 31, 2017 ("2017") make reference to the following: (i) the effect of the "Same-Store Properties," which represent all in-service properties owned by the Company at December 31, 2017, (for the 2019 versus 2018 comparisons), and which represent all in-service properties owned by the Company at December 31, 2016 (for the 2018 versus 2017

comparisons), excluding properties sold, disposed of, removed from service, or being redeveloped or repositioned from January 1, 2017 through December 31, 2019; (ii) the effect of the “Acquired Properties,” which represent all properties acquired by the Company or commencing initial operation from January 1, 2018 through December 31, 2019 (for the 2019 versus 2018 comparisons), and which represents all properties acquired by the Company or commencing initial operations from January 1, 2017 through December 31, 2018 (for the 2018 versus 2017 comparisons), and (iii) the effect of “Properties Sold” which represent properties sold, disposed of, or removed from service (including properties being redeveloped or repositioned) by the Company from January 1, 2017 through December 31, 2019.

Revenue from leases. Revenue from leases for the Same-Store Properties decreased \$6.3 million, or 2.0 percent, for 2019 as compared to 2018, due primarily to a 610 basis point decrease in the average same store percent leased of the office portfolio from 82.2 percent in 2018 to 76.1 percent in 2019.

Parking income. Parking income for the Same-Store Properties decreased \$1.7 million, or 7.6 percent for 2019 as compared to 2018 due primarily to less tenant usage in 2019 due to higher vacancies, as well as catch-up billings in 2018 for third party fees not recurring in 2019.

Hotel income. The Company recognized hotel income of \$9.8 million in 2019 from hotel properties, which commenced operations at the end of 2018 and mid 2019.

Other income. Other income for the Same-Store Properties decreased \$0.5 million, or 5.9 percent for 2019 as compared to 2018 due primarily to a decrease in lease breakage fees recognized in 2019, as compared to 2018.

Real estate taxes. Real estate taxes on the Same-Store Properties decreased \$0.2 million, or 0.4 percent, for 2019 as compared to 2018 due primarily to lower tax assessment values for the Company's office properties in 2019 as compared to 2018.

Utilities. Utilities for the Same-Store Properties decreased \$1.1 million, or 4.7 percent, for 2019 as compared to 2018, due primarily to lower electricity rates in 2019 as compared to 2018.

Operating services. Operating services for the Same-Store Properties were relatively unchanged for 2019 as compared to 2018. Increases in operations and maintenance costs were offset by a decrease in salaries and related expenses for 2019 as compared to 2018.

Real estate services revenue. Real estate services revenue (primarily reimbursement of property personnel costs) decreased \$3.2 million, or 18.8 percent, for 2019 as compared to 2018, due primarily to decreased third party development and property management activity in multi-family services in 2019 as compared to 2018.

Real estate services expenses. Real estate services expenses decreased \$2.0 million, or 11.2 percent, for 2019 as compared to 2018 due primarily to decreased salaries and related expenses from lower third party services activities in 2019.

Leasing personnel costs. Leasing personnel costs of \$2.3 million were expensed in 2019 while none of these costs were expensed in

2018.

General and administrative. General and administrative expenses increased \$3.7 million, or 6.8 percent in 2019 as compared to 2018 due primarily to \$4.6 million in costs incurred in 2019 due to consulting and related fees and costs from strategic planning activities of the Company and \$4.1 million in costs incurred in 2019 in connection with the contested election of the Board of Directors at the General Partners' 2019 annual meeting of stockholders. These costs were partially offset by a decrease in severance, separation and related costs from management restructurings which amounted to \$1.3 million in 2019, as compared to \$6.6 million in 2018 (resulting from the departure of certain of the Company's executive officers and other management restructuring).

Depreciation and amortization. Depreciation and amortization increased \$19.8 million, or 17.6 percent, for 2019 over 2018. This decrease was due primarily to an increase in depreciation of \$40.7 million for 2019 as compared to 2018 from the Acquired Properties and an increase of \$1.8 million for 2019 as compared to 2018 on the Same-Store Properties. These were partially offset by lower depreciation of approximately \$22.7 million for properties sold or removed from service during 2018 and 2019.

Land and other impairments. In 2019, the Company recorded valuation impairment charges of \$32.4 million on developable land parcels. The Company recorded land impairment charges of \$24.6 million in 2018 on two developable land parcels in Pennsylvania. See Note 3: Impairments – to the Financial Statements.

Interest expense. Interest expense increased \$13.2 million, or 17.1 percent, for 2019 as compared to 2018. This increase was primarily the result of higher average debt balances in 2019, as compared to 2018.

Interest and other investment income. Interest and other investment income decreased \$0.8 million, or 25.1 percent, for 2019 as compared to 2018 primarily due to lower average notes receivable balances outstanding in 2019 as compared to 2018.

Equity in earnings (loss) of unconsolidated joint ventures. Equity in earnings of unconsolidated joint ventures decreased \$1.2 million, or 938.6 percent, for 2019 as compared to 2018. The decrease was due primarily to the recording in 2019 of a \$3.7 million writedown of an investment in a joint venture that owns a property in Florham Park, New Jersey. This was partially offset by an increase of \$2.6 million for 2019 as compared to 2018 from the Urby at Harborside venture, due to increased residential rents in 2019 as compared to 2018, a reduction in leasing expense in 2019 due to the amortization of initial broker commissions in 2018, and lower real estate taxes in 2019 as a result of a true-up credit from the town.

Gain on change of control of interests. The Company recorded a gain on change of control of interests of \$13.8 million in 2019 as a result of its acquisition of the controlling interest of its equity partners in a joint venture owns a multi-family property located in Jersey City, New Jersey. The Company recorded a gain on change of control of interests of \$14.2 million in 2018 as a result of its acquisition of its equity partners' interest in a multi-family property located in Jersey City, New Jersey. See Note 3: Recent Transactions – Consolidations – to the Financial Statements.

Realized gains (losses) and unrealized losses on disposition of rental property, net. The Company had realized gains (unrealized losses) on disposition of rental property of \$345.9 million in 2019 and \$99.4 million in 2018. See Note 3: Recent Transactions – Dispositions – to the Financial Statements.

Gain on disposition of developable land. The Company recorded a gain of \$0.5 million in 2019 on the sale of land holdings located in Malden and Revere, Massachusetts and a gain of \$30.9 million 2018 on the disposal of land in Upper Saddle River, New Jersey. See Note 3: Recent Transactions – Dispositions – to the Financial Statements.

Gain on sale of investment in unconsolidated joint venture. In 2019, the Company recorded a \$0.9 million gain on the sale of its interests in a joint venture, which owned a property in Red Bank, New Jersey. See Note 4: Investments in Unconsolidated Joint Ventures – to the Financial Statements.

Gain/(loss) from extinguishment of debt, net. In 2019, the Company recognized a gain from extinguishment of debt of \$1.6 million in connection with the early termination of part of interest rate swap agreements, which resulted from the prepayment of unsecured term loan balances in 2019. In 2018, the Company recognized a loss from extinguishment of debt of \$10.8 million in connection with the early prepayment of certain mortgage payables. See Note 9: Unsecured Revolving Credit Facility and Term Loans – to the Financial Statements and Note 10: Mortgages, Loans Payable and Other Obligations – to the Financial Statements.

Discontinued operations. In 2019, the Company classified 37 office properties totaling 6.6 million square feet as discontinued operations. The income from these properties increased \$1.3 million for 2019 as compared to 2018. The Company recognized realized

gains (losses) and unrealized losses on disposition of rental property and impairments, net, of a loss of \$136.2 million on these properties in 2019.

Net income. Net income increased to \$143.8 million in 2019 from \$106.4 million in 2018. The increase of \$37.4 million was due to the factors discussed above.

Revenue from leases. Revenue from leases for the Same-Store Properties decreased \$33.4 million, or 8.3 percent, for 2018 as compared to 2017, due primarily to a 950 basis point decrease in the average same store percent leased of the office portfolio from 89.9 percent in 2017 to 80.4 percent in 2018.

Parking income. Parking income for the Same-Store Properties increased \$0.9 million, or 4.7 percent for 2018 as compared to 2017 due primarily to an overall greater amount of parking usage in 2018, as compared to 2017.

Other income. Other income for the Same-Store Properties decreased \$3.6 million, or 29.6 percent for 2018 as compared to 2017 due primarily to a decrease in lease breakage fees recognized in 2018, as compared to 2017.

Real estate taxes. Real estate taxes on the Same-Store Properties decreased \$7.4 million, or 11.9 percent, for 2018 as compared to 2017 due primarily to an increase in tax appeal proceeds received in 2018 as compared to 2017. Real estate taxes, without the effect of net tax appeal proceeds, decreased \$2.9 million, or 4.5 percent, for 2018 as compared to 2017 due primarily to lower tax assessment values for the Company's office properties in 2018.

Utilities. Utilities for the Same-Store Properties decreased \$0.5 million, or 1.6 percent, for 2018 as compared to 2017, due primarily to decreased usage in 2018 as compared to 2017.

Operating services. Operating services for the Same-Store Properties decreased \$1.5 million, or 1.9 percent, due primarily to decreases of \$1.7 million in property maintenance costs and of \$1.1 million in salaries and related expenses in 2018 as compared to 2017, partially offset by severance, separation and related costs in 2018 from property management restructurings of \$1.4 million.

Real estate services revenue. Real estate services revenue (primarily reimbursement of property personnel costs) decreased \$6.0 million, or 26.1 percent, for 2018 as compared to 2017, due primarily to decreased third party development and property management activity in multi-family services in 2018 as compared to 2017.

Real estate services expenses. Real estate services expenses decreased \$5.5 million, or 23.4 percent, for 2018 as compared to 2017 due primarily to decreased salaries and related expenses from lower third party services activities in 2018.

General and administrative. General and administrative expenses increased \$3.4 million, or 6.7 percent, in 2018 as compared to 2017 due primarily to severance, separation and related costs from management restructurings in 2018 of \$6.6 million, and an increase in marketing and investor relations costs of \$0.6 million in 2018 as compared to 2017, partially offset by a decrease in 2018 in overhead

salaries and related expenses due to less overall corporate personnel in 2018 as compared to 2017 of \$3.9 million.

Depreciation and amortization. Depreciation and amortization decreased \$30.1 million, or 21.1 percent, for 2018 over 2017. This increase was due primarily to lower depreciation of approximately \$34.3 million for properties sold or removed from service during 2017 and 2018 and a decrease of \$7.0 million for 2018 as compared to 2017 on the Same-Store Properties primarily due to assets becoming fully amortized. These were partially offset by an increase in depreciation of \$11.2 million for 2018 as compared to 2017 from the Acquired Properties.

Land impairments. The Company recorded land impairment charges of \$24.6 million in 2018 on two developable land parcels in Pennsylvania.

Interest expense. Interest expense decreased \$7.2 million, or 8.5 percent, for 2018 as compared to 2017. This decrease was primarily the result of lower average interest rates for 2018 as compared to 2017, due to the refinancing of the Company's debt in 2017 and 2018.

Interest and other investment income. Interest and other investment income increased \$0.5 million, or 19.7 percent, for 2018 as compared to 2017 primarily due to higher average notes receivable balances outstanding in 2018, as compared to 2017.

Equity in earnings (loss) of unconsolidated joint ventures. Equity in earnings of unconsolidated joint ventures increased \$6.0 million, or 97.9 percent, for 2018 as compared to 2017. The increase was due primarily to an increase of \$5.4 million for 2018 as compared to 2017 from the Urby at Harborside venture, which was placed in service in 2017, and also included in 2018 the Company's share of \$2.6 million from venture's sale of an economic tax credit to a third party.

Gain on change of control of interests. The Company recorded a gain on change of control of interests of \$14.2 million in 2018 as a result of its acquisition of its equity partners' interest in a multi-family property located in Jersey City, New Jersey. See Note 3: Recent Transactions – Consolidations – to the Financial Statements.

Realized gains (losses) and unrealized losses on disposition of rental property, net. The Company had realized gains (unrealized losses) on disposition of rental property of \$99.4 million in 2018 and \$2.4 million in 2017. See Note 3: Recent Transactions – Dispositions – to the Financial Statements.

Gain on disposition of developable land. The Company recorded a gain of \$30.9 million 2018 on the disposal of land in Upper Saddle River, New Jersey. See Note 3: Recent Transactions – Dispositions – to the Financial Statements.

Gain on sale of investment in unconsolidated joint venture. In 2017, the Company recorded a \$23.1 million gain on the sale in 2017 of its interests in certain joint ventures.

Loss from extinguishment of debt, net. In 2018, the Company recognized a loss from extinguishment of debt of \$8.9 million in connection with the early prepayment of certain mortgage payables. In 2017, the Company recognized a loss from extinguishment of debt of \$0.4 million due to allocated costs as a result of the amendment of its revolving credit facility in 2017 and the refinancing of a mortgage loan in 2017. See Note 8: Unsecured Revolving Credit Facility and Term Loans – to the Financial Statements and Note 9: Mortgages, Loans Payable and Other Obligations – to the Financial Statements.

Discontinued Operations. In 2019, the Company classified 37 office properties totaling 6.6 million square feet as discontinued operations. The income from these properties increased \$3.3 million for 2018 as compared to 2017.

Net income. Net income increased to \$106.4 million in 2018 from \$33.7 million in 2017. The increase of \$72.7 million was due to the factors discussed above.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

Overview

Historically, rental revenue has been the Company's principal source of funds to pay operating expenses, debt service, capital expenditures and dividends, excluding non-recurring capital expenditures. To the extent that the Company's cash flow from operating activities is insufficient to finance its non-recurring capital expenditures such as property acquisitions, development and construction costs and other capital expenditures, the Company has and expects to continue to finance such activities through borrowings under its unsecured revolving credit facility, other debt and equity financings, proceeds from the sale of properties and joint venture capital.

The Company expects to meet its short-term liquidity requirements generally through its working capital, which may include proceeds from the sales of office properties, net cash provided by operating activities and draw from its unsecured revolving credit facility. The Company frequently examines potential property acquisitions and development projects and, at any given time, one or more of such acquisitions or development projects may be under consideration. Accordingly, the ability to fund property acquisitions and development projects is a major part of the Company's financing requirements. The Company expects to meet its financing requirements through funds generated from operating activities, to the extent available, proceeds from property sales, joint venture capital, long-term and short-term borrowings (including draws on the Company's unsecured revolving credit facility) and the issuance of additional debt and/or equity securities.

Repositioning of the Company's Portfolio

In September 2015, the Company announced an initiative to transform into a more concentrated owner of New Jersey Hudson River waterfront and transit-oriented office properties and a regional owner of luxury multi-family rental properties. As part of this plan, the Company has sold multiple properties, primarily commercial office and office/flex properties, which it believes do not meet its long-term goals, and has invested in other real estate assets that the Company believes meet the Company's long-term goals.

In December 2019, the Company announced that the Board of Directors of the General Partner has determined to sell the Company's remaining Suburban Office Portfolio totaling approximately 6.1 million square feet of office space. The Company plans to use the available estimated net sales proceeds of approximately \$1.1 billion to pay down its corporate-level, unsecured indebtedness.

Construction Projects

The Company is developing a 313-unit multi-family project known as Port Imperial South 9 at Port Imperial in Weehawken, New Jersey, which began construction in third quarter 2018. The construction project, which is estimated to cost \$142.9 million, of which construction costs of \$67.8 million have been incurred through December 31, 2019, is expected to be ready for occupancy in fourth quarter 2020. The Company has funded \$50.9 million as of December 31, 2019, and the remaining construction costs are expected to be funded primarily from a \$92 million construction loan.

The Company is developing a 326-unit multi-family project known as Chase III at Overlook Ridge in Malden, Massachusetts, which began construction in third quarter 2018. The construction project, which is estimated to cost \$100.7 million, of which \$64.3 million have been incurred through December 31, 2019, is expected to be ready for initial occupancy in first quarter 2020. The Company has funded \$38.7 million as of December 31, 2019, and the remaining construction costs are expected to be funded primarily from a \$62 million construction loan.

The Company is developing a 198-unit multi-family project known as The Upton at Short Hills located in Short Hills, New Jersey, which began construction in fourth quarter 2018. The construction project, which is estimated to cost \$99.4 million, of which \$50.4 million have been incurred through December 31, 2019, is expected to be ready for occupancy in fourth quarter 2020. The Company has funded \$35.4 million of the construction costs, and the remaining construction costs are expected to be funded primarily from a \$64 million construction loan.

The Company is developing a 750-unit multi-family project at 25 Christopher Columbus in Jersey City, New Jersey, which began construction in first quarter 2019. The construction project, which is estimated to cost \$469.5 million, of which \$151.9 million have been incurred through December 31, 2019, is expected to be ready for occupancy in first quarter 2022. The Company is expected to fund \$169.5 million of the construction costs of which the Company has funded \$122.5 million as of December 31, 2019, and the remaining construction costs are expected to be funded primarily from a newly obtained \$300 million construction loan.

REIT Restrictions

To maintain its qualification as a REIT under the IRS Code, the General Partner must make annual distributions to its stockholders of at least 90 percent of its REIT taxable income, determined without regard to the dividends paid deduction and by excluding net capital gains. Moreover, the General Partner intends to continue to make regular quarterly distributions to its common stockholders. Based upon the most recently paid common stock dividend rate of \$0.20 per common share, in the aggregate, such distributions would equal approximately \$72.5 million (\$81.6 million, including units in the Operating Partnership held by parties other than the General Partner) on an annualized basis. However, any such distributions, whether for federal income tax purposes or otherwise, would be paid out of available cash, including borrowings and other sources, after meeting operating requirements, preferred stock dividends and distributions, and scheduled debt service on the Company's debt. If and to the extent the Company retains and does not distribute any net capital gains, the General Partner will be required to pay federal, state and local taxes on such net capital gains at the rate applicable to capital gains of a corporation.

Property Lock-Ups

Through February 2016, the Company could not dispose of or distribute certain of its properties which were originally contributed by certain unrelated common unitholders of the Operating Partnership, without the express written consent of such common unitholders, as applicable, except in a manner which did not result in recognition of any built-in-gain (which may result in an income tax liability) or which reimbursed the appropriate specific common unitholders for the tax consequences of the recognition of such built-in-gains (collectively, the "Property Lock-Ups"). Upon the expiration in February 2016 of the Property Lock-Ups, the Company is generally required to use commercially reasonable efforts to prevent any sale, transfer or other disposition of the subject properties from resulting in the recognition of built-in gain to the specific common unitholders, which include members of the Mack Group (which includes William L. Mack, Chairman of the General Partner's Board of Directors; David S. Mack, a former director; and Earle I. Mack, a former director), the Robert Martin Group, and the Cali Group (which includes John R. Cali, a former director). As of December 31, 2019, after the effects of tax-free exchanges on certain of the originally contributed properties, either wholly or partially, over time, 27 of the Company's properties, as well as certain land and development projects, including properties classified as held for sale as of December 31, 2019, with an aggregate carrying value of approximately \$1.9 billion, are subject to these conditions.

Unencumbered Properties

As of December 31, 2019, the Company had 38 unencumbered properties with a carrying value of \$1.7 billion representing 71.7 percent of the Company's total consolidated property count.

Cash Flows

Cash, cash equivalents and restricted cash decreased by \$8.4 million to \$41.2 million at December 31, 2019, compared to \$49.6 million at December 31, 2018. This decrease is comprised of the following net cash flow items:

- (1) \$131.8 million provided by operating activities.
- (2) \$416.1 million used in investing activities, consisting primarily of the following:
 - (a) \$9 million used for investments in unconsolidated joint ventures; plus
 - (b) \$956 million used for rental property acquisitions and related intangibles; plus
 - (c) \$97.5 million used for additions to rental property and improvements; plus
 - (d) \$172.3 million used for the development of rental property, other related costs and deposits; plus
 - (e) \$66.2 million net cash used in investing activities - discontinued operations; minus
 - (f) \$825.6 million from proceeds from the sales of rental property; minus
 - (g) \$46.6 million received from repayments of notes receivables; minus
 - (h) \$8.7 million received from distributions in excess of cumulative earnings from unconsolidated joint ventures; minus
 - (i) \$4 million received from proceeds from the sale of investments in unconsolidated joint ventures.
- (3) \$275.8 million provided by financing activities, consisting primarily of the following:
 - (a) \$829 million from borrowings under the unsecured revolving credit facility; plus
 - (b) \$877.1 million from proceeds received from mortgages and loans payable; plus
 - (c) \$145 million from issuance of redeemable noncontrolling interests; minus
 - (d) \$617 million used for repayments of unsecured revolving credit facility; minus
 - (e) \$155.1 million used for repayments of mortgages, loans payable and other obligations; minus
 - (f) \$102.6 million used for payments of dividends and distributions; minus
 - (g) \$0.5 million used for distribution to noncontrolling interests; minus
 - (h) \$12.3 million used for payment of finance cost; minus
 - (i) \$675 million used for payment of unsecured term loan; minus
 - (j) \$5 million used for the acquisition of noncontrolling interests; minus
 - (k) \$7.8 million used for common unit redemptions.

(b) Includes outstanding borrowings of the Company's unsecured revolving credit facility of \$329 million.

(c) Excludes amortized deferred financing costs primarily pertaining to the Company's unsecured revolving credit facility which amounted to \$3.4 million for the year ended December 31, 2019.

Senior Unsecured Notes:

The terms of the Company's senior unsecured notes (which totaled approximately \$575 million as of December 31, 2019) include certain restrictions and covenants which require compliance with financial ratios relating to the maximum amount of debt leverage, the maximum amount of secured indebtedness, the minimum amount of debt service coverage and the maximum amount of unsecured debt as a percent of unsecured assets.

Unsecured Revolving Credit Facility and Term Loans:

On January 25, 2017, the Company entered into an amended revolving credit facility and new term loan agreement ("2017 Credit Agreement") with a group of 13 lenders. Pursuant to the 2017 Credit Agreement, the Company refinanced its existing \$600 million unsecured revolving credit facility ("2017 Credit Facility") and entered into a new \$325 million unsecured term loan facility ("2017 Term Loan"). Effective March 6, 2018, the Company elected to determine its interest rate under the 2017 Credit Agreement and under the 2017 Term Loan using the defined leverage ratio option, resulting in an interest rate of LIBOR plus 130 basis points and LIBOR plus 155 basis points, respectively.

The terms of the 2017 Credit Facility include: (1) a four-year term ending in January 2021, with two six-month extension options, subject to the Company not being in default on the facility and with the payment of a fee of 7.5 basis points for each extension; (2) revolving credit loans may be made to the Company in an aggregate principal amount of up to \$600 million (subject to increase as discussed below), with a sublimit under the 2017 Credit Facility for the issuance of letters of credit in an amount not to exceed \$60 million (subject to increase as discussed below); (3) an interest rate based on the Operating Partnership's unsecured debt ratings from Moody's or S&P, or, at the Operating Partnership's option, if it no longer maintains a debt rating from Moody's or S&P or such debt ratings fall below Baa3 and BBB-, based on a defined leverage ratio; and (4) a facility fee, currently 25 basis points, payable quarterly based on the Operating Partnership's unsecured debt ratings from Moody's or S&P, or, at the Operating Partnership's option, if it no longer maintains a debt rating from Moody's or S&P or such debt ratings fall below Baa3 and BBB-, based on a defined leverage ratio.

After electing to use the defined leverage ratio to determine the interest rate, the interest rate under the 2017 Credit Facility is currently based on the following total leverage ratio grid:

Total Leverage Ratio	Interest Rate - Applicable Basis Points Above LIBOR	Interest Rate - Applicable Basis Points Above LIBOR for Alternate Base Rate Loans	Facility Fee Basis Points
<45%	125.0	25.0	20.0
≥45% and <50%	130.0	30.0	25.0
≥50% and <55% (current ratio)	135.0	35.0	30.0
≥55%	160.0	60.0	35.0

Prior to the election to use the defined leverage ratio option, the interest rates on outstanding borrowings, alternate base rate loans and the facility fee on the current borrowing capacity, payable quarterly in arrears, on the 2017 Credit Facility were based upon the Operating Partnership's unsecured debt ratings, as follows:

Operating Partnership's Unsecured Debt Ratings: Higher of S&P or Moody's	Interest Rate - Applicable Basis Points Above LIBOR	Interest Rate - Applicable Basis Points Above LIBOR for Alternate Base Rate Loans	Facility Fee Basis Points
No ratings or less than BBB-/Baa3	155.0	55.0	30.0
BBB- or Baa3 (interest rate based on Company's election through March 5, 2018)	120.0	20.0	25.0
BBB or Baa2	100.0	0.0	20.0
BBB+ or Baa1	90.0	0.0	15.0
A- or A3 or higher	87.5	0.0	12.5

The terms of the 2017 Term Loan included: (1) a three-year term ending in January 2020, with two one-year extension options; (2) multiple draws of the term loan commitments may be made within 12 months of the effective date of the 2017 Credit Agreement up to an aggregate principal amount of \$325 million (subject to increase as discussed below), with no requirement to be drawn in full; provided, that, if the Company does not borrow at least 50 percent of the initial term commitment from the term lenders (i.e. 50 percent of \$325 million) on or before July 25, 2017, the amount of unused term loan commitments shall be reduced on such date so that, after giving effect to such reduction, the amount of unused term loan commitments is not greater than the outstanding term loans on such date; (3) an interest rate based on the Operating Partnership's unsecured debt ratings from Moody's or S&P or, at the Operating Partnership's option if it no longer maintains a debt rating from Moody's or S&P or such debt ratings fall below Baa3 and BBB-, based on a defined leverage ratio; and (4) a term commitment fee on any unused term loan commitment during the first 12 months after the effective date of the 2017 Credit Agreement at a rate of 0.25 percent per annum on the sum of the average daily unused portion of the aggregate term loan commitments.

On March 29, 2017, the Company executed interest rate swap arrangements to fix LIBOR with an aggregate average rate of 1.6473% for the swaps and a current aggregate fixed rate of 3.0473% for borrowings under the 2017 Term Loan.

On August 5, 2019, the Company prepaid \$45 million on the 2017 Term Loan (using a portion of the proceeds from a new mortgage loan collateralized by an office building located at 111 River Street received on that date) and recorded a net loss of \$20,000 from extinguishment of debt, as a result of a gain of \$44,000 due to the early termination of part of the interest rate swap arrangements and the write off of unamortized deferred financing costs and fees of \$64,000 due to the early debt prepayment.

On December 18, 2019, the Company prepaid the remaining \$280 million balance outstanding on the 2017 Term Loan (using borrowings under the Company's unsecured revolving credit facility) and recorded a net loss of \$153,000 from extinguishment of debt, as a result of a gain of \$36,000 due to the early termination of part of the interest rate swap arrangements and the write off of unamortized deferred financing costs and fees of \$189,000 due to the early debt prepayment.

After electing to use the defined leverage ratio to determine the interest rate, the interest rate under the 2017 Term Loan was based on the following total leverage ratio grid:

Total Leverage Ratio	Interest Rate - Applicable Basis Points above LIBOR	Interest Rate - Applicable Basis Points Above LIBOR for Alternate Base Rate Loans
<45%	145.0	45.0
≥45% and <50%	155.0	55.0
≥50% and <55% (current ratio)	165.0	65.0
≥55%	195.0	95.0

Prior to the election to use the defined leverage ratio option, the interest rate on the 2017 Term Loan was based upon the Operating Partnership's unsecured debt ratings, as follows:

Operating Partnership's Unsecured Debt Ratings: Higher of S&P or Moody's	Interest Rate - Applicable Basis Points Above LIBOR	Interest Rate - Applicable Basis Points Above LIBOR for Alternate Base Rate Loans
No ratings or less than BBB-/Baa3	185.0	85.0
BBB- or Baa3 (interest rate based on Company's election through March 5, 2018)	140.0	40.0
BBB or Baa2	115.0	15.0
BBB+ or Baa1	100.0	0.0
A- or A3 or higher	90.0	0.0

On up to four occasions at any time after the effective date of the 2017 Credit Agreement, the Company may elect to request (1) an increase to the existing revolving credit commitments (any such increase, the "New Revolving Credit Commitments") and/or (2) the establishment of one or more new term loan commitments (the "New Term Commitments", together with the 2017 Credit Commitments, the "Incremental Commitments"), by up to an aggregate amount not to exceed \$350 million for all Incremental Commitments. The Company may also request that the sublimit for letters of credit available under the 2017 Credit Facility be increased to \$100 million (without arranging any New Revolving Credit Commitments). No lender or letter of credit issued has any obligation to accept any Incremental Commitment or any increase to the letter of credit subfacility. There is no premium or penalty associated with full or partial prepayment of borrowings under the 2017 Credit Agreement.

The 2017 Credit Agreement, which applies to both the 2017 Credit Facility and 2017 Term Loan, includes certain restrictions and covenants which limit, among other things the incurrence of additional indebtedness, the incurrence of liens and the disposition of real estate properties (to the extent that: (i) such property dispositions cause the Company to default on any of the financial ratios of the 2017 Credit Agreement (described below), or (ii) the property dispositions are completed while the Company is under an event of default under the 2017 Credit Agreement, unless, under certain circumstances, such disposition is being carried out to cure such default), and which require compliance with financial ratios relating to the maximum leverage ratio (60 percent), the maximum amount of secured indebtedness (40 percent), the minimum amount of fixed charge coverage (1.5 times), the maximum amount of unsecured indebtedness (60 percent), the minimum amount of unencumbered property interest coverage (2.0 times) and certain investment limitations (generally 15 percent of total capitalization). If an event of default has occurred and is continuing, the entire outstanding balance under the 2017 Credit Agreement may (or, in the case of any bankruptcy event of default, shall) become immediately due and payable, and the Company will not make any excess distributions except to enable the General Partner to continue to qualify as a REIT under the IRS Code.

Before it amended and restated its unsecured revolving credit facility in January 2017, the Company had a \$600 million unsecured revolving credit facility with a group of 17 lenders that was scheduled to mature in July 2017. The interest rate on outstanding borrowings (not electing the Company's competitive bid feature) and the facility fee on the current borrowing capacity, payable quarterly in arrears, was based upon the Operating Partnership's unsecured debt ratings at the time, as follows:

Operating Partnership's Unsecured Debt Ratings: Higher of S&P or Moody's	Interest Rate - Applicable Basis Points Above LIBOR	Facility Fee Basis Points
No ratings or less than BBB-/Baa3	170.0	35.0
BBB- or Baa3 (since January 2017 amendment)	130.0	30.0
BBB or Baa2	110.0	20.0
BBB+ or Baa1	100.0	15.0
A- or A3 or higher	92.5	12.5

In January 2016, the Company obtained a \$350 million unsecured term loan ("2016 Term Loan"), which had been scheduled to mature in January 2019 with two one-year extension options. On January 7, 2019, the Company exercised the first one-year extension option with the payment of an extension fee of \$0.5 million, which extended the maturity of the 2016 Term Loan to January 2020. The interest rate for the term loan is based on the Operating Partnership's unsecured debt ratings, or, at the Company's option, a defined leverage ratio. Effective March 6, 2018, the Company elected to determine its interest rate under the 2016 Term Loan using the defined leverage ratio option, resulting in an interest rate of LIBOR plus 155 basis points. The Company entered into interest rate swap arrangements to fix LIBOR for the duration of the term loan. Including costs, the current all-in fixed rate is 3.13 percent. The proceeds from the loan were used primarily to repay outstanding borrowings on the Company's then existing unsecured revolving credit facility and to repay \$200 million senior unsecured notes that matured on January 15, 2016.

On March 29, 2019, the Company prepaid \$90 million on the 2016 Term Loan (using a portion of the cash sales proceeds from the Flex portfolio sale completed on that date) and recorded a gain from extinguishment of debt of \$1.3 million due to the early termination of part of the interest rate swap arrangements, as a result of the debt prepayment. On June 24, 2019, the Company prepaid \$160 million on the 2016 Term Loan (primarily using the proceeds from a mortgage loan financing obtained on the recently acquired Soho Lofts Apartments) and recorded an additional gain from extinguishment of debt of \$0.6 million due to the early termination of part of the interest rate swap arrangements as a result of the debt prepayment. On August 5, 2019, the Company prepaid the remaining \$100 million balance outstanding on the 2016 Term Loan (using a portion of the proceeds from a new mortgage loan collateralized by an office building located at 111 River Street received on that date), and recorded a net loss from extinguishment of debt of \$78,000 as a result of a gain of \$164,000 due to the early termination of part of the interest rate swap arrangements, and the write off of unamortized deferred financing costs and fees of \$242,000 due to the early debt prepayments.

In summary, the Company recorded a net gain on extinguishment of debt of \$1.6 million during the year ended December 31, 2019, as described above.

After electing to use the defined leverage ratio to determine interest rate, the interest rate under the 2016 Term Loan was based on the following total leverage ratio grid:

Total Leverage Ratio	Interest Rate - Applicable Basis Points above LIBOR
<45%	145.0
≥45% and <50%	155.0
≥50% and <55% (current ratio)	165.0
≥55%	195.0

Prior to the election to use the defined leverage ratio option, the interest rate on the 2016 Term Loan was based upon the Operating Partnership's unsecured debt ratings, as follows:

Operating Partnership's Unsecured Debt Ratings: Higher of S&P or Moody's	Interest Rate - Applicable Basis Points Above LIBOR
No ratings or less than BBB-/Baa3	185.0
BBB- or Baa3 (interest rate based on Company's election through March 5, 2018)	140.0
BBB or Baa2	115.0
BBB+ or Baa1	100.0
A- or A3 or higher	90.0

The terms of the 2016 Term Loan include certain restrictions and covenants which limit, among other things the incurrence of additional indebtedness, the incurrence of liens and the disposition of real estate properties (to the extent that: (i) such property dispositions cause the Company to default on any of the financial ratios of the term loan described below, or (ii) the property dispositions are completed while the Company is under an event of default under the term loan, unless, under certain circumstances, such disposition is being carried out to cure such default), and which require compliance with financial ratios relating to the maximum leverage ratio (60 percent), the maximum amount of secured indebtedness (40 percent), the minimum amount of fixed charge coverage (1.5 times), the maximum amount of unsecured indebtedness (60 percent), the minimum amount of unencumbered property interest coverage (2.0 times) and certain investment limitations (generally 15 percent of total capitalization). If an event of default has occurred and is continuing, the Company will not make any excess distributions except to enable the General Partner to continue to qualify as a REIT under the IRS Code.

On August 30, 2018, the Company entered into an amendment to the 2017 Credit Agreement (the "2017 Credit Agreement Amendment") and an amendment to the 2016 Term Loan (the "2016 Term Loan Agreement Amendment").

Each of the 2017 Credit Agreement Amendment and the 2016 Term Loan Amendment was effective as of June 30, 2018 and provided for the following material amendments to the terms of both the 2017 Credit Agreement and 2016 Term Loan):

1. The unsecured debt ratio covenant has been modified with respect to the measurement of the unencumbered collateral pool of assets in the calculation of such ratio for the period commencing July 1, 2018 and continuing until December 31, 2019 to allow the Operating Partnership to utilize the "as-is" appraised value of the properties known as 'Harborside Plaza I' and 'Harborside Plaza V' properties located in Jersey City, NJ in such calculation; and
2. A new covenant has been added that prohibits the Company from making any optional or voluntary payment, repayment, repurchase or redemption of any unsecured indebtedness of the Company (or any subsidiaries) that matures after January 25, 2022, at any time when any of the Total Leverage Ratio or the unsecured debt ratio covenants exceeds 60 percent (all as defined in the 2017 Credit Agreement and the 2016 Term Loan) or an appraisal is being used to determine the value of Harborside Plaza I and Harborside Plaza V for the unsecured debt ratio covenant.

All other terms and conditions of the 2017 Credit Agreement remain unchanged.

Mortgages, Loans Payable and Other Obligations:

The Company has other mortgages, loans payable and other obligations which consist of various loans collateralized by certain of the Company's rental properties. Payments on mortgages, loans payable and other obligations are generally due in monthly installments of principal and interest, or interest only.

Debt Strategy:

The Company does not intend to reserve funds to retire the Company's senior unsecured notes, outstanding borrowings under its unsecured revolving credit facility, or its mortgages, loans payable and other obligations upon maturity. Instead, the Company will seek to retire such debt primarily with available proceeds to be received from the Company's planned sales of its Suburban Office Portfolio assets over time, as well as obtaining additional mortgage financings on or before the applicable maturity dates. If it cannot raise sufficient proceeds to retire the maturing debt, the Company may draw on its revolving credit facility to retire the maturing indebtedness, which would reduce the future availability of funds under such facility. As of February 24, 2020, the Company had outstanding borrowings of \$322 million under its unsecured revolving credit facility. The Company is reviewing various financing and refinancing options, including the redemption or purchase of the senior unsecured notes in public tender offers or privately-negotiated transactions,

the issuance of additional, or exchange of current, unsecured debt of the Operating Partnership or common and preferred stock of the General Partner, and/or obtaining additional mortgage debt of the Operating Partnership, some or all of which may be completed in 2020. The Company currently anticipates that its available cash and cash equivalents, cash flows from operating activities and proceeds from the sale of real estate assets and joint ventures investments, together with cash available from borrowings and other sources, will be adequate to meet the Company's capital and liquidity needs in the short term. However, if these sources of funds are insufficient or unavailable, due to current economic conditions or otherwise, or if capital needs to fund acquisition and development opportunities in the multi-family rental sector arise, the Company's ability to make the expected distributions discussed in "REIT Restrictions" above may be adversely affected.

Share/Unit Repurchase Program:

The General Partner has a share repurchase program which was renewed and authorized by its Board of Directors in September 2012 to purchase up to \$150 million of the General Partner's outstanding common stock ("Repurchase Program"), which it may repurchase from time to time in open market transactions at prevailing prices or through privately negotiated transactions. As of December 31, 2019, the General Partner has a remaining authorization under the Repurchase Program of \$139 million. There were no common stock repurchases in the years ended December 31, 2018 and 2019 and through February 24, 2020.

Dividend Reinvestment and Stock Purchase Plan:

The Company has a Dividend Reinvestment and Stock Purchase Plan (the "DRIP") which commenced in March 1999 under which approximately 5.5 million shares of the General Partner's common stock have been reserved for future issuance. The DRIP provides for automatic reinvestment of all or a portion of a participant's dividends from the General Partner's shares of common stock. The DRIP also permits participants to make optional cash investments up to \$5,000 a month without restriction and, if the Company waives

this limit, for additional amounts subject to certain restrictions and other conditions set forth in the DRIP prospectus filed as part of the Company's effective registration statement on Form S-3 filed with the Securities and Exchange Commission ("SEC") for the approximately 5.5 million shares of the General Partner's common stock reserved for issuance under the DRIP.

Shelf Registration Statements:

The General Partner has an effective shelf registration statement on Form S-3 filed with the SEC for an aggregate amount of \$0.0 billion in common stock, preferred stock, depositary shares, and/or warrants of the General Partner, under which no securities have been sold as of February 24, 2020.

The General Partner and the Operating Partnership also have an effective shelf registration statement on Form S-3 filed with the SEC for an aggregate amount of \$2.5 billion in common stock, preferred stock, depositary shares and guarantees of the General Partner and debt securities of the Operating Partnership, under which no securities have been sold as of February 24, 2020.

Off-Balance Sheet Arrangements**Unconsolidated Joint Venture Debt:**

The debt of the Company's unconsolidated joint ventures generally provides for recourse to the Company for customary matters such as intentional misuse of funds, environmental conditions and material misrepresentations. The Company has agreed to guarantee repayment of a portion of the debt of its unconsolidated joint ventures. Such debt has a total facility amount of \$318 million of which the Company has agreed to guarantee up to \$34.6 million. As of December 31, 2019, the outstanding balance of such debt totaled \$233.4 million of which \$26.1 million was guaranteed by the Company.

The Company's off-balance sheet arrangements are further discussed in Note 4: Investments in Unconsolidated Joint Ventures to the Financial Statements.

Contractual Obligations

The following table outlines the timing of payment requirements related to the Company's debt (principal and interest), PILOT agreements, ground lease agreements and other obligations, as of December 31, 2019:

Funds from Operations

Funds from operations ("FFO") (available to common stock and unit holders) is defined as net income (loss) before noncontrolling interests in Operating Partnership, computed in accordance with GAAP, excluding gains or losses from depreciable rental property transactions (including both acquisitions and dispositions), and impairments related to depreciable rental property, plus real estate-related depreciation and amortization. The Company believes that FFO is helpful to investors as one of several measures of the

[Table of Contents](#)

performance of an equity REIT. The Company further believes that as FFO excludes the effect of depreciation, gains (or losses) from property transactions and impairments related to depreciable rental property (all of which are based on historical costs which may be of limited relevance in evaluating current performance), FFO can facilitate comparison of operating performance between equity REITs.

FFO should not be considered as an alternative to net income available to common shareholders as an indication of the Company's performance or to cash flows as a measure of liquidity. FFO presented herein is not necessarily comparable to FFO presented by other real estate companies due to the fact that not all real estate companies use the same definition. However, the Company's FFO is comparable to the FFO of real estate companies that use the current definition of the National Association of Real Estate Investment Trusts ("NAREIT").

As the Company considers its primary earnings measure, net income available to common shareholders, as defined by GAAP, to be the most comparable earnings measure to FFO, the following table presents a reconciliation of net income available to common shareholders to FFO, as calculated in accordance with NAREIT's current definition, for the years ended December 31, 2019, 2018 and 2017 (*in thousands*):

	Year Ended December 31,

Funds from operations available to common stock and Operating Partnership unitholders (b)	\$ 116,131	\$ 170,379	\$ 224,164

- (a) Includes the Company's share from unconsolidated joint ventures, and adjustments for noncontrolling interests, of \$13.0 million, \$17.7 million and \$20.3 million for the years ended December 31, 2019, 2018 and 2017, respectively. Excludes non-real estate-related depreciation and amortization of \$2,092, \$2,139 and \$1,742 for the years ended December 31, 2019, 2018 and 2017, respectively.
- (b) Net income available to common shareholders in 2019 and 2018 included \$36.2 million and \$24.6 million, respectively, of land impairment charges and \$0.5 million and \$30.9 million, respectively, from a gain (loss) on sale of developable land, which are included in the calculation to arrive at funds from operations as such gains and charges relate to non-depreciable assets.

Inflation

The Company's leases with the majority of its commercial tenants provide for recoveries and escalation charges based upon the tenant's proportionate share of, and/or increases in, real estate taxes and certain operating costs, which reduce the Company's exposure to increases in operating costs resulting from inflation. The Company believes that inflation did not materially impact the Company's results of operations and financial condition for the periods presented.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the exposure to loss resulting from changes in interest rates, foreign currency exchange rates, commodity prices and equity prices. In pursuing its business plan, the primary market risk to which the Company is exposed is interest rate risk. Changes in the general level of interest rates prevailing in the financial markets may affect the spread between the Company's yield on invested assets and cost of funds and, in turn, its ability to make distributions or payments to its investors.

[Table of Contents](#)

Approximately \$2.3 billion of the Company's long-term debt as of December 31, 2019 bears interest at fixed rates and therefore the fair value of these instruments is affected by changes in market interest rates. The following table presents principal cash flows (in thousands) based upon maturity dates of the debt obligations and the related weighted-average interest rates by expected maturity dates for the fixed rate debt. The interest rates on the Company's variable rate debt as of December 31, 2019 ranged from LIBOR plus 184 basis points to LIBOR plus 340 basis points. Assuming interest-rate swaps and caps are not in effect, if market rates of interest on the Company's variable rate debt increased or decreased by 100 basis points, then the increase or decrease in interest costs on the Company's variable rate debt would be approximately \$5.1 million annually and the increase or decrease in the fair value of the Company's fixed rate debt as of December 31, 2019 would be approximately \$107.9 million.

While the Company has not experienced any significant credit losses, in the event of a significant rising interest rate environment and/or economic downturn, defaults could increase and result in losses to the Company which could adversely affect its operating results and liquidity.

ITEM 9A. CONTROLS AND PROCEDURES

Mack-Cali Realty Corporation

Disclosure Controls and Procedures. The General Partner's management, with the participation of the General Partner's chief executive officer and chief financial officer, has evaluated the effectiveness of the General Partner's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, the General Partner's chief executive officer and chief financial officer have concluded that, as of the end of such period, the General Partner's disclosure controls and procedures were effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the General Partner in the reports that it files or submits under the Exchange Act.

Management's Report on Internal Control Over Financial Reporting. Internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act, is a process designed by, or under the supervision of, the General Partner's chief executive officer and chief financial officer, or persons performing similar functions, and effected by the General Partner's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. The General Partner's management, with the participation of the General Partner's chief executive officer and chief financial officer, has established and maintained policies and procedures designed to maintain the adequacy of the General Partner's internal control over financial reporting, and includes those policies and procedures that:

- (1) Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the General Partner;

- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the General Partner are being made only in accordance with authorizations of management and directors of the General Partner; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the General Partner's assets that could have a material effect on the financial statements.

The General Partner's management has evaluated the effectiveness of the General Partner's internal control over financial reporting as of December 31, 2019 based on the criteria established in a report entitled *Internal Control—Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in 2013. Based on our assessment and those criteria, the General Partner's management has concluded that the General Partner's internal control over financial reporting was effective as of December 31, 2019.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree or compliance with the policies or procedures may deteriorate.

The effectiveness of the General Partner's internal control over financial reporting as of December 31, 2019 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report which appears herein.

Changes In Internal Control Over Financial Reporting. There have not been any changes in the General Partner's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fourth fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the General Partner's internal control over financial reporting.

Disclosure Controls and Procedures. The General Partner's management, with the participation of the General Partner's chief executive officer and chief financial officer, has evaluated the effectiveness of the Operating Partnership's disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this report. Based on such evaluation, the General Partner's chief executive officer and chief financial officer have concluded that, as of the end of such period, the Operating Partnership's disclosure controls and procedures were effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Operating Partnership in the reports that it files or submits under the Exchange Act.

Management's Report on Internal Control Over Financial Reporting. Internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act, is a process designed by, or under the supervision of, the General Partner's chief executive officer and chief financial officer, or persons performing similar functions, and effected by the General Partner's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. The General Partner's management, with the participation of the General Partner's chief executive officer and chief financial officer, has established and maintained policies and procedures designed to maintain the adequacy of the Operating Partnership's internal control over financial reporting, and includes those policies and procedures that:

- (1) Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Operating Partnership;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Operating Partnership are being made only in accordance with authorizations of management and directors of the General Partner; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Operating Partnership's assets that could have a material effect on the financial statements.

The General Partner's management has evaluated the effectiveness of the Operating Partnership's internal control over financial reporting as of December 31, 2019 based on the criteria established in a report entitled *Internal Control—Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in 2013. Based on our assessment and those criteria, the General Partner's management has concluded that the Operating Partnership's internal control over financial reporting was

effective as of December 31, 2019.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree or compliance with the policies or procedures may deteriorate.

The effectiveness of the Operating Partnership's internal control over financial reporting as of December 31, 2019 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report which appears herein.

Changes In Internal Control Over Financial Reporting. Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of Mack-Cali Realty Corporation

Opinions on the Financial Statements and Internal Control over Financial Reporting

We have audited the accompanying consolidated balance sheets of Mack-Cali Realty Corporation and its subsidiaries (the “Company”) as of December 31, 2019 and 2018, and the related consolidated statements of operations, of comprehensive income, of changes in equity and of cash flows for each of the three years in the period ended December 31, 2019, including the related notes and financial statement schedules listed in the index appearing under Item 15(a)(2) (collectively referred to as the “consolidated financial statements”). We also have audited the Company's internal control over financial reporting as of December 31, 2019, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2019 and 2018, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2019 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2019, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the COSO.

Basis for Opinions

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control Over Financial Reporting appearing under Item 9A. Our responsibility is to express opinions on the Company's consolidated financial statements and on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matters

The critical audit matters communicated below are matters arising from the current period audit of the consolidated financial statements that were communicated or required to be communicated to the audit committee and that (i) relate to accounts or disclosures that are material to the consolidated financial statements and (ii) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does

not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.

Estimated Net Sales Price of Real Estate Held for Sale in the Absence of an Executed Sales Agreement

As described in Notes 2 and 3 to the consolidated financial statements, the Company's real estate held for sale, net, was \$966 million as of December 31, 2019. When assets are identified by management as held for sale, the Company discontinues depreciating the assets and estimates the sales price, net of selling costs, of such assets. If, in management's opinion, the estimated net sales price, net of selling costs, of the disposal groups which have been identified as held for sale is less than the carrying value of the assets, a valuation allowance is established. In the absence of an executed sales agreement with a set sales price, management's estimate of the net sales price may be based on a number of assumptions, including but not limited to the Company's estimates of future and stabilized cash flows, market capitalization rates and discount rates, if applicable. For developable land an estimated per-unit market value assumption is also considered based on development rights for the land.

The principal considerations for our determination that performing procedures relating to the estimated net sales price of real estate held for sale in the absence of an executed sales agreement is a critical audit matter are (i) there was a high degree of auditor judgment and subjectivity involved in performing procedures relating to the estimated net sales price of real estate held for sale without an executed sales agreement due to the significant amount of judgment by management when developing these estimates; (ii) significant audit effort was necessary to perform procedures relating to the significant assumptions used in the estimated net sales price of assets that have been identified as held for sale without an executed sales agreement, including market capitalization rates, discount rates and estimated per-unit market value assumptions for developable land; (iii) a high degree of auditor judgment was necessary to evaluate the audit evidence obtained related to the assumptions for market capitalization rates, discount rates and estimated per-unit market value assumptions for developable land; and (iv) the audit effort involved the use of professionals with specialized skill and knowledge to assist in evaluating the audit evidence obtained from these procedures.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to management's estimate of net sales price of real estate held for sale in the absence of an executed sales agreement, including controls over the development of assumptions used in the estimate. These procedures also included, among others, testing management's process by evaluating the appropriateness of the methods and the reasonableness of significant assumptions used by management in developing the estimated net sales price, including market capitalization rates, discount rates and estimated per-unit market value assumptions for developable land, as well as testing the completeness and accuracy of data provided by management. Professionals with specialized skill and knowledge assisted in evaluating the reasonableness of the Company's estimated net sales price of real estate held for sale in the absence of an executed sales agreement including certain significant assumptions, such as the market capitalization rates, discount rates and estimated per-unit market value assumptions for developable land. Evaluating the reasonableness of significant assumptions related to the estimated net sales price involved considering the past performance of assets identified as held for sale, market data for similar investments, and considering whether this evidence was consistent with evidence obtained in other areas of the audit.

Estimated Future Redemption Value of Non-controlling Interest – Roseland Residential, L.P.

As described in Note 15 to the consolidated financial statements, the Company's redeemable non-controlling interest balance in Roseland Residential, L.P. ("Roseland"), a consolidated subsidiary, was \$451 million and the estimated future redemption value of Rockpoint's Preferred Units was \$490 million as of December 31, 2019. The estimated future redemption value is arrived at by hypothetically liquidating the estimated net asset value of the Roseland real estate portfolio including debt principal through the applicable waterfall provisions of the investment agreement. Management estimates net asset value based on unobservable inputs after considering the assumptions that market participants would make in valuing the real estate assets of Roseland which is the basis for pricing the future redemption value of the Rockpoint interests. Management estimates the net asset value of Roseland by (i) applying a discount rate to the estimated future cash flows for properties under development during the period under construction and then applying a direct capitalization method to the estimated stabilized cash flows, (ii) using the direct capitalization method by applying a capitalization rate to the projected net operating income for operating properties and (iii) estimating per-unit market value rate assumptions for developable land holdings and redevelopment projects based on current plans and/or development rights available for the land or projects. Estimated future cash flows used in such analyses are based on the Company's business plan for each respective property including capital expenditures, management's views of market and economic conditions, and considers items such as current and future rental rates, occupancies and market transactions for comparable properties.

The principal considerations for our determination that performing procedures relating to the estimated future redemption value of non-controlling interest - valuation of Roseland real estate portfolio is a critical audit matter are (i) there was a high degree of auditor judgment and subjectivity involved in performing procedures relating to the valuation of the Roseland real estate portfolio due to the significant amount of judgment by management when developing these estimates; (ii) significant audit effort was necessary to perform procedures relating to the significant assumptions used in the estimated future cash flows, including capitalization rates for operating properties and per-unit market value rate assumptions for developable land holdings and redevelopment projects; (iii) a high degree of auditor judgment was necessary to evaluate the audit evidence obtained related to the valuation of the Roseland real estate portfolio and the assumptions for the capitalization rates and per-unit market value rates; and (iv) the audit effort involved the use of professionals with specialized skill and knowledge to assist in evaluating the audit evidence obtained from these procedures.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to the estimated future redemption value of non-controlling interest –valuation of Roseland real estate portfolio, including controls over determining the capitalization rates and per-unit market value rate assumptions. These procedures also included, among others, testing management's process by evaluating the appropriateness of the methods

[Table of Contents](#)

and the reasonableness of significant assumptions used by management in developing the valuation of the Roseland real estate portfolio as well as testing the completeness and accuracy of data provided by management. Professionals with specialized skill and knowledge assisted in evaluating the reasonableness of the Company's cash flow projections including certain significant assumptions, including the capitalization rates and per-unit market value rate assumptions. Evaluating the reasonableness of significant assumptions related to the valuation of the Roseland real estate portfolio involved considering the past performance of the properties, market data for similar investments, and considering whether this evidence was consistent with evidence obtained in other areas of the audit.

The principal considerations for our determination that performing procedures relating to the estimated net sales price of real estate held for sale in the absence of an executed sales agreement is a critical audit matter are (i) there was a high degree of auditor judgment and subjectivity involved in performing procedures relating to the estimated net sales price of real estate held for sale without an executed sales agreement due to the significant amount of judgment by management when developing these estimates; (ii) significant audit effort was necessary to perform procedures relating to the significant assumptions used in the estimated net sales price of assets that have been identified as held for sale without an executed sales agreement, including market capitalization rates, discount rates and estimated per-unit market value assumptions for developable land; (iii) a high degree of auditor judgment was necessary to evaluate the audit evidence obtained related to the assumptions for market capitalization rates, discount rates and estimated per-unit market value assumptions for developable land; and (iv) the audit effort involved the use of professionals with specialized skill and knowledge to assist in evaluating the audit evidence obtained from these procedures.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to management's estimate of net sales price of real estate held for sale in the absence of an executed sales agreement, including controls over the development of assumptions used in the estimate. These procedures also included, among others, testing management's process by evaluating the appropriateness of the methods and the reasonableness of significant assumptions used by management in developing the estimated net sales price, including market capitalization rates, discount rates and estimated per-unit market value assumptions for developable land, as well as testing the completeness and accuracy of data provided by management. Professionals with specialized skill and knowledge assisted in evaluating the reasonableness of the Company's estimated net sales price of real estate held for sale in the absence of an executed sales agreement including certain significant assumptions, such as the market capitalization rates, discount rates and estimated per-unit market value assumptions for developable land. Evaluating the reasonableness of significant assumptions related to the estimated net sales price involved considering the past performance of assets identified as held for sale, market data for similar investments, and considering whether this evidence was consistent with evidence obtained in other areas of the audit.

Estimated Future Redemption Value of Non-controlling Interest – Roseland Residential, L.P.

As described in Note 15 to the consolidated financial statements, the Company's redeemable non-controlling interest balance in Roseland Residential, L.P. ("Roseland"), a consolidated subsidiary, was \$451 million and the estimated future redemption value of Rockpoint's Preferred Units was \$490 million as of December 31, 2019. The estimated future redemption value is arrived at by hypothetically liquidating the estimated net asset value of the Roseland real estate portfolio including debt principal through the applicable waterfall provisions of the investment agreement. Management estimates net asset value based on unobservable inputs after considering the assumptions that market participants would make in valuing the real estate assets of Roseland which is the basis for pricing the future redemption value of the Rockpoint interests. Management estimates the net asset value of Roseland by (i) applying a discount rate to the estimated future cash flows for properties under development during the period under construction and then applying a direct capitalization method to the estimated stabilized cash flows, (ii) using the direct capitalization method by applying a capitalization rate to the projected net operating income for operating properties and (iii) estimating per-unit market value rate assumptions for developable land holdings and redevelopment projects based on current plans and/or development rights available for the land or projects. Estimated future cash flows used in such analyses are based on the Company's business plan for each respective property including capital expenditures, management's views of market and economic conditions, and considers items such as current and future rental rates, occupancies and market transactions for comparable properties.

The principal considerations for our determination that performing procedures relating to the estimated future redemption value of non-controlling interest - valuation of Roseland real estate portfolio is a critical audit matter are (i) there was a high degree of auditor judgment and subjectivity involved in performing procedures relating to the valuation of the Roseland real estate portfolio due to the significant amount of judgment by management when developing these estimates; (ii) significant audit effort was necessary to perform procedures relating to the significant assumptions used in the estimated future cash flows, including capitalization rates for operating properties and per-unit market value rate assumptions for developable land holdings and redevelopment projects; (iii) a high degree of auditor judgment was necessary to evaluate the audit evidence obtained related to the valuation of the Roseland real estate portfolio and the assumptions for the capitalization rates and per-unit market value rates; and (iv) the audit effort involved the use of professionals with specialized skill and knowledge to assist in evaluating the audit evidence obtained from these procedures.

Addressing the matter involved performing procedures and evaluating audit evidence in connection with forming our overall opinion on the consolidated financial statements. These procedures included testing the effectiveness of controls relating to the estimated future redemption value of non-controlling interest –valuation of Roseland real estate portfolio, including controls over determining the capitalization rates and per-unit market value rate assumptions. These procedures also included, among others, testing management's process by evaluating the appropriateness of the methods

and the reasonableness of significant assumptions used by management in developing the valuation of the Roseland real estate portfolio as well as testing the completeness and accuracy of data provided by management. Professionals with specialized skill and knowledge assisted in evaluating the reasonableness of the Company's cash flow projections including certain significant assumptions, including the capitalization rates and per-unit market value rate assumptions. Evaluating the reasonableness of significant assumptions related to the valuation of the Roseland real estate portfolio involved considering the past performance of the properties, market data for similar investments, and considering whether this evidence was consistent with evidence obtained in other areas of the audit.

MACK-CALI REALTY CORPORATION, MACK-CALI REALTY, L.P. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS *(square footage, apartment unit, room, and building counts unaudited)*

1. ORGANIZATION AND BASIS OF PRESENTATION

ORGANIZATION

Mack-Cali Realty Corporation, a Maryland corporation, together with its subsidiaries (collectively, the “General Partner”), is a fully-integrated, self-administered, self-managed real estate investment trust (“REIT”). The General Partner controls Mack-Cali Realty, L.P., a Delaware limited partnership, together with its subsidiaries (collectively, the “Operating Partnership”), as its sole general partner and owned a 90.4 percent and 89.8 percent common unit interest in the Operating Partnership as of December 31, 2019 and December 31, 2018, respectively. The General Partner’s business is the ownership of interests in and operation of the Operating Partnership and all of the General Partner’s expenses are incurred for the benefit of the Operating Partnership. The General Partner is reimbursed by the Operating Partnership for all expenses it incurs relating to the ownership and operation of the Operating Partnership.

The Operating Partnership conducts the business of providing leasing, management, acquisition, development and tenant-related services for its General Partner. The Operating Partnership, through its operating divisions and subsidiaries, including the Mack-Cali property-owning partnerships and limited liability companies, is the entity through which all of the General Partner’s operations are conducted. Unless stated otherwise or the context requires, the “Company” refers to the General Partner and its subsidiaries, including the Operating Partnership and its subsidiaries.

As of December 31, 2019, the Company owned or had interests in 71 properties (the “Properties”). The Properties are comprised of 42 office buildings totaling approximately 10.7 million square feet and leased to approximately 400 tenants (which include two buildings aggregating approximately 0.2 million square feet owned by unconsolidated joint ventures in which the Company has investment interests), 21 multi-family properties totaling 6,524 apartment units (which include seven properties aggregating 2,611 apartment units owned by unconsolidated joint ventures in which the Company has investment interests), four parking/retail properties totaling approximately 108,000 square feet (which include two buildings aggregating 81,700 square feet owned by unconsolidated joint ventures in which the Company has investment interests), three hotels containing 723 rooms (one of which is owned by an unconsolidated joint venture in which the Company has an investment interest) and a parcel of land leased to a third party. The Properties are located in four states in the Northeast, plus the District of Columbia.

Following the General Partner’s 2019 Annual Meeting of Stockholders, the Board of Directors of the General Partner (the “Board”) formed a Shareholder Value Committee comprised of four independent directors to review the Company’s strategic direction and make a recommendation to the full Board. On December 19, 2019, the Company announced that, based on the recommendations of the Shareholder Value Committee, the Board had determined to sell the Company’s entire suburban New Jersey office portfolio totaling approximately 6.6 million square feet (collectively, the “Suburban Office Portfolio”). As the decision to sell the Suburban Office Portfolio represented a strategic shift in the Company’s operations, the portfolio’s results are being classified as discontinued operations for all periods presented herein. See Note 7: Discontinued Operations.

BASIS OF PRESENTATION

The accompanying consolidated financial statements include all accounts of the Company, its majority-owned and/or controlled subsidiaries, which consist principally of the Operating Partnership and variable interest entities for which the Company has determined itself to be the primary beneficiary, if any. See Note 2: Significant Accounting Policies – Investments in Unconsolidated Joint Ventures, for the Company’s treatment of unconsolidated joint venture interests. Intercompany accounts and transactions have been eliminated.

Accounting Standards Codification (“ASC”) 810, Consolidation, provides guidance on the identification of entities for which control is achieved through means other than voting rights (“variable interest entities” or “VIEs”) and the determination of which business enterprise, if any, should consolidate the VIEs. Generally, the consideration of whether an entity is a VIE applies when either: (1) the equity investors (if any) lack (i) the ability to make decisions about the entity’s activities through voting or similar rights, (ii) the obligation to absorb the expected losses of the entity, or (iii) the right to receive the expected residual returns of the entity; (2) the equity investment at risk is insufficient to finance that entity’s activities without additional subordinated financial support; or (3) the equity investors have voting rights that are not proportionate to their economic interests and substantially all of the activities of the entity involve or are conducted on behalf of an investor with a disproportionately small voting interest. The Company consolidates VIEs in which it is considered to be the primary beneficiary. The primary beneficiary is defined by the entity having both of the following characteristics: (1) the power to direct the activities that, when taken together, most significantly impact the variable interest entity’s performance; and (2) the obligation to absorb losses and right to receive the returns from the VIE that would be significant to the VIE.

On January 1, 2016, the Company adopted accounting guidance under ASC 810, Consolidation, modifying the analysis it must perform to determine whether it should consolidate certain types of legal entities. The guidance does not amend the existing disclosure requirements for variable interest entities or voting interest model entities. The guidance, however, modified the requirements to qualify under the voting interest model. Under the revised guidance, the Operating Partnership will be a variable interest entity of the parent company, Mack-Cali Realty Corporation. As the Operating Partnership is already consolidated in the balance sheets of Mack-Cali Realty Corporation, the identification of this entity as a variable interest entity has no impact on the consolidated financial statements of Mack-Cali Realty Corporation. There were no other legal entities qualifying under the scope of the revised guidance that were consolidated as a result of the adoption.

As of December 31, 2019 and 2018, the Company’s investments in consolidated real estate joint ventures, which are variable interest entities in which the Company is deemed to be the primary beneficiary, other than Roseland Residential, L.P. (See Note 3: Rockpoint Transaction), have total real estate assets of \$503.1 million and \$480.4 million, respectively, mortgages of \$283.7 million and \$241.5 million, respectively, and other liabilities of \$18.9 million and \$23 million, respectively.

The financial statements have been prepared in conformity with GAAP. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. These estimates and assumptions are based on management’s historical experience that are believed to be reasonable at the time. However, because future events and their effects cannot be determined with certainty, the determination of estimates requires the exercise of judgment. Actual results could differ from those estimates. Certain reclassifications have been made to prior period amounts in order to conform with current period presentation, primarily related to classification of certain properties as discontinued operations.

2. SIGNIFICANT ACCOUNTING POLICIES

Rental Property

Rental properties are stated at cost less accumulated depreciation and amortization. Costs directly related to the acquisition, development and construction of rental properties are capitalized. The Company adopted FASB guidance Accounting Standards Update (“ASU”) 2017-01 on January 1, 2017, which revises the definition of a business and is expected to result in more transactions to be accounted for as asset acquisitions and significantly limit transactions that would be accounted for as business combinations. Where an acquisition has been determined to be an asset acquisition, acquisition-related costs are capitalized. Capitalized development and construction costs include pre-construction costs essential to the development of the property, development and construction costs, interest, property taxes, insurance, salaries and other project costs incurred during the period of development. Capitalized development and construction salaries and related costs approximated \$2.1 million, \$2.3 million and \$2.2 million for the years ended December 31, 2019, 2018 and 2017, respectively. Ordinary repairs and maintenance are expensed as incurred; major replacements and betterments, which improve or extend the life of the asset, are capitalized and depreciated over their estimated useful lives. Fully-depreciated assets are removed from the accounts.

Included in net investment in rental property as of December 31, 2019 and 2018 is real estate and building and tenant improvements not in service; as follows (*dollars in thousands*):

	December 31, 2019	December 31, 2018

- (a) Includes predevelopment and infrastructure costs included in buildings and improvements of \$156.5 million and \$204.9 million as of December 31, 2019 and December 31, 2018, respectively.
- (b) Includes land of \$96.6 million and \$49.6 million as of December 31, 2019 and December 31, 2018, respectively.
- (c) Includes \$48.5 million of land and \$40.9 million of building and improvements pertaining to assets held for sale at December 31, 2019.
- (d) Includes \$0.5 million of land and \$5.6 million of building and improvements pertaining to assets held for sale.

The Company considers a construction project as substantially completed and held available for occupancy upon the substantial completion of improvements, but no later than one year from cessation of major construction activity (as distinguished from activities such as routine maintenance and cleanup). If portions of a rental project are substantially completed and occupied by tenants or residents, or held available for occupancy, and other portions have not yet reached that stage, the substantially completed portions are accounted

[Table of Contents](#)

for as a separate project. The Company allocates costs incurred between the portions under construction and the portions substantially completed and held available for occupancy, primarily based on a percentage of the relative commercial square footage or multi-family units of each portion, and capitalizes only those costs associated with the portion under construction.

Properties are depreciated using the straight-line method over the estimated useful lives of the assets. The estimated useful lives are as follows:

<u>Leasehold interests</u>	<u>Remaining lease term</u>
Buildings and improvements	5 to 40 years
Tenant improvements	The shorter of the term of the related lease or useful life
<u>Furniture, fixtures and equipment</u>	<u>5 to 10 years</u>

Upon acquisition of rental property, the Company estimates the fair value of acquired tangible assets, consisting of land, building and improvements, and identified intangible assets and liabilities assumed, generally consisting of the fair value of (i) above and below-market leases, (ii) in-place leases and (iii) tenant relationships. For asset acquisitions, the Company allocates the purchase price to the assets acquired and liabilities assumed based on their relative fair values. The Company records goodwill or a gain on bargain purchase (if any) if the net assets acquired/liabilities assumed differ from the purchase consideration of a business combination transaction.

In estimating the fair value of the tangible and intangible assets acquired, the Company considers information obtained about each property as a result of its due diligence and marketing and leasing activities, and utilizes various valuation methods, such as estimated cash flow projections utilizing appropriate discount and capitalization rates, estimates of replacement costs net of depreciation, and available market information. The fair value of the tangible assets of an acquired property considers the value of the property as if it were vacant.

Above-market and below-market lease values for acquired properties are initially recorded based on the present value (using a discount rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to each in-place lease and (ii) management's estimate of fair market lease rates for each corresponding in-place lease, measured over a period equal to the remaining term of the lease for above-market leases and the remaining initial term plus the term of any below-market fixed rate renewal options for below-market leases. The capitalized above-market lease values are amortized as a reduction of base rental revenue over the remaining terms of the respective leases, and the capitalized below-market lease values are amortized as an increase to base rental revenue over the remaining initial terms plus the terms of any below-market fixed rate renewal options of the respective leases.

Other intangible assets acquired include amounts for in-place lease values and tenant relationship values, which are based on management's evaluation of the specific characteristics of each tenant's lease and the Company's overall relationship with the respective tenant. Factors to be considered by management in its analysis of in-place lease values include an estimate of carrying costs during hypothetical expected lease-up periods considering current market conditions, and costs to execute similar leases. In estimating carrying costs, management includes real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods, depending on local market conditions. In estimating costs to execute similar leases, management considers leasing commissions, legal and other related expenses. Characteristics considered by management in valuing tenant relationships include the nature and extent of the Company's existing business relationships with the tenant, growth prospects for developing new business with the tenant, the tenant's credit quality and expectations of lease renewals. The values of in-place leases are amortized to expense over the remaining initial terms of the respective leases. The values of tenant relationship intangibles are amortized to expense over the anticipated life of the relationships or leases.

On a periodic basis, management assesses whether there are any indicators that the value of the Company's rental properties held for use may be impaired. In addition to identifying any specific circumstances which may affect a property or properties, management considers other criteria for determining which properties may require assessment for potential impairment. The criteria considered by management, depending on the type of property, may include reviewing low leased percentages, significant near-term lease expirations, current and historical operating and/or cash flow losses, construction cost overruns and/or other factors, including those that might impact the Company's intent and ability to hold the property. A property's value is impaired only if management's estimate of the aggregate future cash flows (undiscounted and without interest charges) to be generated by the property over its estimated holding period is less than the carrying value of the property. If there are different possible scenarios for a property, the Company will take a probability weighted approach to estimating future cash flow scenarios. To the extent impairment has occurred, the impairment loss is measured as the excess of the carrying value of the property over the fair value of the property. The Company's estimates of aggregate future cash flows expected to be generated and estimated fair values for each property are based on a number of assumptions, including but not limited to estimated holding periods, market capitalization rates and discount rates, if applicable. For developable land holdings, an

estimated per-unit market value assumption is also considered based on development rights for the land. These assumptions are generally based on management's experience in its local real estate markets and the effects of current market conditions. The assumptions are subject to economic and market uncertainties including, among others, demand for space, competition for tenants, changes in market rental rates, and costs to operate each property. As these factors are difficult to predict and are subject to future events that may alter management's assumptions, the future cash flows estimated by management in its impairment analyses may not be achieved, and actual losses or impairments may be realized in the future.

Real Estate Held for Sale and Discontinued Operations

When assets are identified by management as held for sale, the Company discontinues depreciating the assets and estimates the sales price, net of selling costs, of such assets. The Company generally considers assets (as identified by their disposal groups) to be held for sale when the transaction has received appropriate corporate authority, it is probable to be sold within the following 12 months, and there are no significant contingencies relating to a sale. If, in management's opinion, the estimated net sales price, net of selling costs, of the disposal groups which have been identified as held for sale is less than the carrying value of the assets, a valuation allowance (which is recorded as unrealized losses on disposition of rental property) is established. In the absence of an executed sales agreement with a set sales price, management's estimate of the net sales price may be based on a number of assumptions, including but not limited to the Company's estimates of future and stabilized cash flows, market capitalization rates and discount rates, if applicable. For developable land, an estimated per-unit market value assumption is also considered based on development rights for the land. In addition, the Company classifies assets held for sale or sold as discontinued operations if the disposal groups represent a strategic shift that will have a major effect on the Company's operations and financial results. For any disposals qualifying as discontinued operations, the assets and their results are presented in discontinued operations in the financial statements for all periods presented. See Note 7: Discontinued Operations.

If circumstances arise that previously were considered unlikely and, as a result, the Company decides not to sell an asset previously classified as held for sale, the asset is reclassified as held and used. An asset that is reclassified is measured and recorded individually at the lower of (a) its carrying value before the asset was classified as held for sale, adjusted for any depreciation (amortization) expense that would have been recognized had the asset been continuously classified as held and used, or (b) the fair value at the date of the subsequent decision not to sell.

Investments in Unconsolidated Joint Ventures

The Company accounts for its investments in unconsolidated joint ventures under the equity method of accounting. The Company applies the equity method by initially recording these investments at cost, as Investments in Unconsolidated Joint Ventures, subsequently adjusted for equity in earnings and cash contributions and distributions. The outside basis portion of the Company's joint ventures is amortized over the anticipated useful lives of the underlying ventures' tangible and intangible assets acquired and liabilities assumed. Generally, the Company would discontinue applying the equity method when the investment (and any advances) is reduced to zero and would not provide for additional losses unless the Company has guaranteed obligations of the venture or is otherwise committed to providing further financial support for the investee. If the venture subsequently generates income, the Company only recognizes its share of such income to the extent it exceeds its share of previously unrecognized losses.

If the venture subsequently makes distributions and the Company does not have an implied or actual commitment to support the operations of the venture, the Company will not record a basis less than zero, rather such amounts will be recorded as equity in earnings of unconsolidated joint ventures.

On a periodic basis, management assesses whether there are any indicators that the value of the Company's investments in unconsolidated joint ventures may be impaired. An investment is impaired only if management's estimate of the value of the investment is less than the carrying value of the investment, and such decline in value is deemed to be other than temporary. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying value of the investment over the value of the investment. The Company's estimates of value for each investment (particularly in real estate joint ventures) are based on a number of assumptions including but not limited to estimates of future and stabilized cash flows, market capitalization rates and discount rates, if applicable. These assumptions are based on management's experience in its local real estate markets and the effects of current market conditions. The assumptions are subject to economic and market uncertainties including, among others, demand for space, competition for tenants, changes in market rental rates, and operating costs. As these factors are difficult to predict and are subject to future events that may alter management's assumptions, the values estimated by management in its impairment analyses may not be realized, and actual losses or impairment may be realized in the future. See Note 4: Investments in Unconsolidated Joint Ventures.

Cash and Cash Equivalents

All highly liquid investments with an original maturity of three months or less when purchased are considered to be cash equivalents.

Deferred Financing Costs

Costs incurred in obtaining financing are capitalized and amortized over the term of the related indebtedness. Deferred financing costs are presented in the balance sheet as a direct deduction from the carrying value of the debt liability to which they relate, except deferred financing costs related to the revolving credit facility, which are presented in deferred charges, goodwill and other assets. In all cases, amortization of such costs is included in interest expense and was \$4,625,000, \$5,028,000 and \$4,612,000 for the years ended December 31, 2019, 2018 and 2017, respectively. If a financing obligation is extinguished early, any unamortized deferred financing costs are written off and included in gains (losses) from extinguishment of debt. Included in gain(loss) from extinguishment of debt, net, of \$1.6 million, \$(10.8) million (of which \$1.8 million loss pertained to properties classified as discontinued operations) and \$ (0.4) million for the years ended December 31, 2019, 2018 and 2017 were unamortized deferred financing costs which were written off (as non-cash transactions) amounting to \$0.4 million, \$0.6 million and \$0.4 million, respectively.

Deferred Leasing Costs/Leasing Personnel Costs

Costs incurred in connection with successfully executed commercial and residential leases were capitalized and amortized on a straight-line basis over the terms of the related leases and included in depreciation and amortization. Unamortized deferred leasing costs were charged to amortization expense upon early termination of the lease. Certain employees of the Company are compensated for providing leasing services to the Properties. The portion of such compensation related to commercial leases, which was capitalized and amortized, and included in deferred charges, goodwill and other assets, net, was approximately zero, \$3,463,000 and \$3,146,000 for the years ended, December 31, 2019, 2018 and 2017, respectively. Upon the adoption of ASC 842 on January 1, 2019, the Company no longer capitalizes such costs, and includes such costs in Leasing personnel costs in the Company's Consolidated Statements of Operations, which amounted to \$2,261,000 for the year ended December 31, 2019.

Goodwill

Goodwill represents the excess of the purchase price over the fair value of net tangible and intangible assets acquired in a business combination. Goodwill is allocated to various reporting units, as applicable. Each of the Company's segments consists of a reporting unit. Goodwill is not amortized. Management performs an annual impairment test for goodwill during the fourth quarter and between annual tests, management evaluates the recoverability of goodwill whenever events or changes in circumstances indicate that the carrying value of goodwill may not be fully recoverable. In its impairment tests of goodwill, management first assesses qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying value. If, based on this assessment, management determines that the fair value of the reporting unit is not less than its carrying value, then performing the additional two-step impairment test is unnecessary. If the carrying value of goodwill exceeds its fair value, an impairment charge is recognized. The Company determined that its goodwill, with a balance of \$2.9 million, was not impaired at December 31, 2019 after management performed its impairment tests.

Derivative Instruments

The Company measures derivative instruments, including certain derivative instruments embedded in other contracts, at fair value and records them as an asset or liability, depending on the Company's rights or obligations under the applicable derivative contract. For derivatives designated and qualifying as fair value hedges, the changes in the fair value of both the derivative instrument and the hedged item are recorded in earnings. For derivatives designated as cash flow hedges, the effective portions of the derivative are reported in other comprehensive income ("OCI") and are subsequently reclassified into earnings when the hedged item affects earnings. Changes in fair value of derivative instruments not designated as hedging and ineffective portions of hedges are recognized in earnings in the affected period.

Revenue Recognition

Revenue from leases includes fixed base rents under leases, which are recognized on a straight-line basis over the terms of the respective leases. Unbilled rents receivable represents the cumulative amount by which straight-line rental revenue exceeds rents currently billed in accordance with the lease agreements.

Above-market and below-market lease values for acquired properties are initially recorded based on the present value (using a discount rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant

to each in-place lease and (ii) management's estimate of fair market lease rates for each corresponding in-place lease, measured over a period equal to the remaining term of the lease for above-market leases and the remaining initial term plus the term of any below-market fixed-rate renewal options for below-market leases. The capitalized above-market lease values for acquired properties are amortized as a reduction of revenue from leases over the remaining terms of the respective leases, and the capitalized below-market lease values are amortized as an increase to revenue from leases over the remaining initial terms plus the terms of any below-market fixed-rate renewal options of the respective leases.

The Company elected a practical expedient for its rental properties (as lessor) to avoid separating non-lease components that otherwise would need to be accounted for under the recently-adopted revenue accounting guidance (such as tenant reimbursements of property operating expenses) from the associated lease component since (1) the non-lease components have the same timing and pattern of transfer as the associated lease component and (2) the lease component, if accounted for separately, would be classified as an operating lease; this enables the Company to account for the combination of the lease component and non-lease components as an operating lease since the lease component is the predominant component of the combined components.

Due to the Company's adoption of the practical expedient discussed above to not separate non-lease component revenue from the associated lease component, the Company is aggregating revenue from its lease components and non-lease components (comprised predominantly of tenant operating expense reimbursements) into the line entitled "Revenue from leases."

Revenue from leases also includes reimbursements and recoveries from tenants received from tenants for certain costs as provided in the lease agreements. These costs generally include real estate taxes, utilities, insurance, common area maintenance and other recoverable costs. See Note 13: Tenant Leases.

Real estate services revenue includes property management, development, construction and leasing commission fees and other services, and payroll and related costs reimbursed from clients. Fee income derived from the Company's unconsolidated joint ventures (which are capitalized by such ventures) are recognized to the extent attributable to the unaffiliated ownership interests.

Parking income includes income from parking spaces leased to tenants and others.

Hotel income includes all revenue earned from hotel properties.

Other income includes income from tenants for additional services arranged for by the Company and income from tenants for early lease terminations.

All bad debt expense is being recorded as a reduction of the corresponding revenue account starting on January 1, 2019. Management performs a detailed review of amounts due from tenants for collectability, based on factors affecting the billings and status of individual tenants. The factors considered by management in determining which individual tenant's revenues are affected include the age of the receivable, the tenant's payment history, the nature of the charges, any communications regarding the charges and other related information. Management's estimate of bad debt write-off's requires management to exercise judgment about the timing, frequency and severity of collection losses, which affects the revenue recorded.

Income and Other Taxes

The General Partner has elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the "IRS Code"). As a REIT, the General Partner generally will not be subject to corporate federal income tax on net income that it currently distributes to its shareholders, provided that the General Partner satisfies certain organizational and operational requirements including the requirement to distribute at least 90 percent of its REIT taxable income (determined by excluding any net capital gains) to its shareholders. If and to the extent the General Partner retains and does not distribute any net capital gains, the General Partner will be required to pay federal, state and local taxes, as applicable, on such net capital gains at the rate applicable to capital gains of a corporation.

The Operating Partnership is a partnership, and, as a result, all income and losses of the partnership are allocated to the partners for inclusion in their respective tax returns. Accordingly, no provision or benefit for income taxes has been made in the accompanying financial statements.

As of December 31, 2019, the estimated net basis of the rental property for federal income tax purposes was lower than the net assets as reported in the Operating Partnership's financial statements by approximately \$529,160,000. The Operating Partnership's taxable income for the year ended December 31, 2019 was estimated to be approximately \$71,151,000 and for the years ended December 31, 2018 and 2017 was approximately \$82,106,000 and \$97,037,000, respectively. The differences between book income and taxable

income primarily result from differences in depreciation expenses, the recording of rental income, differences in the deductibility of interest expense and certain other expenses for tax purposes, differences in revenue recognition and the rules for tax purposes of a property exchange.

The General Partner has elected to treat certain of its corporate subsidiaries as taxable REIT subsidiaries (each a “TRS”). In general, a TRS of the General Partner may perform additional services for tenants of the Company and generally may engage in any real estate or non-real estate related business (except for the operation or management of health care facilities or lodging facilities or the providing to any person, under a franchise, license or otherwise, rights to any brand name under which any lodging facility or health care facility is operated). A TRS is subject to corporate federal income tax. The General Partner has conducted business through its TRS entities for certain property management, development, construction and other related services, as well as to hold a joint venture interest in a hotel and other matters.

The deferred tax asset balance at December 31, 2019 amounted to \$9.8 million which has been fully reserved through a valuation allowance. New tax reform legislation enacted in late 2017 reduced the corporate tax rate to 21 percent, effective January 1, 2018. Consequently, the Company’s deferred tax assets were re-measured to reflect the reduction in the future U.S. corporate income tax rate as of the enactment date. As a result, the Company recorded a decrease related to its deferred tax assets of \$5.3 million and a decrease to the associated valuation allowance of \$5.3 million at December 31, 2017. If the General Partner fails to qualify as a REIT in any taxable year, the Company will be subject to federal income tax on its taxable income at regular corporate tax rates. The Company is subject to certain state and local taxes.

Pursuant to the amended provisions related to uncertain tax provisions of ASC 740, Income Taxes, the Company recognized no material adjustments regarding its tax accounting treatment. The Company expects to recognize interest and penalties related to uncertain tax positions, if any, as income tax expense, which is included in general and administrative expense.

In the normal course of business, the Company or one of its subsidiaries is subject to examination by federal, state and local jurisdictions in which it operates, where applicable. As of December 31, 2019, the tax years that remain subject to examination by the major tax jurisdictions under the statute of limitations are generally from the year 2015 forward.

Earnings Per Share or Unit

The Company presents both basic and diluted earnings per share or unit (“EPS or EPU”). Basic EPS or EPU excludes dilution and is computed by dividing net income available to common shareholders or unitholders by the weighted average number of shares or units outstanding for the period. Diluted EPS or EPU reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock, where such exercise or conversion would result in a lower EPS or EPU from continuing operations amount. Shares or units whose issuance is contingent upon the satisfaction of certain conditions shall be considered outstanding and included in the computation of diluted EPS or EPU as follows (i) if all necessary conditions have been satisfied by the end of the period (the events have occurred), those shares or units shall be included as of the beginning of the period in which the conditions were satisfied (or as of the date of the grant, if later) or (ii) if all necessary conditions have not been satisfied by the end of the period, the number of contingently issuable shares or units included in diluted EPS or EPU shall be based on the number of shares or units, if any, that would be issuable if the end of the reporting period were the end of the contingency period (for example, the number of shares or units that would be issuable based on current period earnings or period-end market price) and if the result would be dilutive. Those contingently issuable shares or units shall be included in the denominator of diluted EPS or EPU as of the beginning of the period (or as of the date of the grant, if later).

Dividends and Distributions Payable

The dividends and distributions payable at December 31, 2019 represents dividends payable to common shareholders (90,595,197 shares) and distributions payable to noncontrolling interests unitholders of the Operating Partnership (9,488,794 common units and 1,949,601 vested and unvested LTIP units), for all such holders of record as of January 3, 2020 with respect to the fourth quarter 2019. The fourth quarter 2019 common stock dividends and unit distributions of \$0.20 per common share (total of \$18.1 million), common unit (total of \$1.9 million), and LTIP unit (total of \$0.4 million), were approved by the General Partner’s Board of Directors on December 17, 2019 and paid on January 10, 2020.

The dividends and distributions payable at December 31, 2018 represents dividends payable to common shareholders (90,320,408 shares) and distributions payable to noncontrolling interests unitholders of the Operating Partnership (10,174,285 common units and 1,762,170 LTIP units) for all such holders of record as of January 3, 2019 with respect to the fourth quarter 2018. The fourth quarter 2018 common stock dividends and unit distributions of \$0.20 per common share (total of \$18.1 million), common unit (total of \$2.0 million) and LTIP unit (total of \$0.4 million) were approved by the General Partner’s Board of Directors on December 11, 2018

and paid on January 11, 2019.

The Company has determined that the \$0.80 dividend per common share paid during the year ended December 31, 2019 represented 100 percent capital gain; the \$0.80 dividend per common share paid during the year ended December 31, 2018 represented approximately 47 percent ordinary income and approximately 53 percent capital gain and the \$0.70 dividend per common share paid during the year ended December 31, 2017 represented 100 percent ordinary income.

Costs Incurred For Stock Issuances

Costs incurred in connection with the Company's stock issuances are reflected as a reduction of additional paid-in capital.

Stock Compensation

The Company accounts for stock compensation in accordance with the provisions of ASC 718, Compensation-Stock Compensation. These provisions require that the estimated fair value of restricted stock ("Restricted Stock Awards"), performance share units, long term incentive plan awards and stock options at the grant date be amortized ratably into expense over the appropriate vesting period. The Company recorded stock compensation expense of \$8,161,000, \$6,894,000 and \$7,447,000 for the years ended December 31, 2019, 2018 and 2017, respectively.

Other Comprehensive Income (Loss)

Other comprehensive income (loss) includes items that are recorded in equity, such as effective portions of derivatives designated as cash flow hedges or unrealized holding gains or losses on marketable securities available for sale.

Redeemable Noncontrolling Interests

The Company evaluates the terms of the partnership units issued in accordance with the FASB's Distinguishing Liabilities from Equity guidance. Units which embody an unconditional obligation requiring the Company to redeem the units for cash after a specified or determinable date (or dates) or upon the occurrence of an event that is not solely within the control of the issuer are determined to be contingently redeemable under this guidance and are included as Redeemable noncontrolling interests and classified within the mezzanine section between Total liabilities and Stockholders' equity on the Company's Consolidated Balance Sheets. The carrying amount of the redeemable noncontrolling interests will be changed by periodic accretions, so that the carrying amount will equal the estimated future redemption value at the redemption date.

Fair Value Hierarchy

The standard Fair Value Measurements specifies a hierarchy of valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon market data obtained from independent sources (observable inputs). The following summarizes the fair value hierarchy:

- ① Level 1: Quoted prices in active markets that are unadjusted and accessible at the measurement date for identical, unrestricted assets or liabilities;
- ② Level 2: Quoted prices for identical assets and liabilities in markets that are inactive, quoted prices for similar assets and liabilities in active markets or financial instruments for which significant inputs are observable, either directly or indirectly, such as interest rates and yield curves that are observable at commonly quoted intervals and
- ③ Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability.

Impact of Recently-Issued Accounting Standards

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842), modifying the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract (i.e. lessees and lessors). ASU 2016-02 provides new guidelines that change the accounting for leasing arrangements for lessees, whereby their rights and obligations under substantially all leases, existing and new, would be capitalized and recorded on the balance sheet. For lessors, however, the accounting remains largely equivalent to the current model, with the distinction between operating, sales-type, and direct financing leases retained, but updated to align with certain changes to the lessee model and the new revenue recognition standard.

ASU 2016-02 provides two transition methods. The first transition method allows for application of the new model at the beginning of the earliest comparative period presented. Under the second transition method, comparative periods would not be restated, with any cumulative effect adjustments recognized in the opening balance of retained earnings in the period of adoption. In addition, a practical expedient was recently issued by the FASB that allows lessors to combine non-lease components with related lease components if certain conditions are met. The Company has adopted this guidance for its interim and annual periods beginning January 1, 2019 using the second transition method.

Under ASU 2016-02, lessors will only capitalize incremental direct leasing costs and will expense internal leasing costs that were previously capitalized prior to the adoption of ASU 2016-02. For leases where the Company is a lessee, primarily its ground leases, the Company is recognizing a right-of-use asset and a corresponding lease liability.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments – Credit Losses (“ASU 2016-13”). The guidance introduces a new model for estimating credit losses for certain types of financial instruments, including trade and lease receivables, loans receivable, held-to-maturity debt securities, and net investments in direct financing leases, amongst other financial instruments. ASU 2016-13 also modifies the impairment model for available-for-sale debt securities and expands the disclosure requirements regarding an entity’s assumptions, models, and methods for estimating the allowance for losses. ASU 2016-13 is effective for annual reporting periods beginning after December 15, 2019, including interim periods within those fiscal years, with early adoption permitted. The Company does not expect the adoption of ASU 2016-13 to have a material impact on the Company’s consolidated financial statements.

In August 2017, the FASB issued ASU 2017-12, Derivatives and Hedging: Targeted Improvements to Accounting for Hedging Activities (“ASU 2017-12”). The purpose of ASU 2017-12 is to better align a company’s financial reporting for hedging activities with the economic objectives of those activities. The Company has adopted ASU 2017-12 on January 1, 2019. ASU 2017-12 requires a modified retrospective transition method which requires a cumulative effect of the change on the opening balance of each affected component of equity in the Company’s consolidated financial statements as of the date of adoption. Upon adoption, the Company recorded a cumulative adjustment specifically related to the elimination of the requirement for separate measurement of hedge ineffectiveness. As a result, the Company recorded an opening balance adjustment as of January 1, 2019 to dividends in excess of net earnings of \$0.4 million with a corresponding change to accumulated other comprehensive income (loss).

3. RECENT TRANSACTIONS

Acquisitions

The Company acquired the following rental properties (which were determined to be asset acquisitions in accordance with ASU 2017-01) during the year ended December 31, 2019 (dollars in thousands):

Acquisition Date	Property Address	Location	Property Type	# of Bldgs.	Square Feet/ Apartment Units	Acquisition Cost
02/06/19	99 Wood Avenue (a)	Iselin, New Jersey	Office	1	271,988	\$ 61,858
04/01/19	Soho Lofts (a)	Jersey City, New Jersey	Multi-family	1	377	264,578
09/26/19	Liberty Towers (b)	Jersey City, New Jersey	Multi-family	1	648	410,483
Total Acquisitions				3		\$ 736,919

(a) This acquisition was funded using funds available with the Company's qualified intermediary from prior property sales proceeds and through borrowing under the Company's unsecured revolving credit facility.

(b) This acquisition was funded through borrowings under the Company's unsecured revolving credit facility and a new \$232 million mortgage loan collateralized by the property.

On May 10, 2019, the Company completed the acquisition of unimproved land parcels for future development (“107 Morgan”) located in Jersey City, New Jersey for approximately \$67.2 million. The 107 Morgan acquisition was funded using funds available with the Company’s qualified intermediary from prior property sales proceeds, and through borrowing under the Company’s unsecured revolving credit facility. The Company’s mortgage receivable of \$46.1 million with the seller was repaid in full to the Company at closing.

Consolidations

2019

On January 31, 2019, the Company, which held a 24.27 percent subordinated interest in the unconsolidated joint venture, Marbella Tower Urban Renewal Associates South LLC, a 311-unit multi-family operating property located in Jersey City, New Jersey, acquired its equity partner’s 50 percent preferred controlling interest for \$77.5 million in cash. The property was subject to a mortgage loan that had a principal balance of \$74.7 million. The acquisition was funded primarily using available cash. Concurrently with the closing, the joint venture repaid in full the property’s \$74.7 million mortgage loan and obtained a new loan collateralized by the property in the amount of \$117 million, which bears interest at 4.2 percent and matures in August 2026. The Company received \$43.3 million in distribution from the loan proceeds which was used to acquire the equity partner’s 50 percent interest. As the result of the acquisition, the Company increased its ownership of the property from a 24.27 percent subordinated interest to a 74.27 percent controlling interest.

[Table of Contents](#)

In accordance with ASC 810, Consolidation, the Company evaluated the acquisition and determined that the entity meets the criteria of a VIE. As such, the Company consolidated the asset upon acquisition and accordingly, remeasured its equity interests, as required by the FASB's consolidation guidance, at fair value (based upon the income approach using current rental rates and market cap rates and discount rates). As a result, the Company recorded a gain on change of control of interests of \$13.8 million (a non-cash item) in the year ended December 31, 2019, in which the Company accounted for the transaction as a VIE that is not a business in accordance with ASC 810-10-30-4. Additional non-cash items included in the acquisition were the Company's carrying value of its interest in the joint venture of \$15.3 million and the noncontrolling interest's fair value of \$13.7 million. 2018

On August 2, 2018, the Company, which held a 24.27 percent subordinated interest in the unconsolidated joint venture Marbella Tower Urban Renewal Associates LLC, a 412-unit multi-family operating property located in Jersey City, New Jersey, acquired its equity partner's 50 percent interest for \$65.6 million in cash. The property was subject to a mortgage loan that had a principal balance of \$95 million. The cash portion of the acquisition was funded primarily through borrowings under the Company's unsecured revolving credit facility. Concurrently with the closing, the joint venture repaid the \$95 million mortgage loan in full and obtained a new loan from a different lender, collateralized by the property in the amount of \$131 million, which bears interest at 4.07 percent and matures in August 2026. The venture distributed \$37.4 million of the loan proceeds, of which the Company's share was \$30.4 million. As a result of the acquisition, the Company increased its ownership of the property from a 24.27 percent subordinated interest to a 74.27 percent controlling interest. In accordance with ASC 810, Consolidation, the Company evaluated the acquisition and determined that the entity meets the criteria of a VIE. As such, the Company consolidated the asset upon acquisition and accordingly, remeasured its equity interests, as required by the FASB's consolidation guidance, at fair value (based upon the income approach using current rates and market cap rates and discount rates). As a result, the Company recorded a gain on change of control of interests of \$14.2 million (a non-cash item) in the year ended December 31, 2019, when the Company accounted for the transaction as a VIE that is not a business in accordance with ASC 810-10-30-4. Additional non-cash items included in the acquisition were the Company's carrying value of its interest in the joint venture of \$14 million and the noncontrolling interest's fair value of \$29.8 million (non-cash allocation). See Note 9: Mortgages, Loans Payable and Other Obligations.

Real Estate Held for Sale/Discontinued Operations/Dispositions

2019

Following the General Partner's 2019 Annual Meeting of Stockholders, the Board of Directors of the General Partner (the "Board") formed a Shareholder Value Committee comprised of four independent directors to review the Company's strategic direction and make a recommendation to the full Board. On December 19, 2019, the Company announced that, based on the recommendations of the Shareholder Value Committee, the Board had determined to sell the Company's entire suburban New Jersey office portfolio totaling approximately 6.6 million square feet (collectively, the "Suburban Office Portfolio"). As the decision to sell the Suburban Office Portfolio represented a strategic shift in the Company's operations, the portfolio's results are being classified as discontinued operations for all periods presented herein. See Note 7: Discontinued Operations.

During the year ended December 31, 2019, the Company completed the sale of two of these suburban office properties, totaling 497,000 square feet, for net sales proceeds of \$52.2 million. As of December 31, 2019, the Company has identified as held for sale the remaining 35 office properties (comprised of 12 identified disposal groups) in the Suburban Office Portfolio, totaling 6.1 million square feet. See Note 7: Discontinued Operations.

The Company expects to complete the sale of its remaining Suburban Office Portfolio properties in 2020, and plans to use the available sales proceeds to pay down its corporate-level, unsecured indebtedness. After the completion of the Suburban Office Portfolio sales, the Company's holdings will consist of its waterfront class A office portfolio and its multi-family rental portfolio, and related development projects and land holdings.

Additionally, the Company also identified a retail pad leased to others and several developable land parcels as held for sale as of December 31, 2019. The properties are located in Fort Lee, Parsippany, Madison, Short Hills, Edison, Red Bank and Florham Park. The Company determined that the carrying value of 21 of the properties (comprised of six disposal groups) and several land parcels held for sale was not expected to be recovered from estimated net sales proceeds, and accordingly, during the year ended December 31, 2019, recognized an unrealized loss allowance of \$174.1 million (\$137.9 million of which are from discontinued operations, for the properties and land and other impairments of \$32.4 million.

Other assets and liabilities related to the rental properties held for sale, as of December 31, 2018, include \$2.9 million in Deferred charges and other assets, \$1.7 million in Unbilled rents receivable and \$2.3 million in Accounts payable, accrued expenses and other liabilities. Approximately \$3.9 million of these assets and \$1.7 million of these liabilities are expected to be removed with the completion of the sales.

Land Impairments

The Company owned two separate developable land parcels in Conshohocken and Bala Cynwyd, Pennsylvania, that were being considered for development into multi-family rental properties. During the fourth quarter 2018, the Company changed its plans regarding pursuing development in Pennsylvania and made the decision to pursue selling the land parcels as opposed to development. Due to the shortening of the expected periods of ownership, the Company determined that the carrying value of the land parcels was impaired and recorded an adjustment to its carrying value to their estimated fair value and recorded land impairments charges of \$24.6 million at December 31, 2018. The land parcels were subsequently sold during the year ended December 31, 2019.

Unconsolidated Joint Venture Activity

On February 28, 2019, the Company sold its interest in the Red Bank Corporate Plaza joint venture which owns an operating property located in Red Bank, New Jersey for a sales price of \$4.2 million, and realized a gain on the sale of the unconsolidated joint venture of \$0.9 million.

On December 11, 2018, the Company acquired one of its partner's interest in the Metropolitan and Shops at 40 Park and the Lofts at 40 Park for \$1.3 million and as a result, increased its ownership from 12.5 percent interest to 25 percent interest in the Metropolitan and Shops at 40 Park and from 25 percent interest to 50 percent interest in the Lofts at 40 Park.

Rockpoint Transaction

On February 27, 2017, the Company, Roseland Residential Trust ("RRT"), the Company's subsidiary through which the Company conducts its multi-family residential real estate operations, Roseland Residential, L.P. ("RRLP"), the operating partnership through which RRT conducts all of its operations, and certain other affiliates of the Company entered into a preferred equity investment agreement (the "Original Investment Agreement") with certain affiliates of Rockpoint Group, L.L.C. (Rockpoint Group, L.L.C. and its affiliates, collectively, "Rockpoint"). The Original Investment Agreement provided for RRT to contribute property to RRLP in exchange for common units of limited partnership interests in RRLP (the "Common Units") and for multiple equity investments by Rockpoint in RRLP from time to time for up to an aggregate of \$300 million of preferred units of limited partnership interests in RRLP (the "Preferred Units"). The initial closing under the Original Investment Agreement occurred on March 10, 2017 for \$150 million of Preferred Units and the parties agreed that the Company's contributed equity value ("RRT Contributed Equity Value"), was \$1.23 billion at closing. During the year ended December 31, 2018, a total additional amount of \$105 million of Preferred Units were issued and sold to Rockpoint pursuant to the Original Investment Agreement. During the three months ended March 31, 2019, a total additional amount of \$45 million of Preferred Units were issued and sold to Rockpoint pursuant to the Original Investment Agreement, which brought the Preferred Units to the full balance of \$300 million. In addition, certain contributions of property to RRLP by RRT subsequent to the execution of the Original Investment Agreement resulted in RRT being issued approximately \$46 million of Preferred Units and Common Units in RRLP prior to June 26, 2019.

On June 26, 2019, the Company, RRT, RRLP, certain other affiliates of the Company and Rockpoint entered into an additional preferred equity investment agreement (the "Add On Investment Agreement"). The closing under the Add On Investment Agreement occurred on June 28, 2019. Pursuant to the Add On Investment Agreement, Rockpoint invested an additional \$100 million in Preferred Units and the Company and RRT agreed to contribute to RRLP two additional properties located in Jersey City, New Jersey. The Company used the \$100 million in proceeds received to repay outstanding borrowings under its unsecured revolving credit facility and other debt by June 30, 2019. In addition, Rockpoint has a right of first refusal to invest another \$100 million in Preferred Units in the event RRT determines that RRLP requires additional capital prior to March 1, 2023 and, subject thereto, RRLP may issue up to approximately \$154 million in Preferred Units to RRT or an affiliate so long as at the time of such funding RRT determines in good faith that RRLP has a valid business purpose to use such proceeds. See Note 15: Redeemable Noncontrolling Interests for additional information about the Add On Investment Agreement and the related transactions with Rockpoint.

RRLP has been identified as a variable interest entity in which the Company is deemed to be the primary beneficiary. As of December 31, 2019 and December 31, 2018, the Company's consolidated RRLP entity had total assets of \$3.1 billion and \$2.3 billion, respectively, total mortgages and loan payable of \$1.4 billion and \$1.1 billion, respectively, and other liabilities of \$115.2 million and \$57 million, respectively.

4. INVESTMENTS IN UNCONSOLIDATED JOINT VENTURES

As of December 31, 2019, the Company had an aggregate investment of approximately \$209.1 million in its equity method joint ventures. The Company formed these ventures with unaffiliated third parties, or acquired interests in them, to develop or manage primarily office and multi-family rental properties, or to acquire land in anticipation of possible development of office and multi-family

rental properties. As of December 31, 2019, the unconsolidated joint ventures owned: two office properties aggregating approximately 0.2 million square feet, seven multi-family properties totaling 2,611 apartment units, two retail properties aggregating approximately 81,700 square feet, a 351-room hotel, a development project for up to approximately 360 apartment units; and interests and/or rights to developable land parcels able to accommodate up to 3,220 apartment units. The Company's unconsolidated interests range from 20 percent to 85 percent subject to specified priority allocations in certain of the joint ventures.

The amounts reflected in the following tables (except for the Company's share of equity in earnings) are based on the historical financial information of the individual joint ventures. The Company does not record losses of the joint ventures in excess of its investment balances unless the Company is liable for the obligations of the joint venture or is otherwise committed to provide financial support to the joint venture. The outside basis portion of the Company's investments in joint ventures is amortized over the anticipated useful lives of the underlying ventures' tangible and intangible assets acquired and liabilities assumed. Unless otherwise noted below, the debt of the Company's unconsolidated joint ventures generally is non-recourse to the Company, except for customary exceptions pertaining to such matters as intentional misuse of funds, environmental conditions, and material misrepresentations.

The Company has agreed to guarantee repayment of a portion of the debt of its unconsolidated joint ventures. As of December 31, 2019, such debt had a total borrowing capacity of \$318 million of which the Company agreed to guarantee up to \$34.6 million. As of December 31, 2019, the outstanding balance of such debt totaled \$233.4 million of which \$26.1 million was guaranteed by the Company. The Company performed management, leasing, development and other services for the properties owned by the unconsolidated joint ventures and recognized \$2.4 million and \$2.4 million for such services in the years ended December 31, 2019 and 2018, respectively. The Company had \$0.6 million and \$0.2 million in accounts receivable due from its unconsolidated joint ventures as of December 31, 2019 and 2018.

Included in the Company's investments in unconsolidated joint ventures as of December 31, 2019 are three unconsolidated joint ventures, two of which are operating properties and one development project, which are VIEs for which the Company is not the primary beneficiary. These joint ventures are primarily established to develop real estate property for long-term investment and were deemed VIEs primarily based on the fact that the equity investment at risk was not sufficient to permit the entities to finance their activities without additional financial support. The initial equity contributed to these entities was not sufficient to fully finance the real estate construction as development costs are funded by the partners throughout the construction period. The Company determined that it was not the primary beneficiary of these VIEs based on the fact that the Company has shared control of these entities along with the entity's partners and therefore does not have controlling financial interests in these VIEs. The Company's aggregate investment in these VIEs was approximately \$117.7 million as of December 31, 2019. The Company's maximum exposure to loss as a result of its involvement with these VIEs is estimated to be approximately \$152.3 million, which includes the Company's current investment and estimated future funding commitments/guarantees of approximately \$34.6 million. The Company has not provided financial support to these VIEs that it was not previously contractually required to provide. In general, future costs of development not financed through third parties will be funded with capital contributions from the Company and its outside partners in accordance with their respective ownership percentages.

- (a) Company's effective ownership % represents the Company's entitlement to residual distributions after payments of priority returns, where applicable.
- (b) The Company's ownership interests in this venture are subordinate to its partner's preferred capital balance and the Company is not expected to meaningfully participate in the venture's cash flows in the near term.
- (c) Through the joint venture, the Company also owns a 25 percent interest in a 50,973 square foot retail building ("Shops at 40 Park") and a 50 percent interest in a 59-unit, five story multi-family rental property ("Lofts at 40 Park").
- (d) Property debt balance consists of: (i) an amortizable loan, collateralized by the Metropolitan at 40 Park, with a balance of \$35,161, bears interest at 3.25 percent, matures in September 2020; (ii) an amortizable loan, collateralized by the Shops at 40 Park, with a balance of \$6,067, bore interest at LIBOR +2.25%, matured in October 2019. In October 2019, the loan was refinanced with a maturity date of October 2021, which bears interest at LIBOR +1.5%; (iii) a construction loan with a maximum borrowing amount of \$13,950 for the Lofts at 40 Park with a balance of \$13,145, which bore interest at LIBOR plus 250 basis points and scheduled to mature in February 2020. In January 2020, the loan was refinanced with a maximum borrowing amount of \$18,200, which bears interest at LIBOR plus 150 basis points and matures in January 2023.
- (e) Included in this is the Company's unconsolidated 50 percent interest in a vacant land to accommodate the development of approximately 738 additional approved units. The joint venture is currently in discussions regarding a refinancing of the property debt.
- (f) The venture has a construction loan with a maximum borrowing amount of \$112,000.
- (g) On January 31, 2019, the Company, which held a 24.27 percent subordinated interest in the unconsolidated joint venture, Marbella Tower Urban Renewal Associates South LLC, a 311-unit multi-family operating property located in Jersey City, New Jersey, acquired the majority equity partner's 50 percent preferred and controlling interest in the venture for \$77.5 million in cash and the Company consolidated the asset. The acquisition was funded primarily using available cash and proceeds from the refinancing. Concurrently with the closing, the joint venture repaid in full the property's \$74.7 million mortgage loan and obtained a new loan in the amount of \$117 million. See Note 3: Recent Transactions - Consolidation.
- (h) The Company owns an 85 percent residual interest with shared control over major decisions such as, approval of budgets, property financings and leasing guidelines.
- (i) The Company owns a 20 percent residual interest in undeveloped land parcels: parcels 6, I, and J that can accommodate the development of 836 apartment units.
- (j) On February 28, 2019, the Company sold its 50 percent interest to its partner and recorded a gain of \$0.9 million.
- (k) At December 31, 2019, the Company evaluated the recoverability of the carrying value of certain investments in unconsolidated joint venture, being considered for sale in the short or medium term. The Company determined that due to tenant turnover, lease-up assumptions, along with the Company's plans to exit its investment, it was necessary to reduce the carrying value of the investment to its estimated fair value. Accordingly, the Company recorded an impairment charge of \$3.7 million at December 31, 2019, which is included in equity in earnings for the year.
- (l) The Company owns other interests in various unconsolidated joint ventures, including interests in assets previously owned and interest in ventures whose businesses are related to its core operations. These ventures are not expected to significantly impact the Company's operations in the near term.

This amount has a corresponding liability of \$23.8 million, which is included in Accounts payable, accrued expense and other liabilities. See Note 12: Commitments and Contingencies – Ground Lease agreements for further details.

(g) Includes as of December 31, 2019 and 2018, \$28.1 million and \$49.2 million, respectively, of funds available with the Company's qualified intermediary from prior property sales proceeds.

(h) The amount as of December 31, 2019 includes \$68.6 million for properties classified as discontinued operations.

DERIVATIVE FINANCIAL INSTRUMENTS

Cash Flow Hedges of Interest Rate Risk

The Company's objectives in using interest rate derivatives are to add stability to interest expense and to manage its exposure to interest rate movements. To accomplish this objective, the Company primarily uses interest rate swaps as part of its interest rate risk management strategy. During the year ended December 31, 2019, such derivatives were used to hedge the variable cash flows associated with existing variable-rate debt. As of December 31, 2019, the Company did not have any outstanding interest rate swaps that were designated as cash flow hedges of interest rate risk.

During March 2019, in connection with a partial payoff of the Company's outstanding term loans, the Company terminated interest rate swaps with an aggregate notional amount of \$90 million. During June 2019, in connection with a subsequent partial payoff of the Company's outstanding unsecured term loans, the Company terminated interest rate swaps with an aggregate notional amount of \$160 million. During August 2019, in connection with a partial payoff of the Company's outstanding unsecured term loans, the Company terminated rate swaps with an aggregate notional amount of \$145 million. These paydowns resulted in the Company accelerating the reclassification of gains from other comprehensive income to earnings as a result of the hedged forecasted transactions no longer being probable to occur, amounting to \$1.9 million for the year ended December 31, 2019.

During December 2019, in connection with the payoff of the remainder of the outstanding term loans, the Company terminated the

[Table of Contents](#)

remaining interest rate swaps with an aggregate notional amount of \$280 million for a receipt of \$36,000. Following these terminations, \$25,000 was recorded in accumulated other comprehensive income and is being recorded as an adjustment to interest expense over the term of the original hedges and respective borrowings. Of the amount recorded in accumulated other comprehensive income following these terminations, \$9,000 was recorded as a decrease to interest expense for the year ended December 31, 2019 and approximately \$16,000 remained in accumulated other comprehensive income as of December 31, 2019.

The changes in the fair value of derivatives designated and that qualify as cash flow hedges is recorded in accumulated other comprehensive income and is subsequently reclassified into earnings in the period that the hedged forecasted transaction affects earnings. During the years ended December 31, 2019, 2018 and 2017 the Company recorded ineffectiveness loss of zero, \$0.2 million and \$37,000, respectively, which is included in interest and other investment income (loss) in the consolidated statements of operations, attributable to a floor mismatch in the underlying indices of the derivatives and the hedged interest payments made on its variable-rate debt. Amounts reported in accumulated other comprehensive income related to derivatives will be reclassified to interest expense as interest payments are made on the Company's variable-rate debt. During the next 12 months, the Company estimates that an additional \$16,000 will be reclassified as a decrease to interest expense.

The table below presents the fair value of the Company's derivative financial instruments as well as their classification on the Balance Sheet as of December 31, 2019 and 2018 (*dollars in thousands*):

Asset Derivatives designated as hedging instruments	Fair Value December 31,		Balance sheet location

Credit-risk-related Contingent Features

The Company has agreements with each of its derivative counterparties that contain a provision where the Company could be declared in default on its derivative obligations if repayment of the underlying indebtedness is accelerated by the lender due to the Company's default on the indebtedness. As of December 31, 2019, the Company did not have derivatives in a net liability position including accrued interest but excluding any adjustment for nonperformance risk related to these agreements. As of December 31, 2019, the Company has not posted any collateral related to these agreements.

6. RESTRICTED CASH

Restricted cash generally includes tenant and resident security deposits for certain of the Company's properties, and escrow and reserve funds for debt service, real estate taxes, property insurance, capital improvements, tenant improvements, and leasing costs established pursuant to certain mortgage financing arrangements, and is comprised of the following (*dollars in thousands*):

	December 31, 2019	December 31, 2018
Security deposits	\$ 5,677	\$ 10,257
Escrow and other reserve funds	9,900	9,664
Total restricted cash	\$ 15,577	\$ 19,921

7. DISCONTINUED OPERATIONS

Following the General Partner's 2019 Annual Meeting of Stockholders, the Board formed a Shareholder Value Committee comprised of four independent directors to review the Company's strategic direction and make a recommendation to the full Board. On December 19, 2019, the Company announced that, based on the recommendations of the Shareholder Value Committee, the Board had determined to sell the Company's entire suburban office portfolio totaling approximately 6.6 million square feet. As the decision to sell the Suburban Office Portfolio represented a strategic shift in the Company's operations, the portfolio's results are being classified as discontinued operations for all periods presented herein.

During the year ended December 31, 2019, the Company completed the sale of two of these suburban office properties, totaling 497,000 square feet, for net sales proceeds of \$52.2 million. As of December 31, 2019, the Company has identified as held for sale the remaining 35 office properties (comprised of 12 disposal groups) in the Suburban Office Portfolio, totaling 6.1 million square feet.

The Company expects to complete the sale of its remaining Suburban Office Portfolio properties in 2020, and plans to use the available sales proceeds to pay down its corporate-level, unsecured indebtedness. After the completion of the Suburban Office Portfolio sales, the Company's holdings will consist of its waterfront class A office portfolio and its multi-family rental portfolio, and related development projects and land holdings.

The Company determined that the carrying value of 21 of the properties (comprised of six disposal groups) was not expected to be recovered from estimated net sales proceeds, and accordingly recognized an unrealized loss allowance of \$144.1 million during the year ended December 31, 2019.

The following table summarizes income from discontinued operations and the related realized gains (losses) and unrealized losses on disposition of rental property and impairments, net, for the years ended December 31, 2019, 2018 and 2017 (*dollars in thousands*)

Total senior unsecured notes, net	\$ 571,484	\$ 570,314	

(1) Includes the cost of terminated treasury lock agreements (if any), offering and other transaction costs and the discount/premium on the notes, as applicable.

The terms of the Company’s senior unsecured notes include certain restrictions and covenants which require compliance with financial ratios relating to the maximum amount of debt leverage, the maximum amount of secured indebtedness, the minimum amount of debt service coverage and the maximum amount of unsecured debt as a percent of unsecured assets. The Company was in compliance with its debt covenants under the indenture relating to its senior unsecured notes as of December 31, 2019.

9. UNSECURED REVOLVING CREDIT FACILITY AND TERM LOANS

On January 25, 2017, the Company entered into an amended revolving credit facility and new term loan agreement (“2017 Credit Agreement”) with a group of 13 lenders. Pursuant to the 2017 Credit Agreement, the Company refinanced its existing \$600 million unsecured revolving credit facility (“2017 Credit Facility”) and entered into a new \$325 million unsecured, delayed-draw term loan facility (“2017 Term Loan”). Effective March 6, 2018, the Company elected to determine its interest rate under the 2017 Credit Agreement and under the 2017 Term Loan using the defined leverage ratio option, resulting in an interest rate of London Inter Bank Offered Rate (“LIBOR”) plus 130 basis points and LIBOR plus 155 basis points, respectively.

The terms of the 2017 Credit Facility include: (1) a four year term ending in January 2021, with two six month extension options, subject to the Company not being in default on the facility and with the payment of a fee of 7.5 basis points for each extension; (2) revolving credit loans may be made to the Company in an aggregate principal amount of up to \$600 million (subject to increase as discussed below), with a sublimit under the 2017 Credit Facility for the issuance of letters of credit in an amount not to exceed \$60 million (subject to increase as discussed below); (3) an interest rate, based on the Operating Partnership’s unsecured debt ratings from Moody’s or S&P, or, at the Operating Partnership’s option, if it no longer maintains a debt rating from Moody’s or S&P, or such debt ratings fall below Baa3 and BBB-, based on a defined leverage ratio; and (4) a facility fee, currently 25 basis points, payable quarterly based on the Operating Partnership’s unsecured debt ratings from Moody’s or S&P, or, at the Operating Partnership’s option, if it no longer maintains a debt rating from Moody’s or S&P or such debt ratings fall below Baa3 and BBB-, based on a defined leverage ratio.

After electing to use the defined leverage ratio to determine the interest rate, the interest rates on outstanding borrowings, alternate base rate loans and the facility fee on the current borrowing capacity, payable quarterly in arrears, on the 2017 Credit Facility are currently based on the following total leverage ratio grid:

Total Leverage Ratio	Interest Rate - Applicable Basis Points Above LIBOR	Interest Rate - Applicable Basis Points Above LIBOR for Alternate Base Rate Loans	Facility Fee Basis Points
<45%	125.0	25.0	20.0
≥45% and <50%	130.0	30.0	25.0
≥50% and <55% (current ratio)	135.0	35.0	30.0
≥55%	160.0	60.0	35.0

Prior to the election to use the defined leverage ratio option, the interest rates on outstanding borrowings, alternate base rate loans and the facility fee on the current borrowing capacity, payable quarterly in arrears, on the 2017 Credit Facility were based upon the Operating Partnership's unsecured debt ratings, as follows:

Operating Partnership's Unsecured Debt Ratings: Higher of S&P or Moody's	Interest Rate - Applicable Basis Points Above LIBOR	Interest Rate - Applicable Basis Points Above LIBOR for Alternate Base Rate Loans	Facility Fee Basis Points
No ratings or less than BBB-/Baa3	155.0	55.0	30.0
BBB- or Baa3 (interest rate based on Company's election through March 5, 2018)	120.0	20.0	25.0
BBB or Baa2	100.0	0.0	20.0
BBB+ or Baa1	90.0	0.0	15.0
A- or A3 or higher	87.5	0.0	12.5

The terms of the 2017 Term Loan included: (1) a three year term ending in January 2020, with two one year extension options; (2) multiple draws of the term loan commitments may be made within 12 months of the effective date of the 2017 Credit Agreement up to an aggregate principal amount of \$325 million (subject to increase as discussed below), with no requirement to be drawn in full; provided, that, if the Company does not borrow at least 50 percent of the initial term commitment from the term lenders (i.e. 50 percent of \$325 million) on or before July 25, 2017, the amount of unused term loan commitments shall be reduced on such date so that, after giving effect to such reduction, the amount of unused term loan commitments is not greater than the outstanding term loans on such date; (3) an interest rate, based on the Operating Partnership's unsecured debt ratings from Moody's or S&P, or, at the Operating Partnership's option if it no longer maintains a debt rating from Moody's or S&P or such debt ratings fall below Baa3 and BBB-, based on a defined leverage ratio; and (4) a term commitment fee on any unused term loan commitment during the first 12 months after the effective date of the 2017 Credit Agreement at a rate of 0.25 percent per annum on the sum of the average daily unused portion of the aggregate term loan commitments.

On March 22, 2017, the Company drew the full \$325 million available under the 2017 Term Loan. On March 29, 2017, the Company executed interest rate swap arrangements to fix LIBOR with an aggregate average rate of 1.6473% for the swaps and a then aggregate fixed rate of 3.1973% on borrowings under the 2017 Term Loan.

On August 5, 2019, the Company prepaid \$45 million on the 2017 Term Loan (using a portion of the proceeds from a new mortgage loan collateralized by an office building located at 111 River Street received on that date) and recorded a net loss of \$20,000 from extinguishment of debt, as a result of a gain of \$44,000 due to the early termination of part of the interest rate swap arrangements and the write off of unamortized deferred financing costs and fees of \$64,000 due to the early debt prepayment. On December 18, 2019, the Company prepaid the remaining \$280 million balance outstanding on the 2017 Term Loan (using borrowings under the Company's unsecured revolving credit facility) and recorded a net loss of \$153,000 from extinguishment of debt, as a result of a gain of \$36,000 due to the early termination of part of the interest rate swap arrangements and the write off of unamortized deferred financing costs and fees of \$189,000 due to the early debt prepayment.

After electing to use the defined leverage ratio to determine the interest rate, the interest rate under the 2017 Term Loan was based on the following total leverage ratio grid:

Total Leverage Ratio	Interest Rate - Applicable Basis Points above LIBOR	Interest Rate - Applicable Basis Points Above LIBOR for Alternate Base Rate Loans
<45%	145.0	45.0
≥45% and <50%	155.0	55.0
≥50% and <55% (current ratio)	165.0	65.0
≥55%	195.0	95.0

Prior to the election to use the defined leverage ratio option, the interest rate on the 2017 Term Loan was based upon the Operating Partnership's unsecured debt ratings, as follows:

Operating Partnership's Unsecured Debt Ratings: Higher of S&P or Moody's	Interest Rate - Applicable Basis Points Above LIBOR	Interest Rate - Applicable Basis Points Above LIBOR for Alternate Base Rate Loans
No ratings or less than BBB-/Baa3	185.0	85.0
BBB- or Baa3 (interest rate based on Company's election through March 5, 2018)	140.0	40.0
BBB or Baa2	115.0	15.0
BBB+ or Baa1	100.0	0.0
A- or A3 or higher	90.0	0.0

On up to four occasions at any time after the effective date of the 2017 Credit Agreement, the Company may elect to request (1) an increase to the existing revolving credit commitments (any such increase, the "New Revolving Credit Commitments") and/or (2) the establishment of one or more new term loan commitments (the "New Term Commitments", together with the 2017 Credit Commitments, the "Incremental Commitments"), by up to an aggregate amount not to exceed \$350 million for all Incremental Commitments. The Company may also request that the sublimit for letters of credit available under the 2017 Credit Facility be increased to \$100 million (without arranging any New Revolving Credit Commitments). No lender or letter of credit issued has any obligation to accept any Incremental Commitment or any increase to the letter of credit subfacility. There is no premium or penalty associated with full or partial prepayment of borrowings under the 2017 Credit Agreement.

The 2017 Credit Agreement, which applies to both the 2017 Credit Facility and 2017 Term Loan, includes certain restrictions and covenants which limit, among other things the incurrence of additional indebtedness, the incurrence of liens and the disposition of real estate properties (to the extent that: (i) such property dispositions cause the Company to default on any of the financial ratios of the 2017 Credit Agreement (described below), or (ii) the property dispositions are completed while the Company is under an event of default under the 2017 Credit Agreement, unless, under certain circumstances, such disposition is being carried out to cure such default), and which require compliance with financial ratios relating to the maximum leverage ratio (60 percent), the maximum amount of secured indebtedness (40 percent), the minimum amount of fixed charge coverage (1.5 times), the maximum amount of unsecured indebtedness (60 percent), the minimum amount of unencumbered property interest coverage (2.0 times) and certain investment limitations (generally 15 percent of total capitalization). If an event of default has occurred and is continuing, the entire outstanding balance under the 2017 Credit Agreement may (or, in the case of any bankruptcy event of default, shall) become immediately due and payable, and the Company will not make any excess distributions except to enable the General Partner to continue to qualify as a REIT under the IRS Code.

Before it amended and restated its unsecured revolving credit facility in January 2017, the Company had a \$600 million unsecured revolving credit facility with a group of 17 lenders that was scheduled to mature in July 2017. The interest rate on outstanding borrowings (not electing the Company's competitive bid feature) and the facility fee on the current borrowing capacity, payable quarterly in arrears, was based upon the Operating Partnership's unsecured debt ratings at the time, as follows:

Operating Partnership's Unsecured Debt Ratings: Higher of S&P or Moody's	Interest Rate - Applicable Basis Points Above LIBOR	Facility Fee Basis Points
No ratings or less than BBB-/Baa3	170.0	35.0
BBB- or Baa3 (since January 2017 amendment)	130.0	30.0
BBB or Baa2	110.0	20.0
BBB+ or Baa1	100.0	15.0
A- or A3 or higher	92.5	12.5

In January 2016, the Company obtained a \$350 million unsecured term loan ("2016 Term Loan"), which had been scheduled to mature in January 2019 with two one-year extension options. On January 7, 2019, the Company exercised the first one-year extension option with the payment of an extension fee of \$0.5 million, which extended the maturity of the 2016 Term Loan to January 2020. The interest rate for the term loan is based on the Operating Partnership's unsecured debt ratings, or, at the Company's option, a defined leverage ratio. Effective March 6, 2018, the Company elected to determine its interest rate under the 2016 Term Loan using the defined leverage ratio option, resulting in an interest rate of LIBOR plus 155 basis points. The Company entered into interest rate swap arrangements to fix LIBOR for the duration of the term loan. Including costs, the current all-in fixed rate is 3.28 percent. The proceeds from the loan were used primarily to repay outstanding borrowings on the Company's then existing unsecured revolving credit facility and to repay

\$200 million senior unsecured notes that matured on January 15, 2016.

On March 29, 2019, the Company prepaid \$90 million on the 2016 Term Loan (using a portion of the cash sales proceeds from the Flex portfolio sale completed on that date) and recorded a gain from extinguishment of debt of \$1.3 million due to the early termination of part of the interest rate swap arrangements, as a result of the debt prepayment. On June 24, 2019, the Company prepaid \$160 million on the 2016 Term Loan (primarily using the proceeds from a mortgage loan financing obtained on the recently acquired Soho Lofts Apartments) and recorded an additional gain from extinguishment of debt of \$0.6 million due to the early termination of part of the interest rate swap arrangements as a result of the debt prepayment. On August 5, 2019, the Company prepaid the remaining \$100 million balance outstanding on the 2016 Term Loan (using a portion of the proceeds from a new mortgage loan collateralized by an office building located at 111 River Street received on that date), and recorded a net loss from extinguishment of debt of \$78,000 as a result of a gain of \$164,000 due to the early termination of part of the interest rate swap arrangements, and the write off of unamortized deferred financing costs and fees of \$242,000 due to the early debt prepayments.

In summary, the Company recorded a net gain on extinguishment of debt of \$1.6 million during the year ended December 31, 2019, as described above.

After electing to use the defined leverage ratio to determine interest rate, the interest rate under the 2016 Term Loan was based on the following total leverage ratio grid:

Total Leverage Ratio	Interest Rate - Applicable Basis Points above LIBOR
<45%	145.0
≥45% and <50%	155.0
≥50% and <55% (current ratio)	165.0
≥55%	195.0

Prior to the election to use the defined interest leverage ratio option, the interest rate on the 2016 Term Loan was based upon the Operating Partnership's unsecured debt ratings, as follows:

Operating Partnership's Unsecured Debt Ratings: Higher of S&P or Moody's	Interest Rate - Applicable Basis Points Above LIBOR
No ratings or less than BBB-/Baa3	185.0
BBB- or Baa3 (interest rate based on Company's election through March 5, 2018)	140.0
BBB or Baa2	115.0
BBB+ or Baa1	100.0
A- or A3 or higher	90.0

The terms of the 2016 Term Loan include certain restrictions and covenants which limit, among other things the incurrence of additional indebtedness, the incurrence of liens and the disposition of real estate properties (to the extent that: (i) such property dispositions cause the Company to default on any of the financial ratios of the term loan described below, or (ii) the property dispositions are completed while the Company is under an event of default under the term loan, unless, under certain circumstances, such disposition is being carried out to cure such default), and which require compliance with financial ratios relating to the maximum leverage ratio (60 percent), the maximum amount of secured indebtedness (40 percent), the minimum amount of fixed charge coverage (1.5 times), the maximum amount of unsecured indebtedness (60 percent), the minimum amount of unencumbered property interest coverage (2.0 times) and certain investment limitations (generally 15 percent of total capitalization). If an event of default has occurred and is continuing, the Company will not make any excess distributions except to enable the General Partner to continue to qualify as a REIT under the IRS Code.

On August 30, 2018, the Company entered into an amendment to the 2017 Credit Agreement (the "2017 Credit Agreement Amendment") and an amendment to the 2016 Term Loan (the "2016 Term Loan Amendment").

Each of the 2017 Credit Agreement Amendment and the 2016 Term Loan Amendment was effective as of June 30, 2018 and provided for the following material amendments to the terms of both the 2017 Credit Agreement and 2016 Term Loan:

1. The unsecured debt ratio covenant has been modified with respect to the measurement of the unencumbered collateral pool of assets in the calculation of such ratio for the period commencing July 1, 2018 and continuing until December 31, 2019 to allow the Operating Partnership to utilize the “as-is” appraised value of the properties known as ‘Harborside Plaza I’ and ‘Harborside Plaza V’ properties located in Jersey City, NJ in such calculation; and
2. A new covenant has been added that prohibits the Company from making any optional or voluntary payment, repayment, repurchase or redemption of any unsecured indebtedness of the Company (or any subsidiaries) that matures after January 25, 2022, at any time when any of the Total Leverage Ratio or the unsecured debt ratio covenants exceeds 60 percent (all as defined in the 2017 Credit Agreement and the 2016 Term Loan) or an appraisal is being used to determine the value of Harborside Plaza I and Harborside Plaza V for the unsecured debt ratio covenant.

All other terms and conditions of the 2017 Credit Agreement and the 2016 Term Loan remain unchanged.

The Company was in compliance with its debt covenants under its unsecured revolving credit facility as of December 31, 2019.

As of December 31, 2019 and 2018, the Company’s unsecured credit facility and term loans totaled \$329.0 million and \$790.9 million, respectively, and were comprised of: \$329.0 million of outstanding borrowings under its unsecured revolving credit facility, with no outstanding term loans as of December 31, 2019; and \$117 million of outstanding borrowings under its unsecured revolving credit facility, \$350.0 million from the 2016 Term Loan and \$323.9 million from the 2017 Term Loan (net of unamortized deferred financing costs of \$1.1 million) as of December 31, 2018.

10. MORTGAGES, LOANS PAYABLE AND OTHER OBLIGATIONS

The Company has mortgages, loans payable and other obligations which primarily consist of various loans collateralized by certain of the Company’s rental properties, land and development projects. As of December 31, 2019, 19 of the Company’s properties, with a total carrying value of approximately \$2.9 billion and four of the Company’s land and development projects, with a total carrying value of approximately \$381 million, are encumbered by the Company’s mortgages and loans payable. Payments on mortgages, loans payable and other obligations are generally due in monthly installments of principal and interest, or interest only. The Company was in compliance with its debt covenants under its mortgages and loans payable as of December 31, 2019.

A summary of the Company's mortgages, loans payable and other obligations as of December 31, 2019 and 2018 is as follows (*dollars in thousands*):

- (b) On January 16, 2019, the loan was repaid using proceeds from the disposition of Park Square.
- (c) This mortgage was assumed by the buyer upon the Company's disposition of the properties on October 23, 2019, which was a non-cash transaction.
- (d) This mortgage loan, which includes unamortized fair value adjustment of \$1.8 million as of December 31, 2019, was assumed by the Company in April 2017 with the consolidation of all the interests in Monaco Towers.
- (e) This construction loan has a maximum borrowing capacity of \$94 million and provides, subject to certain conditions, two one year extension options with a fee of 20 basis points for each year. On June 28, 2019, the Company paid down the loan by \$30 million using proceeds from the June 28, 2019 Rockpoint transaction. See Note 12: Commitments and Contingencies - Construction Projects. At its original scheduled maturity in October 2019, the loan was amended and restated with a new interest rate and a new maturity date of April 2022.
- (f) This construction loan has a maximum borrowing capacity of \$62 million and provides, subject to certain conditions, one 18-month extension option with a fee of 25 basis points.

CASH PAID FOR INTEREST AND INTEREST CAPITALIZED

Cash paid for interest for the years ended December 31, 2019, 2018 and 2017 was \$108,277,000 (of which \$1,278,000 pertained to properties classified as discontinued operations) \$97,744,000 and \$103,559,000, respectively. Interest capitalized by the Company for the years ended December 31, 2019, 2018 and 2017 was \$19,325,000, \$27,047,000, and \$20,240,000, respectively (which amounts included \$1,339,000, \$816,000 and \$1,056,000 for the years ended December 31, 2019, 2018 and 2017, respectively, of interest capitalized on the Company's investments in unconsolidated joint ventures which were substantially in development).

SUMMARY OF INDEBTEDNESS

As of December 31, 2019, the Company's total indebtedness of \$2,808,518,000 (weighted average interest rate of 3.81 percent) was comprised of \$509,656,000 of unsecured revolving credit facility borrowings and other variable rate mortgage debt (weighted average rate of 3.54 percent) and fixed rate debt and other obligations of \$2,298,862,000 (weighted average rate of 3.87 percent).

As of December 31, 2018, the Company's total indebtedness of \$2,792,651,000 (weighted average interest rate of 3.89 percent) was comprised of \$309,705,000 of unsecured revolving credit facility borrowings and other variable rate mortgage debt (weighted average rate of 4.90 percent) and fixed rate debt and other obligations of \$2,482,946,000 (weighted average rate of 3.76 percent).

11. EMPLOYEE BENEFIT 401(k) PLANS

Employees of the General Partner, who meet certain minimum age and service requirements, are eligible to participate in the Mack-Cali Realty Corporation 401(k) Savings/Retirement Plan (the "401(k) Plan"). Eligible employees may elect to defer from one percent up to 60 percent of their annual compensation on a pre-tax basis to the 401(k) Plan, subject to certain limitations imposed by federal law. The amounts contributed by employees are immediately vested and non-forfeitable. The Company may make discretionary matching or profit sharing contributions to the 401(k) Plan on behalf of eligible participants in any plan year. Participants are always 100 percent vested in their pre-tax contributions and will begin vesting in any matching or profit sharing contributions made on their behalf after two years of service with the Company at a rate of 20 percent per year, becoming 100 percent vested after a total of six years of service with the Company. All contributions are allocated as a percentage of compensation of the eligible participants for the Plan year. The assets of the 401(k) Plan are held in trust and a separate account is established for each participant. A participant may receive a distribution of his or her vested account balance in the 401(k) Plan in a single sum or in installment payments upon his or her termination of service with the Company. Total expense recognized by the Company for the 401(k) Plan for the years ended December 31, 2019, 2018 and 2017 was \$773,000, \$886,000 and \$1,055,000, respectively.

12. DISCLOSURE OF FAIR VALUE OF ASSETS AND LIABILITIES

The following disclosure of estimated fair value was determined by management using available market information and appropriate valuation methodologies. However, considerable judgment is necessary to interpret market data and develop estimated fair value. Accordingly, the estimates presented herein are not necessarily indicative of the amounts the Company could realize on disposition of the assets and liabilities at December 31, 2019 and 2018. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts.

Cash equivalents, receivables, notes receivables, accounts payable, and accrued expenses and other liabilities are carried at amounts which reasonably approximate their fair values as of December 31, 2019 and 2018.

The fair value of the Company's long-term debt, consisting of senior unsecured notes, unsecured term loans, an unsecured revolving credit facility and mortgages, loans payable and other obligations aggregated approximately \$2,791,629,000 and \$2,711,712,000 as compared to the book value of approximately \$2,808,517,000 and \$2,792,651,000 as of December 31, 2019 and 2018, respectively. The fair value of the Company's long-term debt was categorized as a level 3 basis (as provided by ASC 820, Fair Value Measurements and Disclosures). The fair value was estimated using a discounted cash flow analysis valuation based on the borrowing rates currently available to the Company for loans with similar terms and maturities. The fair value of the mortgage debt and the unsecured notes was determined by discounting the future contractual interest and principal payments by a market rate. Although the Company has determined that the majority of the inputs used to value its derivative financial instruments fall within level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivative financial instruments utilize level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself and its counterparties. The Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of its derivative financial instruments. As a result, the Company has determined that its derivative financial instruments valuations in their entirety are classified in level 2 of the fair value hierarchy.

The fair value measurements used in the evaluation of the Company's rental properties are considered to be Level 3 valuations within the fair value hierarchy, as there are significant unobservable inputs. Examples of inputs that were utilized in the fair value calculations include, but are not limited to, estimated holding periods, discount rates, market capitalization rates, expected lease rental rates, third party broker information and information from potential buyers, as applicable.

Valuations of real estate identified as held for sale are based on estimated sale prices, net of estimated selling costs, of such property. In the absence of an executed sales agreement with a set sales price, management's estimate of the net sales price may be based on a number of unobservable assumptions/inputs, including but not limited to the Company's estimates of future and stabilized cash flows, market capitalization rates and discount rates, if applicable. For developable land, an estimated per-unit market value assumption is also considered based on development rights for the land.

As of December 31, 2019, examples of these inputs and assumptions included:

Description	Primary Valuation Techniques	Unobservable Inputs	Location Type	Range of Rates
Office properties held for sale on which the Company recognized impairment losses	Discounted cash flows	Discount rates	Suburban	7.5% - 9.6%
		Exit Capitalization rates	Suburban	7.5% - 9%
		Market rental rates	Suburban	\$26.00 - \$50.00
Land properties held for sale on which the Company recognized impairment losses	Developable units and market rate per unit	Market rates per residential unit	Suburban	\$26,500 - \$35,000
		Market rates per square foot	Suburban	\$15.00 - \$25.00

The Company identified 35 office properties (comprised of 12 disposal groups), a retail pad leased to others and several developable land parcels as held for sale as of December 31, 2019 with an aggregate carrying value of \$966 million. The Company determined that the carrying value of 21 of the properties (comprised of six disposal groups) and several land parcels was not expected to be recovered from estimated net sales proceeds and accordingly during the year ended December 31, 2019 recognized an unrealized loss allowance of \$174.1 million (\$137.9 million of which are from discontinued operations) for the properties and land and other impairments of \$32.4 million.

The Company owned two separate developable land parcels in Conshohocken and Bala Cynwyd, Pennsylvania, that were being considered for development into multi-family rental properties. During the fourth quarter 2018, the Company changed its plans regarding pursuing development in Pennsylvania and made the decision to pursue selling the land parcels as opposed to development. Due to the shortening of the expected period of ownership, the Company determined that the carrying value of the land parcels was

impaired and recorded an adjustment to its carrying value to their estimated fair value and recorded land impairment charges of \$24.6 million at December 31, 2018. As a result of its periodic evaluation of the recoverability of the carrying value, the Company recorded additional land impairment charges of \$2.7 million in the year ended December 31, 2019.

The Company identified as held for sale six office properties and a 159 unit multi-family rental property as of December 31, 2018 with an aggregate carrying value of \$108.8 million. The total estimated sales proceeds from the sales were expected to be approximately \$124 million. The Company determined that the carrying value of four of these properties was not expected to be recovered from estimated net sales proceeds and accordingly recognized an unrealized loss allowance of \$20.1 million during the year ended December 31, 2018.

Disclosure about fair value of assets and liabilities is based on pertinent information available to management as of December 31, 2019 and 2018. Although management is not aware of any factors that would significantly affect the fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since December 31, 2019 and current estimates of fair value may differ significantly from the amounts presented herein.

13. COMMITMENTS AND CONTINGENCIES

TAX ABATEMENT AGREEMENTS

Pursuant to agreements with certain municipalities, the Company is required to make payments in lieu of property taxes (“PILOT”) on certain of its properties and has tax abatement agreements on other properties, as follows:

The Harborside Plaza 4-A agreement with the City of Jersey City, as amended, which commenced in 2002, is for a term of 20 years. The annual PILOT is equal to two percent of Total Project Costs, as defined. Total Project Costs are \$49.5 million. The PILOT totaled \$1.1 million, \$1.1 million and \$1.1 million for the years ended December 31, 2019, 2018 and 2017, respectively.

The Harborside Plaza 5 agreement, also with the City of Jersey City, as amended, which commenced in 2002, is for a term of 20 years. The annual PILOT is equal to two percent of Total Project Costs, as defined. Total Project Costs are \$170.9 million. The PILOT totaled \$4.4 million, \$4.4 million and \$3.9 million for the years ended December 31, 2019, 2018 and 2017, respectively.

The Port Imperial South 1/3 Garage development project agreement with the City of Weehawken has a term of five years beginning when the project is substantially complete, which occurred in the fourth quarter of 2015. The agreement provides that real estate taxes be paid at 100 percent on the land value of the project only over the five year period and allows for a phase in of real estate taxes on the building improvement value at zero percent in year one and 95 percent in years two through five.

The Port Imperial Hotel development project agreement with the City of Weehawken is for a term of 15 years following substantial completion, which commenced initial operation in December 2018. The annual PILOT is equal to two percent of Total Project Costs, as defined therein. The PILOT totaled \$2.2 million for the year ended December 31, 2019.

The Port Imperial South 11 development project agreement with the City of Weehawken is for a term of 15 years following substantial completion, which occurred in August 2018. The annual PILOT is equal to 10 percent of Gross Revenues, as defined therein. The PILOT totaled \$1.0 million for the year ended December 31, 2019.

The 111 River Realty agreement with the City of Hoboken, which commenced on October 1, 2001 expires in April 2022. The PILOT payment equaled \$1.2 million annually through April 2017 and then increased to \$1.4 million annually until expiration. The PILOT totaled \$1.4 million, \$1.4 million and \$1.3 million for the years ended December 31, 2019, 2018 and 2017, respectively.

The Monaco Towers agreement with the City of Jersey City, which commenced in 2011, is for a term of 10 years. The annual PILOT is equal to 10 percent of gross revenues, as defined. The PILOT totaled \$2.1 million and \$2.4 million for the years ended December 31, 2019, 2018, and \$1.6 million for the period from acquisition (April 2017) through December 31, 2017, respectively.

The Marbella II agreement with the City of Jersey City, which commenced in 2016, is for a term of 10 years. The annual PILOT is equal to 10 percent of gross revenues for years 1-4, 12 percent of gross revenues for years 5-8 and 14 percent of gross revenue for years 9-10, as defined therein. The PILOT totaled \$1.4 million for the period from acquisition (January 31, 2019) through December 31, 2019.

The Port Imperial South 9 development project agreement with the City of Weehawken is for a term of 25 years following substantial completion, which is anticipated to occur in the fourth quarter 2020. The annual PILOT is equal to 11 percent of gross revenue for years

[Table of Contents](#)

1-10, 12.5 percent for years 11-18 and 14 percent for years 19-25, as defined therein.

The Port Imperial South Park Parcel development project agreement with the Township of Weehawken is for a term of 25 years following substantial completion. The annual PILOT is equal to 10 percent of Gross Revenues, as defined therein.

At the conclusion of the above-referenced agreements, it is expected that the properties will be assessed by the municipality and be subject to real estate taxes at the then prevailing rates.

LITIGATION

The Company is a defendant in litigation arising in the normal course of its business activities. Management does not believe that the ultimate resolution of these matters will have a materially adverse effect upon the Company's financial condition taken as whole.

GROUND LEASE AGREEMENTS

Future minimum rental payments under the terms of all non-cancelable ground leases under which the Company is the lessee, as of December 31, 2019, are as follows (*dollars in thousands*):

	As of December 31, 2019	
Year		Amount
2020	\$	1,750
2021		1,750
2022		1,750
2023		1,756
2024		1,776
2025 through 2098		154,722
Total lease payments		163,504
Less: imputed interest		(139,748)
Total	\$	23,756

	As of December 31, 2018	
Year		Amount
2019	\$	2,470
2020		2,491
2021		2,491
2022		2,491
2023		2,491
2024 through 2098		210,117
Total	\$	222,551

Ground lease expense incurred by the Company during the years ended December 31, 2019, 2018 and 2017 amounted to \$2.6 million, \$2.3 million and \$2.6 million, respectively.

In conjunction with the adoption of ASU 2016-02 (Topic 842), starting on January 1, 2019, the Company capitalized operating leases, which had a balance of \$23.8 million at December 31, 2019 for five ground leases. Such amount represents the net present value ("NPV") of future payments detailed above. The incremental borrowing rates used to arrive at the NPV ranged from 5.637 percent to 7.618 percent for the remaining ground lease terms ranging from 6.25 years to 82.58 years. These rates were arrived at by adjusting the fixed rates of the Company's mortgage debt with debt having terms approximating the remaining lease term of the Company's ground leases and calculating notional rates for fully-collateralized loans.

CONSTRUCTION PROJECTS

The Company is developing a 313-unit multi-family project known as Port Imperial South 9 at Port Imperial in Weehawken, New Jersey, which began construction in third quarter 2018. The construction project, which is estimated to cost \$142.9 million, of which construction costs of \$67.8 million have been incurred through December 31, 2019, is expected to be ready for occupancy in fourth

quarter 2020. The Company has funded \$50.9 million as of December 31, 2019, and the remaining construction costs are expected to be funded primarily from a \$92 million construction loan.

The Company is developing a 326-unit multi-family project known as Chase III at Overlook Ridge in Malden, Massachusetts, which began construction in third quarter 2018. The construction project, which is estimated to cost \$100.7 million, of which \$64.3 million have been incurred through December 31, 2019, is expected to be ready for initial occupancy in the first quarter 2020. The Company has funded \$38.7 million as of December 31, 2019, and the remaining construction costs are expected to be funded primarily from a \$62 million construction loan.

The Company is developing a 198-unit multi-family project known as The Upton at Short Hills located in Short Hills, New Jersey, which began construction in fourth quarter 2018. The construction project, which is estimated to cost \$99.4 million, of which \$50.4 million have been incurred through December 31, 2019, is expected to be ready for occupancy in fourth quarter 2020. The Company has funded \$35.4 million of the construction costs, and the remaining construction costs are expected to be funded primarily from a \$64 million construction loan.

The Company is developing a 750-unit multi-family project at 25 Christopher Columbus in Jersey City, New Jersey, which began construction in first quarter 2019. The construction project, which is estimated to cost \$469.5 million, of which \$151.9 million have been incurred through December 31, 2019, is expected to be ready for occupancy in first quarter 2022. The Company is expected to fund \$169.5 million of the construction costs of which the Company has funded \$122.5 million as of December 31, 2019, and the remaining construction costs are expected to be funded primarily from a newly obtained \$300 million construction loan.

EXECUTIVE EMPLOYMENT AGREEMENTS

On March 13, 2019, the General Partner entered into a new executive employment agreement, dated as of March 13, 2019 (the “DeMarco Employment Agreement”), with Michael J. DeMarco, the Company’s Chief Executive Officer, effective as of January 1, 2019. The DeMarco Employment Agreement replaces Mr. DeMarco’s previous employment agreement with the Company, the term of which expired on December 31, 2018, and is effective as of January 1, 2019. The DeMarco Employment Agreement has been approved by the Board of Directors of the General Partner. Pursuant to the DeMarco Employment Agreement, Mr. DeMarco will serve as the Chief Executive Officer of the Company until December 31, 2022 (the “Term”), unless Mr. DeMarco’s employment is earlier terminated in accordance with the DeMarco Employment Agreement. Pursuant to the DeMarco Employment Agreement, Mr. DeMarco will be entitled to the following compensation and benefits:

- ① an annual base salary of \$800,000 (which is the same amount as Mr. DeMarco’s base salary for 2018), subject to potential annual merit increases (but not decreases);
- ① a threshold bonus opportunity of 75% of Mr. DeMarco’s then current annual base salary, a target annual bonus opportunity of 150% of his then current annual base salary, and a maximum bonus opportunity of 250% of his then current annual base salary, to be determined based on attainment of performance criteria for each fiscal year to be determined by the Board of Directors or the Compensation Committee; and
- ① the grant of 625,000 AO LTIP Units of limited partnership interests in the Operating Partnership (the “AO LTIP Units”), which have the terms and conditions set forth in the AO LTIP award agreement and shall vest based on satisfaction of certain conditions relating to the closing price of shares of the Common Stock. See Note 16: Mack-Cali Realty Corporation Stockholders’ Equity and Mack-Cali Realty LP’s Partners’ Capital – AO LTIP Units.

In addition, Mr. DeMarco will be entitled to customary employee benefits under the Company’s health and welfare plans. Pursuant to the DeMarco Employment Agreement, in the event of a termination of Mr. DeMarco’s employment on account of death or disability, Mr. DeMarco (or his beneficiaries, in the case of death) will be entitled to receive his accrued and unpaid base salary, expense reimbursement and benefits under the Company’s health and welfare plans through the termination date, plus a prorated portion of the annual bonus payable for the year of such termination.

In the event of a termination of Mr. DeMarco’s employment without “Cause” or by Mr. DeMarco for “Good Reason” during the Term or thereafter during a “Change in Control Period” (each as defined in the DeMarco Employment Agreement), subject to Mr. DeMarco signing a release in customary form, he will be entitled to the same benefits in the event of a termination due to death or disability, plus a lump sum cash payment equal to (i) if such termination occurs during the Term and not during a Change in Control Period, 2.0 times the sum of (x) his annual base salary immediately prior to the termination date and (y) his target bonus for the year during which termination occurs, or (ii) if such termination occurs during or after the expiration of the Term and during a Change in Control Period, 3.0 times the sum of (x) his annual base salary immediately prior to the termination date and (y) his target bonus for the year during which termination occurs. In addition, Mr. DeMarco will be entitled to COBRA coverage premiums for up to 18 months after such termination. Pursuant to the DeMarco Employment Agreement, Mr. DeMarco will be subject to certain restrictive covenants, including

noncompetition and non-solicitation covenants during the period of his employment with the Company and for 12 months after termination of his employment in circumstances in which he is entitled to receive severance benefits under the DeMarco Employment Agreement. The DeMarco Employment Agreement includes customary provisions relating to confidentiality, return of Company documents and property upon termination of employment, and certain other matters.

On March 13, 2019, the Board of Directors of the General Partner promoted Giovanni M. DeBari, the Company's senior vice president and corporate controller, to Chief Accounting Officer, and on March 22, 2019, the Company entered into an employment agreement (the "DeBari Employment Agreement") with Mr. DeBari. Pursuant to the DeBari Employment Agreement, Mr. DeBari will serve as the Chief Accounting Officer of the Company through December 31, 2021 (the "Term") unless Mr. DeBari's employment is earlier terminated in accordance with the DeBari Employment Agreement.

Pursuant to the DeBari Employment Agreement, Mr. DeBari will be entitled to the following compensation and benefits:

- ① an annual base salary of \$450,000, subject to potential annual merit increases (but not decreases); and
- ② an annual cash bonus opportunity to be based on performance goals to be established annually by the Compensation Committee.

Mr. DeBari will also be eligible to be granted long-term incentive or equity awards, as may be determined by the Compensation Committee in its sole discretion, under such plans and programs as may be in effect from time to time. In addition, Mr. DeBari will be entitled to customary employee benefits under the Company's health and welfare plans.

Pursuant to the DeBari Employment Agreement, in the event of a termination of Mr. DeBari's employment on account of death or disability, Mr. DeBari (or his beneficiaries, in the case of death) will be entitled to receive his accrued and unpaid base salary, expense reimbursement and benefits under the Company's health and welfare plans through the termination date, plus a prorated portion of the annual bonus payable for the year of such termination.

In the event of a termination of Mr. DeBari's employment without "Cause" or by Mr. DeBari for "Good Reason" during the Term or thereafter during a "Change in Control Period" (each as defined in the DeBari Employment Agreement), subject to Mr. DeBari signing a release in customary form, he will be entitled to the same benefits as in the event of a termination due to death or disability, plus a lump sum cash payment equal to 1.5 times the sum of (a) his annual base salary immediately prior to the termination date and (b) his target bonus for the year during which termination occurs. In addition, Mr. DeBari will be entitled to COBRA coverage premiums for up to 18 months after such termination.

Pursuant to the DeBari Employment Agreement, Mr. DeBari will be subject to certain restrictive covenants, including non-competition and non-solicitation covenants during the period of his employment with the Company and for 12 months after termination of his employment in circumstances in which he is entitled to receive severance benefits under the DeBari Employment Agreement. The DeBari Employment Agreement includes customary provisions relating to confidentiality, return of Company documents and property upon termination of employment, and certain other matters.

OTHER

Through February 2016, the Company could not dispose of or distribute certain of its properties, which were originally contributed by certain unrelated common unitholders of the Operating Partnership, without the express written consent of such common unitholders, as applicable, except in a manner which did not result in recognition of any built-in-gain (which may result in an income tax liability) or which reimbursed the appropriate specific common unitholders for the tax consequences of the recognition of such built-in-gains (collectively, the "Property Lock-Ups"). Upon the expiration in February 2016 of the Property Lock-Ups, the Company is generally required to use commercially reasonable efforts to prevent any sale, transfer or other disposition of the subject properties from resulting in the recognition of built-in gain to the specific common unitholders, which include members of the Mack Group (which includes William L. Mack, Chairman of the General Partner's Board of Directors; David S. Mack, a former director; and Earle I. Mack, a former director), the Robert Martin Group, and the Cali Group (which includes John R. Cali, a former director). As of December 31, 2019, after the effects of tax-free exchanges on certain of the originally contributed properties, either wholly or partially, over time, 27 of the Company's properties, as well as certain land and development projects, including properties classified as held for sale as of December 31, 2019, with an aggregate carrying value of approximately \$1.9 billion, are subject to these conditions.

14. TENANT LEASES

The Properties are leased to tenants under operating leases with various expiration dates through 2036. Substantially all of the commercial leases provide for annual base rents plus recoveries and escalation charges based upon the tenant's proportionate share of and/or increases in real estate taxes and certain operating costs, as defined, and the pass-through of charges for electrical usage.

Future minimum rentals to be received under non-cancelable commercial operating leases (excluding properties classified as discontinued operations) at December 31, 2019 are as follows (*dollars in thousands*):

Year	As of December 31, 2019	
		Amount
2020	\$	115,418
2021		107,027
2022		103,417
2023		99,544
2024		88,082
2025 and thereafter		488,305
Total	\$	1,001,793

Year	As of December 31, 2018	
		Amount
2019	\$	314,708
2020		306,559
2021		284,120
2022		258,076
2023		220,533
2024 and thereafter		923,061
Total	\$	2,307,057

Multi-family rental property residential leases are excluded from the above table as they generally expire within one year.

15. REDEEMABLE NONCONTROLLING INTERESTS

The Company evaluates the terms of the partnership units issued in accordance with the FASB's Distinguishing Liabilities from Equity guidance. Units which embody an unconditional obligation requiring the Company to redeem the units for cash after a specified or determinable date (or dates) or upon the occurrence of an event that is not solely within the control of the issuer are determined to be contingently redeemable under this guidance and are included as Redeemable noncontrolling interests and classified within the mezzanine section between Total liabilities and Stockholders' equity on the Company's Consolidated Balance Sheets. Convertible units for which the Company has the option to settle redemption amounts in cash or Common Stock are included in the caption Noncontrolling interests in subsidiaries within the equity section on the Company's Consolidated Balance Sheet.

Rockpoint Transaction

On February 27, 2017, the Company, Roseland Residential Trust ("RRT"), the Company's subsidiary through which the Company conducts its multi-family residential real estate operations, Roseland Residential, L.P. ("RRLP"), the operating partnership through which RRT conducts all of its operations, and certain other affiliates of the Company entered into a preferred equity investment agreement (the "Original Investment Agreement") with certain affiliates of Rockpoint Group, L.L.C. (Rockpoint Group, L.L.C. and its affiliates, collectively, "Rockpoint"). The Original Investment Agreement provided for RRT to contribute property to RRLP in exchange for common units of limited partnership interests in RRLP (the "Common Units") and for multiple equity investments by Rockpoint in RRLP from time to time for up to an aggregate of \$300 million of preferred units of limited partnership interests in RRLP (the "Preferred Units"). The initial closing under the Original Investment Agreement occurred on March 10, 2017 for \$150 million of Preferred Units and the parties agreed that the Company's contributed equity value ("RRT Contributed Equity Value"), was \$1.23 billion at closing. During the year ended December 31, 2018, a total additional amount of \$105 million of Preferred Units were issued and sold to Rockpoint pursuant to the Original Investment Agreement. During the three months ended March 31, 2019, a total additional amount of \$45 million of Preferred Units were issued and sold to Rockpoint pursuant to the Original Investment Agreement, which brought the Preferred Units to the full balance of \$300 million. In addition, certain contributions of property to RRLP by RRT subsequent to the execution of the Original Investment Agreement resulted in RRT being issued approximately \$46 million of Preferred Units and Common Units in RRLP prior to June 26, 2019.

On June 26, 2019, the Company, RRT, RRLP, certain other affiliates of the Company and Rockpoint entered into an additional preferred equity investment agreement (the “Add On Investment Agreement”). The closing under the Add On Investment Agreement occurred on June 28, 2019. Pursuant to the Add On Investment Agreement, Rockpoint invested an additional \$100 million in Preferred Units and the Company and RRT agreed to contribute to RRLP two additional properties located in Jersey City, New Jersey. In addition, Rockpoint has a right of first refusal to invest another \$100 million in Preferred Units in the event RRT determines that RRLP requires additional capital prior to March 1, 2023 and, subject thereto, RRLP may issue up to approximately \$154 million in Preferred Units to RRT or an affiliate so long as at the time of such funding RRT determines in good faith that RRLP has a valid business purpose to use such proceeds. Included in general and administrative expenses for the year ended December 31, 2019 were \$371,000 in fees associated with the modifications of the Original Investment Agreement, which were made upon signing of the Add On Investment Agreement.

Under the terms of the new transaction with Rockpoint, the cash flow from operations of RRLP will be distributable to Rockpoint and RRT as follows:

- ① first, to provide a 6% annual return to Rockpoint and RRT on their capital invested in Preferred Units (the “Preferred Base Return”);
- ② second, 95.36% to RRT and 4.64% to Rockpoint until RRT has received a 6% annual return (the “RRT Base Return”) on the equity value of the properties contributed by it to RRLP in exchange for Common Units (previously 95% and 5%, respectively, under the Original Investment Agreement), subject to adjustment in the event RRT contributes additional property to RRLP in the future; and
- ③ third, pro rata to Rockpoint and RRT based on total respective capital invested in and contributed equity value of Preferred Units and Common Units (based on Rockpoint’s \$400 million of invested capital at December 31, 2019, this pro rata distribution would be approximately 21.89% to Rockpoint in respect of Preferred Units, 2.65% to RRT in respect of Preferred Units and 75.46% to RRT in respect of Common Units).

RRLP’s cash flow from capital events will generally be distributable by RRLP to Rockpoint and RRT as follows:

- ① first, to Rockpoint and RRT to the extent there is any unpaid, accrued Preferred Base Return;
- ② second, as a return of capital to Rockpoint and to RRT in respect of Preferred Units;
- ③ third, 95.36% to RRT and 4.64% to Rockpoint until RRT has received the RRT Base Return in respect of Common Units (previously 95% and 5%, respectively, under the Original Investment Agreement), subject to adjustment in the event RRT contributes additional property to RRLP in the future;
- ④ fourth, 95.36% to RRT and 4.64% to Rockpoint until RRT has received a return of capital based on the equity value of the properties contributed by it to RRLP in exchange for Common Units (previously 95% and 5%, respectively, under the Original Investment Agreement), subject to adjustment in the event RRT contributes additional property to the capital of RRLP in the future;
- ⑤ fifth, pro rata to Rockpoint and RRT based on respective total capital invested in and contributed equity value of Preferred and Common Units until Rockpoint has received an 11% internal rate of return (based on Rockpoint’s \$400 million of invested capital at December 31, 2019, this pro rata distribution would be approximately 21.89% to Rockpoint in respect of Preferred Units, 2.65% to RRT in respect of Preferred Units and 75.46% to RRT in respect of Common Units); and
- ⑥ sixth, to Rockpoint and RRT in respect of their Preferred Units based on 50% of their pro rata shares described in “fifth” above and the balance to RRT in respect of its Common Units (based on Rockpoint’s \$400 million of invested capital at December 31, 2019, this pro rata distribution would be approximately 10.947% to Rockpoint in respect of Preferred Units, 1.325% to RRT in respect of Preferred Units and 87.728% to RRT in respect of Common Units).

In general, RRLP may not sell its properties in taxable transactions, although it may engage in tax-deferred like-kind exchanges of properties or it may proceed in another manner designed to avoid the recognition of gain for tax purposes.

In connection with the Add On Investment Agreement, on June 26, 2019, RRT increased the size of its board of trustees from six to seven persons, with five trustees being designated by the Company and two trustees being designated by Rockpoint.

In addition, as was the case under the Original Investment Agreement, RRT and RRLP are required to obtain Rockpoint’s consent with respect to:

- ① debt financings in excess of a 65% loan-to-value ratio;
- ② corporate level financings that are pari-passu or senior to the Preferred Units;
- ③ new investment opportunities to the extent the opportunity requires an equity capitalization in excess of 10% of RRLP’s NAV;
- ④ new investment opportunities located in a Metropolitan Statistical Area where RRLP owns no property as of the previous quarter;

- ① declaration of bankruptcy of RRT;
- ② transactions between RRT and the Company, subject to certain limited exceptions;
- ③ any equity granted or equity incentive plan adopted by RRLP or any of its subsidiaries; and
- ④ certain matters relating to the Credit Enhancement Note (as defined below) between the Company and RRLP (other than ordinary course borrowings or repayments thereunder).

Under a Discretionary Demand Promissory Note (the “Credit Enhancement Note”), the Company may provide periodic cash advances to RRLP. The Credit Enhancement Note provides for an interest rate equal to the London Inter-Bank Offered Rate plus fifty (50) basis points above the applicable interest rate under the Company’s unsecured revolving credit facility. The maximum aggregate principal amount of advances at any one time outstanding under the Credit Enhancement Note is limited to \$50 million, an increase of \$25 million from the prior transaction.

RRT and RRLP also have agreed, as was the case under the Original Investment Agreement, to register the Preferred Units under certain circumstances in the future in the event RRT or RRLP becomes a publicly traded company.

During the period commencing on June 28, 2019 and ending on March 1, 2023 (the “Lockout Period”), Rockpoint’s interest in the Preferred Units cannot be redeemed or repurchased, except in connection with (a) a sale of all or substantially all of RRLP or a sale of a majority of the then-outstanding interests in RRLP, in each case, which sale is not approved by Rockpoint, or (b) a spin-out or initial public offering of common stock of RRT, or distributions of RRT equity interests by the Company or its affiliates to shareholders or their respective parent interestholders (an acquisition pursuant clauses (a) or (b) above, an “Early Purchase”). RRT has the right to acquire Rockpoint’s interest in the Preferred Units in connection with an Early Purchase for a purchase price generally equal to (i) the amount that Rockpoint would receive upon the sale of the assets of RRLP for fair market value and a distribution of the net sale proceeds in accordance with (A) the capital event distribution priorities discussed above (in the case of certain Rockpoint Preferred Holders) and (B) the distribution priorities applicable in the case of a liquidation of RRLP (in the case of the other Rockpoint Preferred Holder), plus (ii) a make whole premium (such purchase price, the “Purchase Payment”). The make whole premium is an amount equal to (i) \$173.5 million until December 28, 2020, or \$198.5 million thereafter, less distributions theretofore made to Rockpoint with respect to its Preferred Base Return or any deficiency therein, plus (ii) \$1.5 million less certain other distributions theretofore made to Rockpoint.

The fair market value of RRLP’s assets is determined by a third party appraisal of the net asset value (“NAV”) of RRLP and the fair market value of RRLP’s assets, to be completed within ninety (90) calendar days of March 1, 2023 and annually thereafter.

After the Lockout Period, either RRT may acquire from Rockpoint, or Rockpoint may sell to RRT, all, but not less than all, of Rockpoint’s interest in the Preferred Units (each, a “Put/Call Event”) for a purchase price equal to the Purchase Payment (determined without regard to the make whole premium and any related tax allocations). An acquisition of Rockpoint’s interest in the Preferred Units pursuant to a Put/Call Event is generally required to be structured as a purchase of the common equity in the applicable Rockpoint entities holding direct or indirect interests in the Preferred Units. Subject to certain exceptions, Rockpoint also has a right of first offer and a participation right with respect to other common equity interests of RRLP or any subsidiary of RRLP that may be offered for sale by RRLP or its subsidiaries from time to time. Upon a Put/Call Event, other than in the event of a sale of RRLP, Rockpoint may elect to convert all, but not less than all, of its Preferred Units to Common Units in RRLP.

As such, the Preferred Units contain a substantive redemption feature that is outside of the Company’s control and accordingly, pursuant to ASC 480-1—S99-3A, the Preferred Units are classified in mezzanine equity measured based on the estimated future redemption value as of December 31, 2019. The Company determines the redemption value of these interests by hypothetically liquidating the estimated NAV of the RRT real estate portfolio including debt principal through the applicable waterfall provisions of the new transaction with Rockpoint. The estimation of NAV includes unobservable inputs that consider assumptions of market participants in pricing the underlying assets of RRLP. For properties under development, the Company applies a discount rate to the estimated future cash flows allocable to the Company during the period under construction and then applies a direct capitalization method to the estimated stabilized cash flows. For operating properties, the direct capitalization method is used by applying a capitalization rate to the projected net operating income. For developable land holdings, an estimated per-unit market value assumption is considered based on development rights for the land. Estimated future cash flows used in such analyses are based on the Company’s business plan for each respective property including capital expenditures, management’s views of market and economic conditions, and considers items such as current and future rental rates, occupancies and market transactions for comparable properties. The estimated future redemption value of the Preferred Units is approximately \$490 million as of December 31, 2019.

Preferred Units

On February 3, 2017, the Operating Partnership issued 42,800 shares of a new class of 3.5 percent Series A Preferred Limited Partnership

[Table of Contents](#)

Units of the Operating Partnership (the “Series A Units”). The Series A Units were issued to the Company’s partners in the Plaza VIII & IX Associates L.L.C. joint venture that owns a development site adjacent to the Company’s Harborside property in Jersey City, New Jersey as non-cash consideration for their approximate 37.5 percent interest in the joint venture.

Each Series A Unit has a stated value of \$1,000, pays dividends quarterly at an annual rate of 3.5 percent (subject to increase under certain circumstances), is convertible into 28.15 common units of limited partnership interests of the Operating Partnership beginning generally five years from the date of issuance, or an aggregate of up to 1,204,820 common units. The conversion rate was based on a value of \$35.52 per common unit. The Series A Units have a liquidation and dividend preference senior to the common units and include customary anti-dilution protections for stock splits and similar events. The Series A Units are redeemable for cash at their stated value beginning five years from the date of issuance at the option of the holder.

On February 28, 2017, the Operating Partnership authorized the issuance of 9,213 shares of a new class of 3.5 percent Series A-1 Preferred Limited Partnership Units of the Operating Partnership (the “Series A-1 Units”). 9,122 Series A-1 Units were issued on February 28, 2017 and an additional 91 Series A-1 Units were issued in April 2017 pursuant to acquiring additional interests in a joint venture that owns Monaco Towers in Jersey City, New Jersey. The Series A-1 Units were issued as non-cash consideration for the partner’s approximate 13.8 percent ownership interest in the joint venture.

Each Series A-1 Unit has a stated value of \$1,000 (the “Stated Value”), pays dividends quarterly at an annual rate equal to the greater of (x) 3.5 percent, or (y) the then-effective annual dividend yield on the General Partner’s common stock, and is convertible into 27.936 common units of limited partnership interests of the Operating Partnership beginning generally five years from the date of issuance, or an aggregate of up to 257,375 Common Units. The conversion rate was based on a value of \$35.80 per common unit. The Series A-1 Units have a liquidation and dividend preference senior to the Common Units and include customary anti-dilution protections for stock splits and similar events. The Series A-1 Units are redeemable for cash at their stated value beginning five years from the date of issuance at the option of the holder. The Series A-1 Units are pari passu with the 42,800 3.5% Series A Units issued on February 3, 2017.

The following table sets forth the changes in Redeemable noncontrolling interests for the year ended December 31, 2019 (*dollars in thousands*):

16. MACK-CALI REALTY CORPORATION STOCKHOLDERS' EQUITY AND MACK-CALI REALTY, L.P.'S PARTNERS' CAPITAL

To maintain its qualification as a REIT, not more than 50 percent in value of the outstanding shares of the General Partner may be owned, directly or indirectly, by five or fewer individuals at any time during the last half of any taxable year of the General Partner, other than its initial taxable year (defined to include certain entities), applying certain constructive ownership rules. To help ensure that the General Partner will not fail this test, the General Partner's Charter provides, among other things, certain restrictions on the transfer of common stock to prevent further concentration of stock ownership. Moreover, to evidence compliance with these requirements, the General Partner must maintain records that disclose the actual ownership of its outstanding common stock and demands written statements each year from the holders of record of designated percentages of its common stock requesting the disclosure of the beneficial owners of such common stock.

Partners' Capital in the accompanying consolidated financial statements relates to (a) General Partners' capital consisting of common units in the Operating Partnership held by the General Partner, and (b) Limited Partners' capital consisting of common units and LTIP units held by the limited partners. See Note 17: Noncontrolling Interests in Subsidiaries.

Any transactions resulting in the issuance of additional common and preferred stock of the General Partner result in a corresponding issuance by the Operating Partnership of an equivalent amount of common and preferred units to the General Partner.

SHARE/UNIT REPURCHASE PROGRAM

In September 2012, the Board of Directors of the General Partner renewed and authorized an increase to the General Partner's repurchase program ("Repurchase Program"). The General Partner has authorization to repurchase up to \$150 million of its outstanding common stock under the renewed Repurchase Program, which it may repurchase from time to time in open market transactions at prevailing prices or through privately negotiated transactions. As of December 31, 2019, the General Partner has repurchased and retired 394,625 shares of its outstanding common stock for an aggregate cost of approximately \$11 million (all of which occurred in the year ended December 31, 2012), with a remaining authorization under the Repurchase Program of \$139 million. Concurrent with these repurchases, the General Partner sold to the Operating Partnership common units for approximately \$11 million.

DIVIDEND REINVESTMENT AND STOCK PURCHASE PLAN

The General Partner has a Dividend Reinvestment and Stock Purchase Plan (the "DRIP") which commenced in March 1999 under which approximately 5.5 million shares of the General Partner's common stock have been reserved for future issuance. The DRIP provides for automatic reinvestment of all or a portion of a participant's dividends from the General Partner's shares of common stock. The DRIP also permits participants to make optional cash investments up to \$5,000 a month without restriction and, if the Company waives this limit, for additional amounts subject to certain restrictions and other conditions set forth in the DRIP prospectus filed as part of the Company's effective registration statement on Form S-3 filed with the SEC for the approximately 5.5 million shares of the General Partner's common stock reserved for issuance under the DRIP.

STOCK OPTION PLANS

In May 2013, the General Partner established the 2013 Incentive Stock Plan (the "2013 Plan") under which a total of 4,600,000 shares have been reserved for issuance.

On June 5, 2015, in connection with employment agreements entered into with each of Messrs. Rudin and DeMarco (together, the "Executive Employment Agreements"), the Company granted options to purchase a total of 800,000 shares of the General Partner's common stock, exercisable for a period of ten years with an exercise price equal to the closing price of the General Partner's common stock on the grant date of \$17.31 per share, with 400,000 of such options vesting in three equal annual installments commencing on the first anniversary of the grant date ("Time Vesting Options") and fully vesting on June 5, 2018, and 400,000 of such options vesting if the General Partner's common stock traded at or above \$25.00 per share for 30 consecutive trading days while the executive is employed ("Price Vesting Options"), or on or before June 30, 2019, subject to certain conditions. The Price Vesting Options vested on July 5, 2016 on account of the price vesting condition being achieved.

Information regarding the Company’s stock option plans is summarized below:

	Shares Under Options		Weighted Average Exercise Price	Aggregate Intrinsic Value \$(000’s)
Outstanding at January 1, 2017 (\$17.31)	800,000	\$	17.31	\$ 9,368

Options exercisable at December 31, 2019	800,000			
Available for grant at December 31, 2019	709,246			

There were no stock options exercised under any stock option plans for the years ended December 31, 2019, 2018 and 2017. The Company has a policy of issuing new shares to satisfy stock option exercises.

As of December 31, 2019 and 2018, the stock options outstanding had a weighted average remaining contractual life of approximately 5.4 years and 6.4 years, respectively.

The Company recognized stock options expense of zero, \$193,000 and \$464,000 for the years ended December 31, 2019, 2018 and 2017, respectively.

AO LTIP UNITS (Appreciation-Only LTIP Units)

Pursuant to the terms of the DeMarco Employment Agreement (see Note 12: Commitments and Contingencies-Executive Employment Agreements), the Company entered into an AO Long-Term Incentive Plan Award Agreement (the “AO LTIP Award Agreement”) with Mr. DeMarco on March 13, 2019 that provided for the grant to Mr. DeMarco of 625,000 AO LTIP Units. AO LTIP Units are a class of partnership interests in the Operating Partnership that are intended to qualify as “profits interests” for federal income tax purposes and generally only allow the recipient to realize value to the extent the fair market value of a share of Common Stock exceeds the threshold level set at the time the AO LTIP Units are granted, subject to any vesting conditions applicable to the award. The threshold level was fixed at \$21.46 in the AO LTIP Award Agreement, the closing price of the Common Stock as reported on the New York Stock Exchange (the “NYSE”) on the date of grant. The value of vested AO LTIP Units is realized through conversion of the AO LTIP Units into common units of limited partnership interests of the Operating Partnership (the “Common Units”). The number of Common Units into which vested AO LTIP Units may be converted is determined based on the quotient of (i) the excess of the fair market value of the Common Stock on the conversion date over the threshold level designated at the time the AO LTIP Unit was granted (i.e., \$21.46), divided by (ii) the fair market value of the Common Stock on the conversion date. AO LTIP Units, once vested, have a finite term during which they may be converted into Common Units, within ten years from the grant date of the AO LTIP Units or they are forfeited. In addition, the AO LTIP Units issued to Mr. DeMarco are subject to the following vesting conditions:

(i) 250,000 of the AO LTIP Units shall vest and become exercisable on the earliest date on which the closing price of the Common Stock, as reported on the NYSE, or if the Common Stock is not then traded on the NYSE, then the closing price of the Common Stock on any other securities exchange on which the Common Stock is traded or quoted (the “Securities Market”), has been equal to or greater than \$25.00 per share for at least 30 consecutive trading days, provided that such date occurs prior to March 13, 2023 (the “Outside Date”);

(ii) an additional 250,000 of the AO LTIP Units shall vest and become exercisable on the earliest date on which the closing price of the Common Stock, as reported on the NYSE, or if the Common Stock is not then traded on the NYSE, then the closing price of the Common Stock on the Securities Market, has been equal to or greater than \$28.00 per share for at least 30 consecutive trading days, provided that such date occurs prior to the Outside Date; and

(iii) an additional 125,000 of the AO LTIP Units shall vest and become exercisable on the earliest date on which the closing price of the Common Stock, as reported on the NYSE, or if the Common Stock is not then traded on the NYSE, then the closing price of the Common Stock on the Securities Market, has been equal to or greater than \$31.00 per share for at least 30 consecutive trading days, provided that such date occurs prior to the Outside Date.

Mr. DeMarco will generally receive special income allocations in respect of an AO LTIP Unit equal to 10 percent (or such other percentage specified in the applicable award agreement) of the income allocated in respect of a Common Unit. Upon conversion of AO LTIP Units to Common Units, Mr. DeMarco will be entitled to receive in respect of each such AO LTIP Unit, on a per unit basis, a special cash distribution equal to 10% (or such other percentage specified in the applicable award agreement) of the distributions received by a holder of an equivalent number of Common Units during the period from the grant date of the AO LTIP Units through the date of conversion. The Company has reserved shares of common stock under the 2013 Plan for issuance upon vesting and conversion of the AO LTIP Units in accordance with their terms and conditions.

The weighted average fair value of the AO LTIP Units granted during the year ended December 31, 2019 was \$3.98 per AO LTIP Unit. The fair value of each AO LTIP Unit grant is estimated on the date of grant using the Monte Carlo method. The following weighted average assumptions are included in the Company's fair value calculations of AO LTIP Units granted during the year ended December 31, 2019:

	AO LTIP Units
Expected life (in years)	5.5 - 6.0
Risk-free interest rate	2.6 %
Volatility	29.0 %
Dividend yield	3.5 %

As of December 31, 2019, the Company had \$2.0 million of total unrecognized compensation cost related to unvested AO LTIP Units granted under the Company's stock compensation plans. That cost is expected to be recognized over a remaining weighted average period of 3.2 years. The Company recognized AO LTIP unit expense of \$498,000 and zero for the years ended December 31, 2019 and 2018, respectively.

RESTRICTED STOCK AWARDS

The Company has issued stock awards ("Restricted Stock Awards") to officers, certain other employees and non-employee members of the Board of Directors of the General Partner, which allow the holders to each receive a certain amount of shares of the General Partner's common stock generally over a one to seven-year vesting period, of which 42,690 unvested shares were legally outstanding at December 31, 2019. Vesting of the Restricted Stock Awards is based on time and service.

On June 5, 2015, in connection with the new executive employment agreements signed at that time, the Company granted a total of 37,550.54 Restricted Stock Awards, which were valued in accordance with ASC 718 – Stock Compensation, at their fair value. These awards vested equally over a three year period on each annual anniversary date of the grant date.

All currently outstanding and unvested Restricted Stock Awards provided to the officers, certain other employees, and members of the Board of Directors of the General Partner were issued under the 2013 Plan.

Information regarding the Restricted Stock Awards grant activity is summarized below:

	Shares		Weighted-Average Grant – Date Fair Value
Outstanding at January 1, 2017	145,278	\$	21.76
Granted	59,985		27.00
Vested	(95,009)		20.73
Forfeited	(1,936)		25.83
Outstanding at December 31, 2017	108,318	\$	25.49
Granted	40,185		20.16

Forfeited	(8,712)		25.83
Outstanding at December 31, 2018	67,289	\$	22.43
Granted	42,690		21.08
Vested	(65,353)		22.34
Cancelled	(1,936)		25.83
Outstanding at December 31, 2019	42,690	\$	21.08

As of December 31, 2019, the Company had \$0.8 million of total unrecognized compensation cost related to unvested Restricted Stock Awards granted under the Company's stock compensation plans. That cost is expected to be recognized over a weighted average period of 0.4 years.

PERFORMANCE SHARE UNITS

On June 5, 2015, in connection with the new executive employment agreements signed at that time, the Company granted a total of 112,651.64 performance share units ("PSUs") which was to vest from 0 to 150 percent of the number of PSUs granted based on the Company's total shareholder return relative to a peer group of equity office REITs over a three year performance period starting from the grant date, each PSU evidencing the right to receive a share of the General Partner's common stock upon vesting. The PSUs were also entitled to the payment of dividend equivalents in respect of vested PSUs in the form of additional PSUs. The PSUs were valued in accordance with ASC 718, Compensation - Stock Compensation, at their fair value on the grant date, utilizing a Monte-Carlo simulation to estimate the probability of the vesting conditions being satisfied.

The PSUs vested at 100 percent on June 5, 2018 based on the calculation of the achievement of the Company's total shareholder return, for which shares of the General Partner's common stock were issued under the 2013 Plan.

As of December 31, 2019, the Company had no unrecognized compensation cost as there are no unvested PSUs outstanding under the Company's stock compensation plans.

LONG-TERM INCENTIVE PLAN AWARDS

On March 8, 2016, the Company granted Long-Term Incentive Plan ("LTIP") awards to senior management of the Company, including the General Partner's executive officers (the "2016 LTIP Awards"). All of the 2016 LTIP Awards were in the form of units in the Operating Partnership ("LTIP Units") and constitute awards under the 2013 Plan. For Messrs. Rudin, DeMarco and Tycher, approximately 25 percent of the target 2016 LTIP Award was in the form of a time-based award that vested after three years on March 8, 2019 (the "2016 TBV LTIP Units"), and the remaining approximately 75 percent of the target 2016 LTIP Award was in the form of a performance-based award under a new Outperformance Plan (the "2016 OPP") adopted by the General Partner's Board of Directors consisting of a multi-year, performance-based equity compensation plan and related forms of award agreement (the "2016 PBV LTIP Units"). For all other executive officers, approximately 40 percent of the target 2016 LTIP Award was in the form of 2016 TBV LTIP Units and the remaining approximately 60 percent of the target 2016 LTIP Award was in the form of 2016 PBV LTIP Units. The 2016 TBV LTIP Units vested on March 8, 2019.

The 2016 OPP was designed to align the interests of senior management to relative and absolute performance of the Company over a three year performance period from March 8, 2016 through March 7, 2019. Participants in the 2016 OPP would only earn the full awards if, over the three year performance period, the Company achieves a 50 percent absolute total stockholder return ("TSR") and if the Company is in the 75th percentile of performance versus the NAREIT Office Index. As the targets for vesting were not achieved, the 2016 PBV LTIP Units did not vest and were forfeited.

On April 4, 2017, the Company granted LTIP awards to senior management of the Company, including the General Partner's executive officers (the "2017 LTIP Awards"). All of the 2017 LTIP Awards were in the form of LTIP Units and constitute awards under the 2013 Plan. For Messrs. DeMarco, Tycher and Rudin, approximately twenty-five percent (25%) of the 2017 LTIP Award was in the form of a time-based award that vests after three years on April 4, 2020 (the "2017 TBV LTIP Units"), and the remaining approximately seventy-five percent (75%) of the 2017 LTIP Award was in the form of a performance-based award under the Company's Outperformance Plan (the "2017 OPP") adopted by the General Partner's Board of Directors, consisting of a multi-year, performance-based equity compensation plan and related forms of award agreement (the "2017 PBV LTIP Units"). For all other executive officers, approximately forty percent (40%) of the 2017 LTIP Award was in the form of 2017 TBV LTIP Units and the remaining approximately sixty percent (60%) of the 2017 LTIP Award was in the form of 2017 PBV LTIP Units.

The 2017 OPP was designed to align the interests of senior management to relative and absolute performance of the Company over a three-year performance period from April 4, 2017 through April 3, 2020. Participants in the 2017 OPP will only earn the full awards if, over the three year performance period, the Company achieves a thirty-six percent (36%) absolute TSR and if the Company is in the 75th percentile of performance as compared to the NAREIT office index.

On April 20, 2018, the Company granted LTIP awards to senior management of the Company, including the General Partner's executive officers (the "2018 LTIP Awards"). All of the 2018 LTIP Awards were in the form of LTIP Units and constitute awards under the 2013 Plan. For Messrs. DeMarco and Tycher, approximately twenty-five percent (25%) of the grant date fair value of the 2018 LTIP Award was in the form of a time-based award that vests after three years on April 20, 2021 (the "2018 TBV LTIP Units"), and the remaining

approximately seventy-five percent (75%) of the grant date fair value of the 2018 LTIP Award was in the form of a performance-based award under the Company's Outperformance Plan (the "2018 OPP") adopted by the General Partner's Board of Directors, consisting of a multi-year, performance-based equity compensation plan and related forms of award agreement (the "2018 PBV LTIP Units"). For all other executive officers, approximately fifty percent (50%) of the grant date fair value of the 2018 LTIP Award was in the form of 2018 TBV LTIP Units and the remaining approximately fifty percent (50%) of the grant date fair value of the 2018 LTIP Award was in the form of 2018 PBV LTIP Units.

The 2018 OPP was designed to align the interests of senior management to relative and absolute performance of the Company over a three year performance period from April 20, 2018 through April 19, 2021. Participants in the 2018 OPP will only earn the full awards if, over the three-year performance period, the Company achieves a thirty-six percent (36%) absolute TSR and if the Company's TSR is in the 75th percentile of performance as compared to the office REITs in the NAREIT index.

On March 22, 2019, the Company granted LTIP awards to senior management of the Company, including the General Partner's executive officers (the "2019 LTIP Awards"). All of the 2019 LTIP Awards were in the form of LTIP Units and constitute awards under the 2013 Plan. For Mr. DeMarco, approximately 25 percent of the target 2019 LTIP Awards were in the form of time-based LTIP Units that vest after three years on March 22, 2022 (the "2019 TBV LTIP Units"), and the remaining approximately 75 percent of the grant date fair value of his 2019 LTIP Award will be in the form of performance-based LTIP Units under the Company's Outperformance Plan (the "2019 OPP") adopted by the General Partner's Board of Directors, consisting of a multi-year, performance-based equity compensation plan and related forms of award agreement (the "2019 PBV LTIP Units"). For Messrs. Tycher, Smetana, Wagner, Cardoso and Hilton, fifty percent (50%) of the grant date fair value of their respective 2019 LTIP Awards is in the form of 2019 TBV LTIP Units and the remaining fifty percent (50%) of the grant date fair value of their respective 2019 LTIP Awards is in the form of 2019 PBV LTIP Units. Mr. DeBari, who was promoted to Chief Accounting Officer on March 13, 2019, received 100 percent of his 2019 LTIP Award in the form of 2019 TBV LTIP Units.

The 2019 OPP was designed to align the interests of senior management to relative and absolute performance of the Company over a three year performance period from March 22, 2019 through March 21, 2022. Participants of performance-based awards in the 2019 OPP will only earn the full awards if, over the three year performance period, the Company achieves a thirty-six percent (36%) absolute total stockholder return ("TSR") and if the Company's TSR is in the 75th percentile of performance as compared to the office REITs in the NAREIT index.

LTIP Units will remain subject to forfeiture depending on the extent that the 2017 LTIP Awards, 2018 LTIP Awards and 2019 LTIP Awards vest. The number of LTIP Units to be issued initially to recipients of the 2017 PBV LTIP Awards, 2018 PBV LTIP Awards and 2019 PBV LTIP Awards is the maximum number of LTIP Units that may be earned under the awards. The number of LTIP Units that actually vest for each award recipient will be determined at the end of the performance measurement period. TSR for the Company and for the Index over the three-year measurement period and other circumstances will determine how many LTIP Units vest for each recipient; if they are fewer than the number issued initially, the balance will be forfeited as of the performance measurement date.

Prior to vesting, recipients of LTIP Units will be entitled to receive per unit distributions equal to one-tenth (10 percent) of the regular quarterly distributions payable on a Common Unit, but will not be entitled to receive any special distributions. Distributions with respect to the other nine-tenths (90 percent) of regular quarterly distributions payable on a common unit will accrue but shall only become payable upon vesting of the LTIP Unit. After vesting of the 2017 TBV LTIP Units, 2018 LTIP TBV Units and 2019 LTIP TBV Units or the end of the measurement period for the 2017 PBV LTIP Units, 2018 LTIP PBV Units and 2019 LTIP PBV Units, the number of LTIP Units, both vested and unvested, will be entitled to receive distributions in an amount per unit equal to distributions, both regular and special, payable on a Common Unit.

As a result of targets not being achieved or management and other personnel changes during the year ended December 31, 2019, the employees forfeited and cancelled 354,422 2016 LTIP Awards, 1,792 2017 LTIP Awards and 3,540 2018 LTIP Awards. As of December 31, 2019, a total of 11,155 2016 PBV LTIP Units, 79,266 2016 TBV LTIP Units, 390,654 2017 PBV LTIP Units, 80,434 2017 TBV LTIP Units, 629,252 2018 PBV LTIP Units, 193,217 2018 TBV LTIP Units, 392,476 2019 PBV LTIP Units and 173,147 2019 TBV LTIP Units, net of LTIP Units forfeited and cancelled, were outstanding. The LTIP Units were valued in accordance with ASC 718 – Stock Compensation, at their fair value. The Company has reserved shares of common stock under the 2013 Plan for issuance upon vesting and conversion of the LTIP Units in accordance with their terms and conditions.

As of December 31, 2019, the Company had \$12.3 million of total unrecognized compensation cost related to unvested LTIP awards granted under the Company's stock compensation plans. That cost is expected to be recognized over a weighted average period of 2.2 years.

DEFERRED STOCK COMPENSATION PLAN FOR DIRECTORS

The Amended and Restated Deferred Compensation Plan for Directors, which commenced January 1, 1999, allows non-employee directors of the Company to elect to defer up to 100 percent of their annual retainer fee into deferred stock units. The deferred stock units are convertible into an equal number of shares of common stock upon the directors' termination of service from the Board of Directors or a change in control of the Company, as defined in the plan. Pursuant to the termination of service of five directors from the Board of Directors on June 12, 2019, the Company converted 193,949 deferred stock units into shares of common stock. Deferred stock units are credited to each director quarterly using the closing price of the Company's common stock on the applicable dividend record date for the respective quarter. Each participating director's account is also credited for an equivalent amount of deferred stock units based on the dividend rate for each quarter.

During the years ended December 31, 2019, 2018 and 2017, 14,337, 26,620 and 19,728 deferred stock units were earned, respectively. As of December 31, 2019 and 2018, there were 59,899 and 236,383 deferred stock units outstanding, respectively.

EARNINGS PER SHARE/UNIT

Basic EPS or EPU excludes dilution and is computed by dividing net income available to common shareholders or unitholders by the weighted average number of shares or units outstanding for the period. Diluted EPS or EPU reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. In the calculation of basic and diluted EPS and EPU, a redemption value adjustment of redeemable noncontrolling interests attributable to common shareholders or unitholders is included in the calculation to arrive at the numerator of net income (loss) available to common shareholders or unitholders.

The following information presents the Company's results for the years ended December 31, 2019, 2018 and 2017 in accordance with ASC 260, Earnings Per Share (*dollars in thousands, except per share amounts*):

17. NONCONTROLLING INTERESTS IN SUBSIDIARIES

Noncontrolling interests in subsidiaries in the accompanying consolidated financial statements relate to (i) common units (“Common Units”) and LTIP units in the Operating Partnership, held by parties other than the General Partner (“Limited Partners”), and (ii) interests in consolidated joint ventures for the portion of such ventures not owned by the Company.

Pursuant to ASC 810, Consolidation, on the accounting and reporting for noncontrolling interests and changes in ownership interests of a subsidiary, changes in a parent’s ownership interest (and transactions with noncontrolling interests unitholders in the subsidiary) while the parent retains its controlling interest in its subsidiary should be accounted for as equity transactions. The carrying value of the noncontrolling interests shall be adjusted to reflect the change in its ownership interest in the subsidiary, with the offset to equity attributable to the parent. Accordingly, as a result of equity transactions which caused changes in ownership percentages between Mack-Cali Realty Corporation stockholders’ equity and noncontrolling interests in the Operating Partnership that occurred during the year ended December 31, 2019, the Company has decreased noncontrolling interests in the Operating Partnership and increased additional paid-in capital in Mack-Cali Realty Corporation stockholders’ equity by approximately \$1.8 million as of December 31, 2019.

NONCONTROLLING INTERESTS IN OPERATING PARTNERSHIP (applicable only to General Partner)

Common Units

On March 29, 2019, 301,638 Common Units were redeemed by the Company at their fair market value of \$6.6 million as payment received for two of the properties disposed of in the Flex portfolio. During the year ended December 31, 2019, the Company also redeemed for cash 364,280 common units at their fair market value of \$7.8 million.

Certain individuals and entities own common units in the Operating Partnership. A common unit and a share of Common Stock of the General Partner have substantially the same economic characteristics in as much as they effectively share equally in the net income or loss of the Operating Partnership. Common unitholders have the right to redeem their common units, subject to certain restrictions. The redemption is required to be satisfied in shares of Common Stock, cash, or a combination thereof, calculated as follows: one share of the General Partner’s Common Stock, or cash equal to the fair market value of a share of the General Partner’s Common Stock at the time of redemption, for each common unit. The General Partner, in its sole discretion, determines the form of redemption of common units (i.e., whether a common unitholder receives Common Stock, cash, or any combination thereof). If the General Partner elects to satisfy the redemption with shares of Common Stock as opposed to cash, it is obligated to issue shares of its Common Stock to the redeeming unitholder. Regardless of the rights described above, the common unitholders may not put their units for cash to the General Partner or the Operating Partnership under any circumstances. When a unitholder redeems a common unit, noncontrolling interests in the Operating Partnership is reduced and Mack-Cali Realty Corporation Stockholders’ equity is increased.

LTIP Units

On March 8, 2016, the Company granted 2016 LTIP Awards to senior management of the Company, including the General Partner’s executive officers. On April 4, 2017, the Company granted 2017 LTIP Awards to senior management of the Company, including the General Partner’s executive officers. On April 20, 2018, the Company granted 2018 LTIP Awards to senior management of the Company, including the General Partner’s executive officers. On March 22, 2019, the Company granted 2019 LTIP Awards to senior management of the Company, including the General Partner’s executive officers. All of the 2016 LTIP Awards, 2017 LTIP Awards, 2018 LTIP Awards and 2019 LTIP Awards are in the form of units in the Operating Partnership. See Note 16: Mack-Cali Realty Corporation Stockholders’ Equity and Mack-Cali Realty, L.P.’s Partners’ Capital – Long-Term Incentive Plan Awards.

LTIP Units are designed to qualify as “profits interests” in the Operating Partnership for federal income tax purposes. As a general matter, the profits interests characteristics of the LTIP Units mean that initially they will not be economically equivalent in value to a common unit. If and when events specified by applicable tax regulations occur, LTIP Units can over time increase in value up to the point where they are equivalent to common units on a one-for-one basis. After LTIP Units are fully vested, and to the extent the special tax rules applicable to profits interests have allowed them to become equivalent in value to common units, LTIP Units may be converted on a one-for-one basis into common units. Common units in turn have a one-for-one relationship in value with shares of the General Partner’s common stock, and are redeemable on a one-for-one basis for cash or, at the election of the Company, shares of the General Partner’s common stock.

AO LTIP Units (Appreciation-Only LTIP Units)

On March 13, 2019, the Company granted 625,000 AO LTIP Units to Mr. DeMarco pursuant to the AO Long-Term Incentive Plan

[Table of Contents](#)

Award Agreement. See Note 16: Mack-Cali Realty Corporation Stockholders' Equity and Mack-Cali Realty, L.P.'s Partners' Capital – AO LTIP Units (Appreciation-Only LTIP Units).

AO LTIP Units are a class of partnership interests in the Operating Partnership that are intended to qualify as “profit interests” for federal income tax purposes and generally only allow the recipient to realize value to the extent the fair market value of a share of Common Stock exceeds the threshold level set at the time the AO LTIP Units are granted, subject to any vesting conditions applicable to the award. The value of vested AO LTIP Units is realized through conversion of the AO LTIP Units into Common Units. The number of Common Units into which vested AO LTIP Units may be converted is determined based on the quotient of (i) the excess of the fair market value of the Common Stock on the conversion date over the threshold level designated at the time the AO LTIP Unit was granted, divided by (ii) the fair market value of the Common Stock on the conversion date. AO LTIP Units, once vested, have a finite term during which they may be converted into Common Units, not in excess of ten years from the grant date of the AO LTIP Units.

Unit Transactions

The following table sets forth the changes in noncontrolling interests in subsidiaries which relate to the common units and LTIP units in the Operating Partnership for the years ended December 31, 2019, 2018 and 2017:

Noncontrolling Interests Ownership in Operating Partnership

As of December 31, 2019 and 2018, the noncontrolling interests common unitholders owned 9.6 percent and 10.2 percent of the Operating Partnership, respectively.

NONCONTROLLING INTERESTS IN CONSOLIDATED JOINT VENTURES (applicable to General Partner and Operating Partnership)

The Company consolidates certain joint ventures in which it has ownership interests. Various entities and/or individuals hold noncontrolling interests in these ventures.

Consolidated Joint Venture Activity

On March 26, 2019, the Company, which held a 90 percent controlling interest in the joint venture, XS Hotel Urban Renewal LLC, which owns a 372-key hotel (164 keys in-service Residence Inn and 208 keys in-construction Marriott Envue) located in Weehawken, New Jersey, acquired its partner's 10 percent interest for \$5 million in cash. As a result of the acquisition, the Company increased its ownership of the property to 100 percent.

PARTICIPATION RIGHTS

The Company's interests in certain real estate projects (two properties and one future development) each provide for the initial distributions of net cash flow solely to the Company, and thereafter, other parties have participation rights in 50 percent of the excess net cash flow remaining after the distribution to the Company of the aggregate amount equal to the sum of: (a) the Company's capital contributions, plus (b) an IRR of 10 percent per annum.

18. SEGMENT REPORTING

The Company operates in two business segments: (i) commercial and other real estate and (ii) multi-family real estate and services. The Company provides leasing, property management, acquisition, development, construction and tenant-related services for its commercial and other real estate and multi-family real estate portfolio. The Company's multi-family services business also provides similar services for third parties. The Company had no revenues from foreign countries recorded for the years ended December 31, 2019, 2018 and 2017. The Company had no long lived assets in foreign locations as of December 31, 2019 and 2018. The accounting policies of the segments are the same as those described in Note 2: Significant Accounting Policies, excluding depreciation and amortization.

The Company evaluates performance based upon net operating income from the combined properties and operations in each of its real estate segments (commercial and other real estate, and multi-family real estate and services). All properties classified as discontinued operations have been excluded.

19. RELATED PARTY TRANSACTIONS

William L. Mack, Chairman of the Board of Directors of the General Partner, David S. Mack, a former director of the General Partner, and Earle I. Mack, a former director of the General Partner, are the executive officers, directors and stockholders of a corporation that leases 5,930 square feet at one of the Company's office properties, which is scheduled to expire in January 2025. The corporation previously leased approximately 7,034 square feet at another one of the Company's office properties (the Company disposed of this property in January 2019). The Company has recognized \$18,000, \$193,000 and \$187,000 in revenue under these leases for the years ended December 31, 2019, 2018 and 2017, respectively, and had no accounts receivable from the corporation as of December 31, 2019 and 2018.

The adult children of Marshall Tycher, Chairman of RRT, own minority equity interests in a vendor to the Company. Additionally, Mr. Tycher's son-in-law is an employee of the vendor. The Company recognized \$120,000 and \$148,000 in expense for this vendor during the years ended December 31, 2019 and 2018, respectively, and had no accounts payable to this vendor as of December 31, 2019 and 2018, respectively.

Certain executive officers of RRT and/or their family members ("RG") directly or indirectly hold small noncontrolling interests in a certain consolidated joint venture. Additionally, the Company earned \$674,000, \$1,114,000, and \$1,873,000 from entities in which RG has ownership interests for the years ended December 31, 2019, 2018 and 2017, respectively.

DESCRIPTION OF SECURITIES REGISTERED PURSUANT TO SECTION 12 OF THE SECURITIES EXCHANGE ACT OF 1934

The following is a description of certain material terms and provisions of our capital stock. This description is a summary only and does not purport to be complete and is subject to and qualified in its entirety by reference to our Articles of Restatement, as amended (“charter”), and Bylaws (“bylaws”), each of which is an exhibit to the Annual Report on Form 10-K to which this description is an exhibit, and the applicable provisions of the Maryland General Corporation Law. At December 31, 2019, Mack-Cali Realty Corporation (“we,” “us,” and “our”) had one outstanding class of securities registered under Section 12 of the Securities Exchange Act of 1934, as amended (“Exchange Act”): common stock, \$0.01 par value per share (“common stock”).

General

Our charter provides that we may issue up to 190,000,000 shares of common stock, \$0.01 par value per share, and 5,000,000 shares of preferred stock, \$0.01 par value per share. As of December 31, 2019, 90,595,176 shares of our common stock, and no shares of our preferred stock, were issued and outstanding.

Shares of additional classes or series of stock, as well as additional shares of common stock, will be available for issuance without further action by our stockholders, unless stockholder consent is required by applicable law, the terms of any class or series of our stock or the rules of any stock exchange or automated quotation system on which our securities may be listed or traded. Although our board of directors does not intend to do so, it could authorize us to issue a class or series of stock that could, depending upon the terms of the particular class or series, delay, defer or prevent a transaction or a change of control of our company that might involve a premium price for holders of our common stock or otherwise be in their best interest.

Common Stock

All shares of our common stock are, or will be, upon issuance, and receipt of the consideration therefor, duly authorized, validly issued, fully paid and non-assessable. We may pay dividends to the holders of our common stock if and when declared by our board of directors out of legally available funds. We intend to continue to pay quarterly dividends on our common stock. Dividends depend on a variety of factors, and there can be no assurances that distributions will be made in the future.

Subject to the provisions of our charter regarding the restrictions on ownership and transfer of our stock discussed below and except as may otherwise be specified in the terms of any class or series of stock, each outstanding share of our common stock entitles the holder to one vote on all matters submitted to a vote of stockholders, including the election of directors, and, except as provided with respect to any other class or series of stock, the holders of such shares will possess the exclusive voting power. There is no cumulative voting in the election of our directors, which means that the holders of a majority of the outstanding shares of our common stock can elect all of the directors then standing for election by our common stockholders and the holders of the remaining shares will not be able to elect any directors.

Under Maryland law, our stockholders generally are not liable for our debts or obligations. If we are liquidated, subject to the right of any holders of preferred stock to receive preferential distributions, each outstanding share of common stock will participate pro rata in any assets remaining after our payment of, or adequate provision for, all of our known debts and liabilities, including debts and liabilities arising out of our status as general partner of Mack-Cali Realty, L.P. All shares of our common stock have equal distribution, liquidation and voting rights, and have no preferences or exchange rights, subject to the ownership limits set forth in our charter or as permitted by our board of directors.

Preferred Stock

Our charter authorizes our board of directors to classify any unissued shares of preferred stock and to reclassify any previously classified but unissued shares of any class or series. Prior to issuance of shares of each class or series, our board of directors is required by Maryland law and our charter to set, subject to the provisions of our charter regarding the restrictions on ownership and transfer of stock, the preferences, conversion and other rights, voting powers, restrictions, limitations as to dividends and other distributions, qualifications and terms and conditions of redemption for each such class or series. Thus, our board of directors could authorize the issuance of shares of a class or series of preferred stock with terms and conditions which could have the effect of delaying, deferring or preventing a transaction or a change of control of our company that might involve a premium price for holders of our common stock or otherwise be in their best interest. As of December 31, 2019, no shares of preferred stock are outstanding.

If we offer convertible preferred stock, such stock will be convertible into shares of our common stock or other securities. With respect to any convertible preferred stock (referred to herein as preferred stock) we may choose to offer, the specific designation and terms and conditions will be described in the prospectus supplement relating to the preferred stock offered, including the following terms. Each time that we issue a new series of preferred stock, we will file with the Securities and Exchange Commission and the State Department of Assessments and Taxation of Maryland articles supplementary which will state the number of shares and the designation, preferences, conversion and other rights, voting powers, restrictions, limitations as to dividends and other distributions, qualifications and terms and conditions of redemption of that class or series of preferred stock. The articles supplementary for the class or series of preferred stock will contain the full legal text of the applicable matters described herein and our prospectus supplement relating to the preferred stock. See "Available Information" in the Annual Report on Form 10-K, of which this exhibit is a part, for information on how to obtain copies of the articles supplementary. The terms of the preferred stock in the articles supplementary will include some or all of the following:

- the designation of the class or series, which may be by distinguishing number, letter or title;
 - the number of shares of the class or series, which number our board of directors may thereafter (except where otherwise provided in the preferred stock terms) increase or decrease (but not below the number of shares thereof then outstanding);
 - the dividend rate, the dates on which the dividends will be payable, if any, whether dividends will be cumulative or noncumulative and other terms relating to the payment of dividends on the class or series;
 - the redemption rights and redemption price or prices, if any, for shares of the class or series;
 - whether the preferred stock is redeemable or subject to a sinking fund, and the terms and amount of such sinking fund provided for the purchase or redemption of shares of the class or series;
 - the amounts payable on shares of the class or series, and the special or relative rights of such shares, in the event of any voluntary or involuntary liquidation, dissolution or winding up of the affairs of our company;
 - whether the shares of the class or series are convertible into shares of any other class or series, or any other security, of our company or any other corporation, and, if so, the specification of such other class or series or such other security, the conversion price or prices or rate or rates, any adjustments thereof, the date or dates as of which such shares shall be convertible and all other terms and conditions upon which such conversion may be made;
 - any listing of the class or series on any securities exchange;
 - the relative ranking and preferences of the class or series as to dividend rights and rights upon liquidation and dissolution or winding up of the affairs of our company;
 - restrictions on the authorization classification, reclassification or issuance of shares of the same class or series or of any other class or series of our stock;
 - the voting rights, if any, of the holders of shares of the class or series; and
 - any additional rights, preferences, qualifications, limitations and restrictions of the class or series of preferred stock.
-

The offering documents relating to any class or series of preferred stock we issue will, to the extent appropriate, describe any applicable material U.S. federal income tax consequences of the ownership of such stock.

Ownership Limitations and Restrictions on Transfer

Generally, our charter provides that no person may beneficially own or be deemed to beneficially own by virtue of the attribution rules of the Internal Revenue Code of 1986, as amended (the "Code"), more than 9.8% of our issued and outstanding capital stock. In addition, our charter and bylaws contain provisions that would have the effect of delaying, deferring or preventing a change in control. See "Certain Provisions of Maryland Law and our Charter and Bylaws" below.

In order for us to maintain our REIT qualification under the Code, not more than 50% in value of our outstanding capital stock may be owned, directly or indirectly, by five or fewer individuals (including certain entities treated as individuals for these purposes) during the last half of a taxable year, and at least 100 persons must beneficially own our outstanding capital stock for at least 335 days per 12 month taxable year, or during a proportionate part of a taxable year of less than 12 months. To help ensure that we meet these tests, our charter provides that no holder may beneficially own or be deemed to beneficially own by virtue of the attribution rules of the Code, more than 9.8% of our issued and outstanding capital stock. Our board of directors may waive this ownership limit if it receives evidence that ownership in excess of the limit will not jeopardize our REIT status under the Code.

The ownership limitations and restrictions on transfer will not apply if our board of directors determines that it is no longer in our best interest to attempt to qualify, or to continue to qualify, as a REIT under the Code.

All certificates representing shares of our capital stock will bear a legend referring to the restrictions described above.

If any person beneficially own more than 5% of our outstanding capital stock, such person must file a written response to our request for stock ownership information, which we will mail to our stockholders no later than January 30th of each year. This notice should contain such person's name and address, the number of shares of each class or series of stocks such person beneficially own and a description of how such person holds the shares. In addition, such person must disclose to us in writing any additional information we request in order to determine the effect of such person's ownership of such shares on our status as a REIT under the Code.

These ownership limitations could have the effect of precluding a third party from obtaining control over us unless our board of directors and our stockholders determine that maintaining REIT status is no longer desirable.

Transfer Agent

The transfer agent for our common stock is Computershare Trust Company, N.A.

Certain Provisions of Maryland Law and Our Charter and Bylaws

Board of Directors

Number; Vacancies. Our bylaws provide that the number of our directors shall be established by the board of directors but shall never be less than the minimum number required by the Maryland General Corporation Law (which is not less than one), nor more than fifteen. We have also, in our bylaws, elected to be subject to certain provisions of Maryland law described below under the heading "Unsolicited Takeovers" which vest in the board of directors the exclusive right to determine the number of directors and the exclusive right, by the affirmative vote of a majority of the remaining directors, even if the remaining directors do not constitute a quorum, to fill vacancies on the board regardless of the reason for such vacancies. These provisions of Maryland law, which are applicable even if other provisions of Maryland law or our charter or bylaws provide to the contrary, also provide that any director elected to fill a vacancy shall hold office for the remainder of the full term of the class of directors in which the

vacancy occurred, rather than until the next annual meeting of stockholders as would otherwise be the case, and until his or her successor is elected and qualifies.

Removal of Directors. Our charter provides that directors may be removed from office only for cause and only by the affirmative vote of at least two-thirds of all votes entitled to be cast by our stockholders generally in the election of directors. Neither the Maryland General Corporation Law nor our charter define the term “cause.” As a result, removal for “cause” is subject to Maryland common law and to judicial interpretation and review in the context of the facts and circumstances of any particular situation.

The requirement of cause and a substantial stockholder vote for removal of any of our directors, and the exclusive right of the remaining directors to fill vacancies on the board make it more difficult for a third party to gain control of our board of directors and may discourage offers to acquire us even when an acquisition may be in the best interest of our stockholders.

Maryland Business Combination Act

Under the Maryland Business Combination Act, unless an exemption applies, any “business combination” between a Maryland corporation and an interested stockholder or an affiliate of an interested stockholder is prohibited for five years after the most recent date on which the interested stockholder becomes an interested stockholder. These business combinations generally include mergers, consolidations, share exchanges, or, in circumstances specified in the statute, asset transfers or issuances or reclassifications of equity securities. An interested stockholder is defined as:

- ① any person who beneficially owns, directly or indirectly, 10% or more of the voting power of the corporation’s outstanding shares; or
- ② an affiliate or associate of the corporation who, at any time within the two-year period prior to the date in question, was the beneficial owner, directly or indirectly, of 10% or more of the voting power of the then outstanding voting stock of the corporation.

A person is not an interested stockholder under the statute if the board of directors approved in advance the transaction by which such person otherwise would have become an interested stockholder. In approving such a transaction, however, the board of directors may provide that its approval is subject to compliance, at or after the time of approval, with any terms and conditions determined by the board.

After the five-year prohibition, any business combination between a Maryland corporation and an interested stockholder generally must be recommended by the board of directors of the corporation and approved by the affirmative vote of at least:

- ① 80% of the votes entitled to be cast by holders of outstanding shares of voting stock of the corporation, voting together as a single voting group; and
- ② two-thirds of the votes entitled to be cast by holders of voting stock of the corporation other than voting stock held by the interested stockholder with whom or with whose affiliate the business combination is to be effected or held by an affiliate or associate of the interested stockholder.

These super-majority vote requirements do not apply if the corporation’s common stockholders receive a minimum price, as defined under the Maryland Business Combination Act, for their shares in the form of cash or other consideration in the same form as previously paid by the interested stockholder for its shares.

The statute permits various exemptions from its provisions, including business combinations with an interested stockholder that are exempted by the board of directors before the time that the interested stockholder becomes an interested stockholder. Our board of directors has exempted from the Maryland Business Combination Act, business combinations between certain affiliated individuals and entities and us. However, unless our board of directors adopts further exemptions, the provisions of the Maryland Business Combination Act will be applicable to business combinations between other persons and us.

Maryland Control Share Acquisition Act

The Maryland Control Share Acquisition Act provides that holders of control shares of a Maryland corporation acquired in a control share acquisition have no voting rights with respect to the control shares except to the extent approved by a vote of two-thirds of the votes entitled to be cast by our stockholders on the matter. Shares owned by the acquiring person, by officers or by directors who are employees of the corporation are excluded from shares entitled to vote on the matter. Control shares are voting shares of stock which, if aggregated with all other shares of stock owned by the acquiring person or in respect of which the acquiring person is able to exercise or direct the exercise of voting power (except solely by virtue of a revocable proxy), would entitle the acquiring person to exercise voting power in electing directors within one of the following ranges of voting power:

- ① one-tenth or more but less than one-third;
- ② one-third or more but less than a majority; or
- ③ a majority or more of all voting power.

Control shares do not include shares the acquiring person is then entitled to vote as a result of having previously obtained stockholder approval. A control share acquisition means the acquisition of control shares, subject to certain exceptions.

A person who has made or proposes to make a control share acquisition may compel the board of directors of the corporation to call a special meeting of stockholders to be held within 50 days of demand to consider the voting rights of the shares. The right to compel the calling of a special meeting is subject to the satisfaction of certain conditions, including an undertaking to pay the expenses of the meeting. If no request for a meeting is made, the corporation may itself present the question at any stockholders meeting.

If voting rights are not approved at the meeting or if the acquiring person does not deliver an acquiring person statement as required by the statute, then the corporation may redeem for fair value any or all of the control shares, except those for which voting rights have previously been approved. The right of the corporation to redeem control shares is subject to certain conditions and limitations. Fair value is determined, without regard to the absence of voting rights for the control shares, as of the date of the last control share acquisition by the acquirer or of any meeting of stockholders at which the voting rights of the shares are considered and not approved. If voting rights for control shares are approved at a stockholders meeting and the acquirer becomes entitled to vote a majority of the shares entitled to vote, all other stockholders may exercise appraisal rights. The fair value of the shares as determined for purposes of appraisal rights may not be less than the highest price per share paid by the acquirer in the control share acquisition.

The Maryland Control Share Acquisition Act does not apply to:

- ① shares acquired in a merger, consolidation or share exchange if the corporation is a party to the transaction; or
- ② acquisitions approved or exempted by the charter or bylaws of the corporation.

Our bylaws currently contain a provision exempting from the Maryland Control Share Acquisition Act any acquisitions of shares of our stock by any person. However, our board of directors or our stockholders may amend our bylaws in the future to repeal or modify this exemption, in which case any of our control shares acquired in a control share acquisition could be subject to the Maryland Control Share Acquisition Act.

Unsolicited Takeovers

Under certain provisions of Maryland law described in part above under “Board of Directors - *Number; Vacancies*”, relating to unsolicited takeovers, a Maryland corporation with a class of equity securities registered under the Securities Exchange Act of 1934, as amended, and at least three independent directors may elect to be

subject to certain statutory provisions relating to unsolicited takeovers which, among other things, would automatically classify the corporation's board of directors into three classes with staggered terms of three years each and vest in the board of directors the exclusive right to determine the number of directors and the exclusive right by the affirmative vote of a majority of the remaining directors, to fill vacancies on the board of directors even if the remaining directors do not constitute a quorum.

These statutory provisions also provide that any director elected to fill a vacancy shall hold office for the remainder of the full term of the class of directors in which the vacancy occurred, rather than the next annual meeting of stockholders as would otherwise be the case, and until his or her successor is elected and qualified, and that the affirmative vote of at least two-thirds of all votes entitled to be cast by the stockholders generally in the election of directors shall be required in order to remove a director. Finally, these statutory provisions provide that a special meeting of stockholders need be called only upon the written request of stockholders entitled to cast at least a majority of the votes entitled to be cast at the special meeting.

An election to be subject to any or all of the foregoing statutory provisions may be made in the corporation's charter or bylaws, or by resolution of its board of directors. Any such statutory provision to which a corporation elects to be subject will apply even if other provisions of Maryland law or the corporation's charter or bylaws provide to the contrary.

Through provisions in our charter and bylaws unrelated to the foregoing statutory provisions, (a) a two-thirds stockholder vote, as well as cause, is required to remove any director from our board of directors and (b) unless called by our chief executive officer, our president and chief operating officer, or our board, the written request of the holders of shares entitled to cast not less than a majority of the votes entitled to be cast at such meeting is required to call a special meeting of stockholders. We have also elected in our bylaws to be subject to certain of the statutory provisions described above so that, as stated above under "Board of Directors — *Number; Vacancies*", our board of directors has the exclusive right to determine the number of our directors and the exclusive right to fill vacancies on our board of directors, and any director elected to fill a vacancy will hold office for the remainder of the full term of the class of directors in which the vacancy occurred. In addition, our board of directors has adopted a resolution prohibiting us from electing to be subject to the foregoing statutory provision relating to unsolicited takeovers which would automatically classify our board of directors into three classes with staggered terms of three years each, unless such election is first approved by our stockholders by the affirmative vote of a majority of all votes entitled to be cast on the matter.

Limitation of Liability and Indemnification of Directors and Officers

As permitted by the Maryland General Corporation Law, our charter contains a provision limiting the liability of our directors and officers to us or our stockholders for money damages to the maximum extent permitted by Maryland law. Under Maryland law, the liability of our directors and officers to us or our stockholders for money damages may be limited except to the extent that:

- ① it is proved that the director or officer actually received an improper benefit in money, property or services; or
- ② a judgment or other final adjudication was entered in a proceeding based on a finding that the director's or officer's action, or failure to act, was the result of active and deliberate dishonesty and was material to the cause of action adjudicated in the proceeding.

We are authorized under our charter, and obligated under our bylaws and existing indemnification agreements, to indemnify our present and former directors and officers against expense or liability in an action to the fullest extent permitted by Maryland law. Maryland law permits a corporation to indemnify its present and former directors and officers, among others, against judgments, penalties, fines, settlements and reasonable expenses they incur in connection with any proceeding to which they are a party because of their service as an officer, director or other similar capacity. However, Maryland law prohibits indemnification if it is established that:

- ② the act or omission of the director or officer was material to the matter giving rise to the proceeding and was committed in bad faith or was the result of active and deliberate dishonesty;
-

- ① the director or officer actually received an improper personal benefit in money, property or services; or
- ① in the case of any criminal proceeding, the director or officer had reasonable cause to believe that the act or omission was unlawful.

Also, under Maryland law, a Maryland corporation may not provide indemnification for an adverse judgment in a suit by or in the right of the corporation or for a judgment of liability on the basis that personal benefit was improperly received, unless, in either case, a court orders indemnification, and then only for expenses.

In addition to the circumstances in which Maryland law permits a corporation to indemnify its directors and officers, Maryland law requires that unless limited by the charter of the corporation, a director or officer who has been successful on the merits or otherwise in the defense of any proceeding or in the defense of any claim, issue or matter in a proceeding, to which he is made a party by reason of his services as a director or officer, shall be indemnified against reasonable expenses incurred by him in connection with the proceeding, claim, issue or matter in which the director or officer has been successful. Our charter does not alter this requirement.

We also maintain a policy of directors and officers liability insurance covering certain liabilities incurred by our directors and officers in connection with the performance of their duties.

The above indemnification provisions could operate to indemnify directors, officers or other persons who exert control over us against liabilities arising under the Securities Act of 1933, as amended ("Securities Act"). Insofar as the above provisions may allow that type of indemnification, the Securities and Exchange Commission has informed us that, in their opinion, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable.

Amendment of Charter and Bylaws

Our charter may generally be amended only if such amendment is declared advisable by our board of directors and approved by our stockholders by the affirmative vote of at least a majority of all votes entitled to be cast by our stockholders on the amendment. However, any amendment to the provisions in our charter relating to the removal of directors requires approval by our stockholders by the affirmative vote of not less than two-thirds of all votes entitled to be cast.

Our board of directors has the power to adopt, alter or repeal any provision of our bylaws and to make new bylaws. In addition, our stockholders may alter or repeal any provision of our bylaws and adopt new bylaws if any such alternation, repeal or adoption is approved by the affirmative vote of a majority of all votes entitled to be cast by our stockholders on the matter, except that our stockholders do not have the power to alter or repeal the provisions of our bylaws relating to indemnification of our directors and officers or the provisions of our bylaws relating to amendments thereto without the approval of our board of directors.

Mergers, Share Exchanges, Transfers of Assets

Pursuant to our charter and Maryland law, with certain exceptions we cannot engage in a merger or consolidation, enter into a statutory share exchange in which we are not the surviving entity or sell all or substantially all of our assets, unless our board of directors adopts a resolution declaring the proposed transaction advisable, and the transaction is approved by our stockholders by the affirmative vote of a majority of all votes entitled to be cast on the matter.

Dissolution of Mack-Cali Realty Corporation

We may be dissolved only if the dissolution is declared advisable by a majority of the entire board of directors and approved by our stockholders by the affirmative vote of a majority of all votes entitled to be cast on the dissolution.

Advance Notice of Director Nominations and New Business

Our bylaws provide that with respect to an annual meeting of stockholders, nominations of persons for election to the board of directors and the proposal of business to be considered by stockholders may be made only:

- ① pursuant to our notice of the meeting;
- ② by, or at the direction of, the board of directors; or
- ③ by any stockholder of the Company who was a stockholder of record both as of the time notice of such nomination or proposal of business is given by the stockholder as set forth in our bylaws and as of the time of the annual meeting in question, who is entitled to vote at such annual meeting and who complies with the advance notice procedures set forth in our bylaws.

Any stockholder who seeks to make such a nomination or to bring any matter before an annual meeting, or his representative, must be present in person at the annual meeting.

Anti-takeover Effect of Certain Provisions of Maryland Law and Our Charter and Bylaws

The Maryland Business Combination Act, the Maryland Control Share Acquisition Act (if the provision in our bylaws exempting us from this statute is modified or repealed), the provisions of Maryland law relating to unsolicited takeovers, the advance notice provisions of our bylaws, the provisions of our charter on removal of directors and certain other provisions of Maryland law and our charter and bylaws could delay, defer or prevent a transaction or our change in control which might involve a premium price for holders of shares of our capital stock or otherwise be in their best interest.

EXECUTIVE EMPLOYMENT AGREEMENT

THIS EXECUTIVE EMPLOYMENT AGREEMENT (the “Agreement”) is entered into December 23, 2019 effective as of January 1, 2020 (the “Effective Date”), by and between Deidre Crockett. (the “Executive”), and Mack-Cali Realty Corporation, a Maryland corporation (the “Company”) with offices at Harborside 3, 210 Hudson St., Suite 400, Jersey City, NJ 07311.

RECITALS

WHEREAS, the Executive is currently employed by the Company as its Head of Marketing, Investor Relations and Human Resources; and

WHEREAS, the Company desires to appoint the Executive as its Executive Vice President and Chief Administrative Officer, and to enter into this Agreement to set forth the terms and conditions of her employment in such position, and Executive desires to accept such appointment and continued employment, pursuant to the terms and provisions set forth herein;

NOW THEREFORE, in consideration of the premises and the mutual covenants and agreements set forth herein, the parties hereby agree as follows:

1. Employment.

The Company hereby agrees to continue to employ Executive, and Executive hereby agrees to accept such continued employment, upon the terms and conditions set forth in this Agreement. Effective as of the Effective Date, the terms and conditions of Executive’s employment shall be governed by the terms of this Agreement, which shall supersede all prior understandings and agreements, written or oral, with respect to Executive’s employment; provided, that the Indemnification Agreement, dated June 26, 2017, between the Executive and the Company, and any agreements entered into prior to the Effective Date evidencing outstanding equity or long-term incentive awards shall remain in effect.

2. Employment Period.

(a) Subject to Sections 3(b) and 5 hereof, the Company agrees to continue to employ the Executive, and the Executive agrees to continue to be employed by the Company, in each case pursuant to this Agreement, for a period commencing on the Effective Date, and ending December 31, 2022 (the “Term”). On each December 31 during the Term, commencing with December 31, 2022, the Term will be automatically extended for an additional one year, through the following December 31, unless either party notifies the other party in writing, not fewer than ninety (90) days prior to such December 31, that it has elected not to extend the Term, in which event the Term shall expire on such December 31.

(b) Notwithstanding anything contained herein to the contrary: (i) Executive’s employment with the Company may be terminated by the Company or Executive during the Term, subject to the terms and conditions of this Agreement; and (ii) nothing in this Agreement shall mandate or prohibit a continuation of Executive’s employment following the expiration of the Term upon such terms and conditions as the Board of Directors of the Company (the

“Board”), and Executive may mutually agree. The Executive’s period of employment pursuant to this Agreement shall hereinafter be referred to as the “Employment Period”).

3. Duties and Responsibilities.

(a) During the Employment Period, Executive shall be employed and serve as the Chief Information Officer of the Company reporting directly to the General Counsel, Chief Financial Officer and the Chief Executive Officer of the Company (the “CEO”). In her position, Executive shall perform such duties, functions and responsibilities during the Employment Period, commensurate with the Executive’s position, as reasonably and lawfully directed by the CEO.

(b) Executive shall devote substantially all of her business time, attention and efforts to the performance of her duties under this Agreement, render such services to the best of her ability, and use her reasonable best efforts to promote the interests of the Company (which, for all purposes of this Section 3(b), shall include all Subsidiaries of the Company). Without limiting the foregoing, Executive shall not engage in any other business, occupation or related activity during the Employment Period that (a) conflicts with the interests of the Company or its subsidiaries, (b) interferes with the proper and efficient performance of her duties for the Company, or (c) interferes with the exercise of her judgment in the Company’s best interests. Notwithstanding the foregoing or any other provision of this Agreement, it shall not be a breach or violation of this Agreement for Executive to (i) with the advance approval of the Board or the Governance Committee of the Board (not to be unreasonably withheld), serve on corporate, civic or charitable boards or committees, (ii) deliver lectures, fulfill speaking engagements or teach at educational institutions, or (iii) manage personal investments, so long as such activities do not significantly interfere with or significantly detract from the performance of Executive’s responsibilities to the Company in accordance with this Agreement.

4. Compensation and Benefits.

(a) Base Salary. Effective retroactive to the Effective Date and during the Employment Period, the Company shall pay Executive an annual base salary in the amount of \$450,000.00 (the “Annual Base Salary”), payable in installments consistent with the Company’s normal payroll schedule, subject to applicable withholding and other taxes. Executive’s Annual Base Salary shall be reviewed, at least annually, for merit increases and may, by action and in the discretion of the Board or its executive compensation and option committee (the “Compensation Committee”), be increased at any time or from time to time, but may not be decreased from the then current Annual Base Salary without Executive’s prior written consent.

(b) Incentive Compensation/Bonuses. In addition, for each calendar year during the Employment Period, Executive shall be entitled to receive annual cash incentive compensation (an “Annual Bonus”) as follows:

- ⌚ Bonus Opportunity: For each fiscal year during the Employment Period, Executive shall be entitled to receive an annual bonus (the “Annual Bonus”) under the terms of the Company’s annual bonus plan as in effect from time to time, based on the achievement of performance criteria established by the Board

or the Compensation Committee within the first three (3) months of each fiscal year that begins during the Employment Period. In respect of the Annual Bonus for the final year of the Term, as may be extended pursuant to Section 2(b), provided that Executive is employed by the Company until the expiration of the Term and that Executive's employment was not terminated for Cause by the Company following the Term, any qualitative performance evaluation will be performed by December 16 of the final year, and the achievement of quantitative performance metrics shall be determined based on actual performance for the final year and determined on or before March 31 of the year following the final year of the Term, whether or not Executive is employed during the year following the final year.

Payment of Annual Bonuses to Executive, if any, shall be made in the same manner and at the same time that other senior-level executives receive their annual bonus awards, but in any event on or before the end of the first quarter following the end of the applicable performance year.

- ⌚ During the Employment Period, Executive shall be eligible to be granted long term incentive or equity awards as may be determined by the Board or the Compensation Committee in its sole discretion under such plans and programs as may be in effect from time to time.

(c) Taxes and Withholding. Anything in this Agreement to the contrary notwithstanding, all payments required to be made by the Company hereunder to Executive or her estate or beneficiaries shall be subject to the withholding of such amounts relating to taxes as the Company may reasonably determine it should withhold pursuant to any applicable law or regulation. In lieu of withholding such amounts, in whole or in part, the Company may, in its sole discretion, accept other provisions for payment of taxes and withholding as required by law, provided it is satisfied that all requirements of law affecting its responsibilities to withhold have been satisfied.

(d) Additional Benefits. In addition to the compensation specified above and other benefits provided pursuant to this Section 4, Executive shall be entitled to the following benefits:

(i) participation in the Mack-Cali Realty Corporation 401(k) Savings and Retirement Plan (subject to statutory rules and maximum contributions and non-discrimination requirements applicable to 401(k) plans) and eligibility to participate in such other benefit plans and programs, including but not limited to restricted stock, phantom stock and/or unit awards, and any other incentive compensation plans or programs (whether or not employee benefit plans or programs), as maintained by the Company from time to time and made generally available to executives of the Company with such participation to be consistent with reasonable Company guidelines and each pursuant to the terms and conditions of such benefit plan as they may exist from time to time;

(ii) participation in any health insurance, disability insurance, paid vacation, group life insurance or other welfare benefit program made generally available to executives of

the Company, subject to the general eligibility and participation provisions set forth in such plans;

(iii) participation in all deferred compensation, retirement or other benefit plans or perquisites as may be provided to any other executive of the Company on terms and conditions at least as favorable to the Executive as the terms and conditions generally applicable to all other executives of the Company who are also executive officers of the Company (as defined in Rule 3b-7 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)); and

(iv) upon the submission of proper substantiation by Executive, and subject to such rules and guidelines as the Company may from time to time adopt with respect to the reimbursement of expenses of executive personnel, reimbursement for all reasonable expenses actually paid or incurred by Executive during the Employment Period in the course of and pursuant to the business of the Company.

5. Termination of Employment; Severance Agreement.

(a) Termination. The Employment Period, and Executive’s employment with the Company, shall terminate upon the earliest to occur of (i) Executive’s death, (ii) a termination by the Company by reason of Executive’s Disability, (iii) a termination by the Company with or without Cause, or (iv) a termination by Executive with or without Good Reason. Upon any termination of Executive’s employment for any reason, except as may otherwise be requested by the Company in writing and agreed upon in writing by Executive, Executive shall resign from any and all directorships, committee memberships or any other positions Executive holds with the Company or any of its subsidiaries. For the avoidance of doubt, the expiration of the Term in accordance with Section 2(a) shall not be considered a termination of Executive’s employment by the Company with or without Cause or the resignation of Executive for Good Reason or otherwise, and Executive’s employment shall not be considered to have been constructively terminated for any reason unless she resigns for Good Reason in accordance with this Agreement.

(b) Notice of Termination. Any termination of Executive’s employment by the Company or any such termination by Executive (other than on account of death) shall be communicated by written Notice of Termination to the other party hereto. For purposes of this Agreement, a “Notice of Termination” shall mean a notice which shall indicate the specific termination provision in this Agreement relied upon and shall set forth in reasonable detail the facts and circumstances claimed to provide a basis for termination of Executive’s employment under the provision so indicated. In the event of the termination of Executive’s employment on account of death, written Notice of Termination shall be deemed to have been provided on the date of death.

(c) “Cause” shall mean the intentional and willful commission by Executive of any of the following acts or omissions:

(i) willful and continued failure to use best efforts to substantially perform her duties to the Company (other than any such failure resulting from Executive’s incapacity due

to physical or mental illness) for a period of thirty (30) days after written demand for substantial performance is delivered by the Company specifically identifying the manner in which the Company believes Executive has not substantially performed her duties;

(ii) material and continued failure to comply with Executive's obligations under any written policy of the Company applicable to senior executives as approved by the Board from time to time for a period of thirty (30) days after written demand for substantial compliance is delivered by the Company specifically identifying the manner in which the Company believes Executive has not substantially complied;

(iii) any act of fraud, embezzlement, misappropriation, or misuse for personal benefit of the assets or property of the Company; or

(iv) A conviction of or plea of "guilty" or "no contest" to a felony under the laws of the United States or any state thereof;

For purposes of this Section 5(c), no act, or failure to act, on Executive's part shall be considered "willful" unless done, or omitted to be done, by her not in good faith and without reasonable belief that her action or omission was in furtherance of, or not opposed to, the interests of the Company. Any determination of Cause will be made by the Board at a duly held meeting of the Board (held after reasonable notice to Executive and reasonable opportunity for her, together with her counsel, to be heard before the Board at the meeting) and pursuant to resolutions duly adopted by the affirmative vote of the majority of the Board present and voting at such meeting finding that in the good faith opinion of the Board after reasonable investigation that Executive has engaged in acts or omissions constituting Cause, provided that no such determination may be made, until Executive has been given written notice detailing the specific Cause event and, where applicable, the lapsing of any cure period.

(d) "Change in Control" shall mean that any of the following events has occurred:

(i) any "person" or "group" of persons, as such terms are used in Sections 13 and 14 of the Exchange Act, other than any employee benefit plan sponsored by the Company or any of its Subsidiaries, becomes the "beneficial owner" (as such term is defined in Rule 13d-3 under the Exchange Act) of 30% or more of the shares of common stock of the Company (the "Shares") issued and outstanding immediately prior to such acquisition;

(ii) any Shares are purchased pursuant to a tender or exchange offer that results in any "person" or "group" of persons, as such terms are used in Sections 13 and 14 of the Exchange Act becoming the "beneficial owner" (as such term is defined in Rule 13d-3 under the Exchange Act) of 30% or more of the Shares issued and outstanding immediately prior to such tender or exchange offer; or

(iii) the dissolution or liquidation of the Company or the consummation of any merger or consolidation of the Company or any sale or other disposition of all or substantially all of its assets, if the shareholders of the Company immediately prior to such transaction own, immediately after consummation of such transaction, directly or indirectly equity securities (other than options and other rights to acquire equity securities) possessing less than 30% of the voting power of the surviving or acquiring entity.

(e) “Change in Control Period” shall mean the period commencing on the earlier of (i) the date that a Change in Control occurs or (ii) the date that the Company enters into a definitive agreement with respect to a transaction, the consummation of which would constitute a Change in Control (provided it is actually consummated), and in either case ending on the second anniversary of the Change in Control.

(f) “Code” shall mean the Internal Revenue Code of 1986, as amended.

(g) “Disability” shall mean the inability of Executive, as a result of any medically determinable physical or mental disease, injury, or congenital condition, to substantially perform her principal duties to the Company, with or without reasonable accommodation, for a continuous period of one hundred and eighty (180) days, or periods aggregating two hundred and seventy (270) days in any twelve (12) month period.

(h) “Good Reason” shall mean, without the express written consent of Executive, the occurrence of any of the following circumstances during either the Employment Period or a Change in Control Period:

(i) the material diminishment of Executive’s authority, duties or responsibilities as Chief Administrative Officer, it being understood that during a Change in Control Period, Good Reason shall be deemed to have occurred if Executive is not the Chief Administrative Officer of the Company (or the entity succeeding to the Company’s business) following the Change in Control;

(ii) a material reduction in Executive’s Annual Base Salary, it being understood that any reduction below the Base Salary as in effect as of the Effective Date shall constitute Good Reason;

(iii) a material change in the geographic location at which the Executive must perform the services under this Agreement; or

(iv) the failure of the Company to obtain agreement from any successor to assume and agree to perform this Agreement.

Notwithstanding the foregoing, Executive shall not be considered to have resigned for Good Reason unless, Executive gives the Company written notice of resignation, specifying in reasonable detail the circumstance constituting Good Reason, not more than thirty (30) days after the occurrence of such circumstance, and the Company fails to cure such circumstance within thirty (30) days after receipt of such notice; provided, that if the Company does cure such circumstance within such period Executive may withdraw her notice of resignation without prejudice within ten (10) days after the end of the cure period.

(i) “Termination Date” shall mean the date on which Executive’s employment is terminated for any reason.

The definitions contained in Sections 5(c) through 5(i) shall apply for all purposes under this Agreement.

6. Severance Benefits Resulting from Death or Disability.

Upon a termination of Executive's employment by reason of death or Disability whether before or after the expiration of the Term, Executive (or the representative of her estate) shall be entitled to receive the following payments and benefits, subject to compliance in the case of Disability with the release requirement of Section 9 and except as otherwise provided in Sections 13(h) and 15(f):

(a) The following "Accrued Obligations", payable as and when those amounts would have been payable had the Employment Period not ended:

(i) all accrued but unpaid Base Salary through the Termination Date;

(ii) any unpaid or unreimbursed expenses incurred in accordance with Company policy to the extent incurred during the Employment Period;

(iii) any accrued but unpaid benefits provided under the Company's employee benefit plans (not including any severance, separation pay, or supplemental unemployment benefit plan), subject to and in accordance with the terms of those plans;

(iv) any earned but unpaid Annual Bonus in respect to any completed fiscal year that has ended on or prior to the Termination Date; and

(v) rights to indemnification by virtue of Executive's position as an officer or director of the Company or its subsidiaries and the benefits under any directors' and officers' liability insurance policy maintained by the Company, in accordance with its terms thereof.

(b) An amount equal to Executive's Annual Bonus for the year in which the Termination Date occurs, based upon the Company's actual performance for the year, multiplied by a fraction, the numerator of which is the number of days in such year through and including the Termination Date and the denominator of which is the total number of days in such year, payable at the same time that Annual Bonuses are paid to active employees.

7. Severance Benefits upon Termination Without Cause, or Resignation for Good Reason during the Term or a Change of Control Period.

In the event that either during the Term or thereafter during a Change in Control Period (i) the Company terminates Executive's employment for any reason other than Cause or Disability, or (ii) Executive resigns for Good Reason, Executive shall be entitled to receive the following payments and benefits, subject to compliance with the release requirement of Section 9 and except as otherwise provided in Sections 13(h) and 15(f):

(a) All payments and benefits described in Section 6.

(b) A lump sum cash payment in an amount equal to one and one-half (1.5) times the sum of (i) Executive's Annual Base Salary immediately prior to the Termination Date, and (ii) Executive's Target Bonus for the year during which the Termination Date occurs payable as soon as practicable after the Termination Date.

(c) If Executive elects, on behalf of himself or her eligible dependents, to continue medical coverage under any medical plan of the Company pursuant to the provisions of Section 4980B of the Code or any other applicable law (“COBRA”), and such election is available to her pursuant to then governing law, and complies with all requirements for such coverage, an amount, payable not later than the last day of each month that such coverage is in effect, up to a maximum of eighteen (18) months, (or such shorter duration as governing law may then allow) equal to the excess, if any, of the premium paid by Executive for such coverage pursuant to COBRA over the premium that would be paid by an active employee for comparable coverage (the “Medical Continuation”). If Executive’s continuation coverage is terminated for any reason other than dictate of governing law prior to the end of such eighteen month period, the Company’s obligations under this Section 7(c) shall terminate, regardless of whether the termination of Executive’s coverage constitutes a second qualifying event as defined by COBRA with respect to any other dependent.

8. Compensation or Severance Benefits upon Termination of Employment by the Company for Cause, Termination by the Company Without Cause following the Term, or Resignation by Executive following the Term.

(a) Termination by the Company for Cause or Resignation without Good Reason during the Term. In the event the Company terminates Executive’s employment for Cause (whether during the Term or thereafter), or Executive resigns without Good Reason prior to the expiration of the Term, Executive shall only be entitled to receive the Accrued Obligations, payable as and when those amounts would have been payable had the Employment Period not ended.

(b) Termination by the Company without Cause or Resignation by Executive with Good Reason following the Term. In the event that following the expiration of the Term on its own accord (assuming Executive’s employment has not been terminated prior to such date), the Company terminates Executive’s employment for any reason other than as set forth in Sections 6, 7 or 8(a), or Executive resigns with Good Reason, Executive shall be entitled to receive the Accrued Obligations. For the avoidance of doubt, expiration of the Term on its own accord shall not be deemed a termination by Company.

(c) Resignation by Executive without Good Reason following the Term. In the event that following the expiration of the Term on its own accord (assuming Executive’s employment has not been terminated prior to such date), Executive resigns without Good Reason, Executive shall be entitled to receive the Accrued Obligations. For the avoidance of doubt, expiration of the Term on its own accord shall not be deemed a resignation by Executive.

9. Release.

Notwithstanding anything to the contrary above, all benefits and payments that may become payable pursuant to Section 6, 7 or 8 (other than the Accrued Obligations) are conditioned on Executive, or the representative of her estate, executing a release of claims and covenant not to sue, in form attached hereto as Exhibit A (the “Release”), and the period provided in such Release having expired without Executive exercising her right to revoke, not later than sixty (60) days after the Termination Date (subject to Section 15(f)(iv)), and if

Executive fails to execute such Release, revokes the Release, or the revocation period has not yet expired by the end of such sixty (60) day period, Executive shall have no right to any such payment or benefit.

10. Effect on Employee Benefit Plans and Programs and Long-Term Incentive and Equity Awards; Adjustment of Payments and Benefits.

(a) Effect on Employee Benefit Programs. The termination of Executive's employment hereunder, whether by the Company or Executive, shall have no effect on the rights and obligations of the parties hereto under the Company's (i) welfare benefit plans including, without limitation, Medical Continuation as provided for herein and, health coverage thereafter but only to the extent required by law, and on the same basis applicable to other employees and (ii) 401(k) Plan but only to the extent required by law and pursuant to the terms of the 401(k) Plan.

(b) Effect on Long-Term Incentive and Equity Awards . The extent to which long-term incentive or equity awards held by Executive vest or become exercisable or payable as a result of a termination of employment for any reason shall be governed exclusively by the terms of the plan or award agreement governing such award.

(c) Adjustment of Payments and Benefits.

(i) Notwithstanding any provision of this Agreement to the contrary, if any payment or benefit to be paid or provided hereunder, when combined with any other amount payable to Executive, would be an "Excess Parachute Payment," within the meaning of Section 280G of the Code, or any successor provision thereto, but for the application of this sentence, then the payments and benefits to be paid or provided hereunder shall be reduced to the minimum extent necessary so that no portion of any such payment or benefit, as so reduced, constitutes an Excess Parachute Payment; provided, however, that the foregoing reduction shall be made only if and to the extent that such reduction would result in an increase in the aggregate payments and benefits to be provided, determined on an after-tax basis (taking into account the excise tax imposed pursuant to Section 4999 of the Code, or any successor provision thereto, any tax imposed by any comparable provision of state law, and any applicable federal, state and local income taxes). In the event that any payment or benefit intended to be provided hereunder is required to be reduced pursuant to this Section the reduction shall occur in the following order:: (A) by first reducing or eliminating the portion of the payments which are not payable in cash and are not attributable to equity awards (other than that portion of the payments subject to clause (D) hereof), (B) then by reducing or eliminating cash payments (other than that portion of the payments subject to clause (D) hereof), (C) then by reducing or eliminating the portion of the payments which are not payable in cash and are attributable to equity awards (other than that portion of the Payments subject to clause (D) hereof) and (D) then by reducing or eliminating the portion of the Payments (whether payable in cash or not payable in cash) to which Treasury Regulation § 1.280G-1 Q/A 24(c) (or successor thereto) applies, in each case in reverse order beginning with payments or benefits which are to be paid the farthest in time.

(ii) The determination of whether the any payment or benefit shall be reduced as provided in Section 10(c)(i) hereof and the amount of such reduction shall be made at the

Company's expense by an accounting firm selected by the Company from among the four (4) largest accounting firms in the United States (the "Accounting Firm"). The Accounting Firm shall provide its determination (the "Determination"), together with supporting calculations and documentation, to the Company and Executive within forty five (45) days after Executive's final day of employment, which Determination, absent manifest error, shall be binding, final and conclusive upon the Company and Executive. If the Accounting Firm determines that the payments and benefits to be provided to Executive will not result in any Excess Parachute Payments, it shall furnish Executive with an opinion to that effect. If the Accounting Firm determines that the payments and benefits to be provided to Executive will result in Excess Parachute Payments, it shall furnish the Executive with an opinion that no Excess Parachute Payments will be made after the reductions contemplated by Section 10(c)(i) hereof.

11. Confidential Information.

(a) Executive understands and acknowledges that during her employment with the Company, she will be exposed to Confidential Information (as defined below), all of which is proprietary and which will rightfully belong to the Company (which, for all purposes of this Section 11, shall include its Subsidiaries). Executive shall hold in a fiduciary capacity for the benefit of the Company such Confidential Information obtained by Executive during her employment with the Company and shall not, directly or indirectly, at any time, either during or after her employment with the Company terminates, without the Company's prior written consent, use any of such Confidential Information or disclose any of such Confidential information to any individual or entity other than the Company or its employees, attorneys, accountants, financial advisors, consultants, or investment bankers except as required in the performance of her duties for the Company or as otherwise required by law, court order or an order of any governmental authority. Executive shall take all reasonable steps to safeguard such Confidential Information and to protect such Confidential Information against disclosure, misuse, loss or theft.

(b) The term "Confidential Information" shall mean any information not generally known in the relevant trade or industry or otherwise not generally available to the public, which was obtained from the Company or its predecessors or which was learned, discovered, developed, conceived, originated or prepared during or as a result of the performance of any services by Executive on behalf of the Company or its predecessors. For purposes of this Section 11, the Company shall be deemed to include any entity which is controlled, directly or indirectly, by the Company and any entity of which a majority of the economic interest is owned, directly or indirectly, by the Company.

(c) Notwithstanding anything to the contrary in this Agreement, no provision contained in this Agreement is intended or should be construed to prevent or impede Executive from voluntarily communicating with any governmental agencies (including, without limitation, the Securities and Exchange Commission) regarding possible violations of law, or to limit Executive's ability to seek or accept a financial award for providing information to any governmental agency.

12. Return of Documents.

Except for such items which are of a personal nature to Executive (e.g., daily business planner), all writings, records, and other documents and things containing any Confidential Information shall be the exclusive property of the Company, shall not be copied, summarized, extracted from, or removed from the premises of the Company, except in pursuit of the business of the Company, and shall be delivered to the Company, without retaining any copies, upon the termination of Executive's employment or at any time as requested by the Company.

13. Noncompete; Non-Solicitation; Non-Disparagement.

Executive agrees that:

(a) During the Employment Period, and for a one (1) year period thereafter in the event Executive's employment is terminated under circumstances in which she is entitled to receive and is receiving the benefits provided in Sections 6, 7, 8(b) or 8(c) hereof, Executive shall not, directly or indirectly, within the geographic region the Company or its Subsidiaries are currently operating or are operating as of the date that the Executive's employment is terminated, engage in, or own, invest in, manage or control any venture or enterprise primarily engaged in any office-service, flex, office property, or multi-family residential development or acquisition activities that are competitive with the activities of the Company (which, for all purposes of this Section 13, shall include its Subsidiaries). Nothing herein shall prohibit Executive from being a passive owner of not more than five percent (5%) of the outstanding stock of any class of securities of a company or other entity engaged in such business which is publicly traded, so long as she has no active participation in the business of such company or other entity.

(b) If, at the time of enforcement of this Section 13, a court shall hold that the duration, scope, area or other restrictions stated herein are unreasonable, the parties agree that reasonable maximum duration, scope, area or other restrictions may be substituted by such court for the stated duration, scope, area or other restrictions and upon substitution by such court, this Agreement shall be automatically modified without further action by the parties hereto.

(c) For purposes of this Section 13, the Company shall be deemed to include any entity which is controlled, directly or indirectly, by the Company and any entity of which a majority of the economic interest is owned, directly or indirectly, by the Company.

(d) Nonsolicitation. Executive agrees that during the Employment Period, and for a one (1) year period thereafter, regardless of the reason for termination (the "Restricted Period"), Executive will not, without written consent of the Company, directly or indirectly, including causing, encouraging, directing or soliciting any other person to, contact, approach or solicit (other than, so long as Executive continues to be employed by the Company and makes such contact, approach or solicitation made on behalf of the Company) for the purpose of offering employment to or hiring (whether as an employee, consultant, agent, independent contractor or otherwise) or actually hire any person who is or has been employed or retained in the operation of the Company's business during the period commencing three (3) months prior to the date of such hiring or offering of employment, or induce, interfere with or solicit, or attempt to induce, interfere with or solicit, any person that is a current or former customer, supplier or other

business relation of the Company to terminate its relationship or otherwise cease doing business in whole or in part or reduce the amount of business with the Company.

(e) Nondisparagement. Executive agrees not to disparage the Company or its past and present investors, officers, directors or employees, and the Company agrees not to disparage Executive.

(f) Acknowledgements. Executive acknowledges and agrees that (i) Executive's obligation to comply with the restrictions in this Section 13 shall be independent of any obligation owed to Executive by the Company (whether under this Agreement or otherwise), and specifically shall not be dependent upon whether Executive is entitled to any form of severance pay or benefits pursuant to this Agreement or otherwise; (ii) no claim against the Company by Executive (whether under this Agreement or otherwise) shall constitute a defense to the enforcement by the Company or its affiliates of the restrictions in this Section 13, (iii) the time limitations and the geographic scope on the restrictions in this Section 13 are reasonable, (iv) the restrictions imposed under this Section 13 are reasonably necessary for the protection of the Company and its goodwill, Confidential Information, and other legitimate business interests and do not impose a greater restraint than necessary to provide such protection, (v) that through this Agreement, Executive shall receive adequate consideration for any loss of opportunity associated with the restrictions of this Section 13, and (vi) that the provisions of this Section 13 and its subparts provide a reasonable way of protecting Company's business value.

(g) Extension of Time. In the event that Executive breaches any covenant, obligation or duty in this Section 13, any such duty, obligation, or covenants to which the parties agreed by this Section 13 shall automatically toll from the date of the first breach, and all subsequent breaches, until the resolution of the breach through private settlement, judicial or other action, including all appeals. The duration and length of Executive's duties and obligations as agreed by this Section 13 shall continue upon the effective date of any such settlement, or judicial or other resolution.

(h) Legal and Equitable Remedies. Upon any material breach by Executive of any of the provisions of Sections 11, 12 or 13, Executive shall immediately, permanently and irrevocably forfeit without payment of consideration of any kind any and all rights to any of the benefits and payments otherwise payable to Executive pursuant to this Agreement (other than the Accrued Obligations). In addition, in view of the nature of the rights in goodwill, employee relations, trade secrets, and business reputation and prospects of the Company to be protected under Sections 11, 12 and 13, Executive understands and agrees that the Company could not be reasonably or adequately compensated in damages in an action at law for Executive's breach of Executive's obligations (whether individually or together) under Sections 11, 12 or 13. Accordingly, Executive specifically agrees that the Company shall be entitled to temporary and permanent injunctive relief, specific performance, and other equitable relief to enforce the provisions of Sections 11, 12 and 13, and that such relief may be granted without the necessity of proving actual damages, and without bond. EXECUTIVE ACKNOWLEDGES AND AGREES THAT THE PROVISIONS IN SECTIONS 11, 12 AND 13 ARE ESSENTIAL AND MATERIAL TO THIS AGREEMENT, AND THAT UPON BREACH OF SECTIONS 11, 12 OR 13 BY EXECUTIVE, COMPANY IS ENTITLED TO WITHHOLD PROVIDING PAYMENTS OR CONSIDERATION, TO EQUITABLE RELIEF TO PREVENT

CONTINUED BREACH, TO RECOVER DAMAGES AND TO SEEK ANY OTHER REMEDIES AVAILABLE TO COMPANY. This provision with respect to injunctive relief shall not, however, diminish the right of the Company to claim and recover damages or other remedies in addition to equitable relief.

14. Successors.

(a) Company's Successors. This Agreement may not be assigned by the Company except to a successor (whether by purchase, merger, consolidation or otherwise) to all or substantially all of the Company's business and/or assets, and the Company shall require any such successor to assume expressly and agree to perform this Agreement, in the same manner and to the same extent as the Company would be required to perform it in the absence of a succession. As used in this Agreement, "Company" shall mean the Company as defined herein and any successor to its business and/or assets as aforesaid which assumes and agrees to perform this Agreement by operation of law, contract or otherwise.

(b) Executive's Successors. This Agreement and all rights of Executive hereunder shall inure to the benefit of, and be enforceable by, Executive's personal or legal representatives, executors, administrators, successors, heirs, distributees, devisees and legatees.

15. Miscellaneous Provisions.

(a) Notice. Notices and all other communications contemplated by this Agreement shall be in writing and shall be deemed to have been duly given when personally delivered, on the first business day after being sent by reputable overnight courier, or on the third business day after being mailed by U.S. registered or certified mail, return receipt requested and postage prepaid, and addressed to Executive at the address shown on the Company's personnel records, or to the Company at the address set forth below, or such other address as a party shall give notice of by notice given in the same manner:

Mack-Cali Realty Corporation
Harborside 3
210 Hudson St., Suite 400
Jersey City, NJ 07311
Attn: Chief Executive Officer

(b) Severability. The invalidity or unenforceability of any provision or provisions of this Agreement shall not affect the validity or enforceability of any other provision hereof, which shall remain in full force and effect.

(c) Interpretation. When a reference is made in this Agreement to sections, subsections or clauses, such references shall be to a section, subsection or clause of this Agreement, unless otherwise indicated. The words "herein" and "hereof" mean, except where a specific section, subsection or clause reference is expressly indicated, the entire Agreement rather than any specific section, subsection or clause. The words "include", "includes" and "including" when used in this Agreement shall be deemed to be followed by the words "without limitation". The headings of the sections or subsections of this Agreement are

inserted for convenience only and shall not be deemed to constitute a part hereof and shall not affect the construction or interpretation of this Agreement.

(d) Counterparts. This Agreement may be executed in one or more counterparts, and by the different parties hereto in separate counterparts, each of which when executed shall be deemed to be an original, but all of which taken together shall constitute one and the same agreement.

(e) Section 409A of the Code. To the extent applicable, it is intended that payments and benefits provided hereunder be exempt from or comply with Section 409A of the Code and the guidance promulgated thereunder (collectively, "Section 409A"). This Agreement shall be administered in a manner consistent with this intent and if Executive or the Company believes, at any time, that any of such payment or benefit is not exempt or does not so comply, Executive or the Company shall promptly advise the other party and will negotiate reasonably and in good faith to amend the terms of such arrangement such that it is exempt or complies (with the most limited possible economic effect on Executive and on the Company) or to minimize any additional tax, interest and/or penalties that may apply under Section 409A if exemption or compliance is not practicable. In furtherance of the foregoing, the following provisions shall apply notwithstanding anything to the contrary in this Agreement:

(i) To the extent applicable, each and every payment to be made pursuant to this Agreement shall be treated as a separate payment and not as one of a series of payments treated as a single payment for purposes of Treasury Regulation §1.409A-2(b)(2)(iii).

(ii) If Executive becomes entitled to receive any payment that constitutes deferred compensation subject to Section 409A upon a termination of employment, and such termination of employment does not constitute a "separation from service" as defined in Section 409A, payment of such amount shall be deferred, without interest, and paid on the earlier of the date Executive incurs a separation from service, as so defined (subject to subsection (f)(iii) below, or the date of Executive's death.

(iii) If Executive is a "specified employee", as defined in Section 409A on the date she incurs a separation from service, any amount that becomes payable by reason of such separation from service that constitutes deferred compensation subject to Section 409A, including any amount deferred pursuant to subsection (f)(ii) above, shall be deferred, without interest, and paid on the earlier of the first business day of the seventh month following the month that includes Executive's separation from service, or the date of Executive's death.

(iv) If the sixty (60) day period described in Section 9 ends in the calendar year following the year that includes the Termination Date, no amount that is subject to Section 409A, the payment of which is dependent upon the execution of the Release, shall be paid until the first business day of the calendar year following the year that includes the Termination Date, regardless of when the Release is signed.

(v) Any reimbursement of any expense payable to Executive that constitutes taxable income shall be paid not later than the last day of the year following the year in which

the expense is incurred, and all reimbursements and in-kind benefits shall be paid in accordance with Treasury Regulation §1.409A-3(i)(1)(iv).

(vi) The Company shall not be obligated to guarantee any particular tax result for Executive with respect to any payment or benefit provided to Executive hereunder, and Executive shall be responsible for any taxes, additional taxes or penalties imposed on Executive in connection with any such payment or benefit with respect to Section 409A or any other obligation to pay taxes.

(f) Legal Fees. If any contest or dispute shall arise between the Company and Executive regarding or as a result of any provision of this Agreement, the Company shall reimburse Executive for all legal fees and expenses reasonably incurred by Executive in connection with such contest or dispute, but only if Executive is successful in respect of substantially all of Executive's claims pursued or defended in connection with such contest or dispute. Such reimbursement shall be made as soon as practicable following the resolution of such contest or dispute (whether or not appealed).

(g) Timing of and No Duplication of Payments.

All payments payable to Executive pursuant to this Agreement shall be paid as soon as practicable after such amounts have become fully vested and determinable. In addition, Executive shall not be entitled to receive duplicate payments under any of the provisions of this Agreement.

(h) Modification or Waiver.

No amendment, modification, waiver, termination or cancellation of this Agreement shall be binding or effective for any purpose unless it is made in a writing signed by the party against whom enforcement of such amendment, modification, waiver, termination or cancellation is sought. No course of dealing between or among the parties to this Agreement shall be deemed to affect or to modify, amend or discharge any provision or term of this Agreement. No delay on the part of the Company or Executive in the exercise of any of their respective rights or remedies shall operate as a waiver thereof, and no single or partial exercise by the Company or Executive of any such right or remedy shall preclude other or further exercise thereof. A waiver of right or remedy on any one occasion shall not be construed as a bar to or waiver of any such right or remedy on any other occasion.

The respective rights and obligations of the parties hereunder shall survive Executive's termination of employment and termination of this Agreement to the extent necessary for the intended preservation of such rights and obligations.

(i) Governing Law.

This Agreement will be governed by and construed in accordance with the laws of the State of New Jersey, without regard to principles of conflicts of laws thereunder.

(j) Survival of Agreements.

The provisions of Sections 5, 6, 7, 8, 9, 10, 11, 12, 13 and 15 each shall survive the Term and termination of this Agreement.

IN WITNESS WHEREOF, the undersigned have executed this Agreement as of the date first above written.

Exhibit A

RELEASE

Reference is made to that certain Employment Agreement dated as of (“Agreement”), by and between (“Executive”) and Mack-Cali Realty Corporation (the “Company”). Capitalized terms used in this Release and not defined herein shall have the meaning assigned to them in the Agreement.

1. Release and Waiver. In further consideration of the covenants undertaken pursuant to the Agreement, including, without limitation, the payments and benefits described in Sections 6, 7 and 8 thereof (the “Severance”), Executive hereby waives, releases and forever discharges the Company and any of its predecessors, parents, subsidiaries, affiliates, and related companies, and all of her, its and/or their respective past and present parents, subsidiaries and affiliates, and all of their past and present employees, directors, officers, members, attorneys, representatives, insurers, agents, shareholders, successors, and assigns (individually and collectively “Company Releasees”), from and with respect to any and all legally waivable claims, grievances, injuries, controversies, agreements, covenants, promises, debts, accounts, actions, causes of action, suits, arbitrations, sums of money, attorneys’ fees, costs, damages, or any right to any monetary recovery or any other personal relief (collectively the “Claims”), whether known or unknown, in law or in equity, by contract, tort or pursuant to federal, state or local statute, regulation, ordinance or common law, which Executive now has, ever had, or may hereafter have, based upon or arising from any fact or set of facts, whether known or unknown to Executive, from the beginning of time until the date on which this Release is signed. Without limiting the generality of the foregoing, this waiver, release, and discharge includes any claim or right asserted or which could have been asserted by Executive against the Company and/ or based upon or arising under any federal, state or local tort, fair employment practices, equal opportunity, or wage and hour laws, including, but not limited to, the common law of the State of New York and the State of New Jersey, Title VII of the Civil Rights Act of 1964, the New York State Human Rights Law, the New York City Human Rights Law, the Americans with Disabilities Act, the Age Discrimination in Employment Act, 42 U.S.C. Section 1981, the Equal Pay Act, the Fair Labor Standards Act, the New York Labor Law, the New Jersey Law Against Discrimination, the New Jersey Wage and Hour Law, the New Jersey Family Leave Act, the New Jersey Conscientious Employee Protection Act and the Employee Retirement Income Security Act, including all amendments thereto.

2. Exceptions. Notwithstanding the generality of the foregoing, nothing herein constitutes a release or waiver by Executive of: (i) any claim or right that may first arise after the date this Release is signed; (ii) her right to payment of the Severance; (iii) any claim or right Executive may have pursuant to any indemnification agreements, or to indemnification, advancement, defense or reimbursement pursuant to any applicable D&O policies or any similar insurance policies, the Company’s amended and restated by-laws, as amended, or under applicable law, (iv) any claim Executive may have as a stockholder of the Company; or (v) Executive’s right to seek or accept a financial award for providing information to the Securities and Exchange Commission or any other governmental agency.

3. Covenant Not to Sue. By signing this Release, Executive represents that she has not and will not in the future commence any action or proceeding arising out of the Claims described in Section 1, and that she will not seek or be entitled to any award of legal or equitable relief in any such action or proceeding that may be commenced on her behalf. The provisions of this Section 3 constitute a “covenant not to sue.” A “covenant not to sue” is a legal term which means the Executive promises not to file a lawsuit in court. It is different from the release of Claims contained in Section 1 above. Besides waiving and releasing Claims covered by Section 1, Executive further agrees never to sue any Company Releasee in any forum for any reason covered by the release of Claims. Notwithstanding this covenant not to sue, Executive may bring a Claim against the Company to enforce her right to Severance under the Agreement or to challenge the validity of this Release under the Age Discrimination in Employment Act, and may file a charge or cooperate with, provide information to, or participate in an investigation or proceeding conducted by, the Equal Employment Opportunity Commission (“EEOC”) or any other federal or state regulatory or law enforcement agency, provided that Executive’s right to personal relief in connection with such a charge or investigation (such as reinstatement or monetary damages) is waived pursuant to Section 1 (unless excepted by Section 2). If Executive sues a Company Releasee in violation of this Release, she shall be liable to the Company Releasee for its reasonable attorneys’ fees and other litigation costs incurred in defending against the suit. Alternatively, if the Executive sues a Company Releasee in violation of this Release, the Company can require the Executive to return all but One Thousand Dollars (\$1,000.00) of the Severance.

4. Execution and Right to Revoke.

(a) In order to be eligible to receive the Severance, the Executive must execute this Release and return the signed copy to the Company not later than sixty (60) days after the date of termination, but not earlier than the Executive’s last day of employment, and not subsequently revoke the Release as provided below.

(b) The Executive has the right to revoke this Release at any time within seven (7) days after executing it, by written notice to the Company as described below. If the Executive revokes the Release, the Executive will not receive the Severance, and her waiver and release of Claims and covenant not to sue will be not apply to her. This Release will not be effective until the seven (7) day revocation period has expired, and no portion of the Severance will be paid until the revocation period has expired. If the sixty-seventh day after the Executive’s date of termination falls in the calendar year following the year in which the Executive’s employment is terminated, no portion of the Severance that constitutes deferred compensation subject to Section 409A of the Internal Revenue Code will be paid until the first day of the calendar year following the year of termination, regardless of when the Release is signed.

(c) The signed Release, and any written notice of revocation, shall either be delivered by hand, or sent by reputable overnight courier service or by United States first class mail, with proper postage prepaid, and addressed to:

Mack-Cali Realty Corporation
Harborside 3
210 Hudson St., Suite 400

5. Acknowledgements. By execution of this Release, Executive acknowledges and agrees that:

- (a) She has knowingly and voluntarily executed this Release.
- (b) She has been given at least twenty-one (21) days to review the terms of this Release, and if the 21st day after the Release is provided to the Executive is later than the sixtieth day after the date of termination, then the date on which the Release may be signed is extended to the end of the 21 day period. If this Release is accompanied by a disclosure providing that the Executive's termination is in connection with an exit incentive or other employment termination program as defined by the Age Discrimination in Employment Act, then forty-five (45) days shall be substituted for twenty-one (21) days in the preceding sentence. The 21 (or 45) day period will not be affected by any amendments to this Release agreed to by the parties.
- (c) She has been advised, in writing, to consult with an attorney of her own choosing regarding the meaning and effect of this Release.
- (d) She understands that the Severance constitutes compensation to which she would have no legal entitlement if she does not execute, or revokes, this Release.
- (e) The provisions of Sections 11, 12 and 13 of the Agreement, and any other agreement relating to restrictions on the Executive's use of confidential information, competition with the Company, solicitation of Company personnel or clients, or disparagement of the Company, remain in effect in accordance with their terms, notwithstanding the execution or revocation of this Release.
- (f) She has not suffered any on-the-job injury or illness for which she has not already filed a claim, and the end of my employment is not related to any such injury or illness.
- (g) This Release is considered a part of the Agreement, and all provisions of the Agreement relating to the resolution of disputes, including choice of law provisions, also apply to this Release.

INDEMNIFICATION AGREEMENT**(Directors and Officers)**

THIS INDEMNIFICATION AGREEMENT is made and entered into this 26th day of June, 2017 by and between MACK-CALI REALTY CORPORATION, a Maryland corporation (the "Company"), and Deidre Crockett, an individual residing at [intentionally omitted] ("Indemnitee").

RECITALS

WHEREAS, it is essential to the Company to retain and attract as directors and officers the most capable persons available; and

WHEREAS, Indemnitee is a director and/or officer of the Company; and

WHEREAS, both the Company and Indemnitee recognize the increased risk of litigation and other claims being asserted against directors and officers of companies in today's environment; and

WHEREAS, the Company's charter (the "Charter") and bylaws (the "Bylaws") provide that the Company will indemnify its directors and officers to the fullest extent permitted by law and will advance expenses in connection therewith, and Indemnitee's willingness to serve as a director and/or officer of the Company is based on Indemnitee's reliance on such provisions; and

WHEREAS, in recognition of Indemnitee's need for substantial protection against personal liability in order to enhance Indemnitee's continued service to the Company in an effective manner, and Indemnitee's reliance on the aforesaid provisions of the Charter and Bylaws, and in part to provide Indemnitee with specific contractual assurance that the protection promised by such provisions will be available to Indemnitee (regardless of, among other things, any amendment to or revocation of such provisions or any change in the composition of the Company's Board of Directors or any acquisition or business combination transaction relating to the Company), the Company wishes to provide in this Agreement for the indemnification of and the advancement of expenses to Indemnitee as set forth in this Agreement and, to the extent insurance is maintained, for the continued coverage of Indemnitee under the Company's directors' and officers' liability insurance policies.

NOW, THEREFORE, in consideration of the foregoing premises, the mutual covenants and agreements contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto hereby agree as follows:

1. Certain Definitions.

1.1 "Claim" shall mean any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative, investigative or other, or any inquiry or investigation, whether instituted, made or conducted by the Company or any other party, that Indemnitee in good faith believes might lead to the institution of any such action, suit or proceeding, whether civil, criminal, administrative, investigative or other.

1.2 "Expenses" shall mean and include all court costs, attorneys' fees, disbursements and all other costs, expenses and obligations paid or incurred in connection with investigating, defending, being a witness in or participating in (including on appeal), or preparing to defend, be a witness in or participate in, any Claim relating to any Indemnifiable Event.

1.3 "Indemnifiable Event" shall mean any actual or asserted event or occurrence related to the fact that Indemnitee is or was a director, officer, employee, agent or fiduciary of the Company, or is or was serving at the request of the Company as a director, officer, partner, employee, trustee, agent or fiduciary of another corporation, partnership, joint venture, employee benefit plan, trust or other entity, or anything done or not done by Indemnitee in any such capacity.

2. Basic Indemnification Arrangement. In the event Indemnitee was, is or becomes a party to or witness or other participant in, or is threatened to be made a party to or witness or other participant in, a Claim by reason of (or arising or related in whole or in part out of) an Indemnifiable Event, (a) the Company will indemnify and hold harmless Indemnitee to the fullest extent permitted by law, as soon as practicable, but in any event no later than fifteen (15) calendar days after written demand is presented to the Company, from and against any and all Expenses, judgments, fines, penalties and amounts paid in settlement (including all interest, assessments and other charges paid or payable in connection with or in respect of such Expenses, judgments, fines, penalties or amounts paid in settlement) of, or suffered or incurred by Indemnitee in connection with, such Claim; and (b) the Company will pay or reimburse Indemnitee for any and all Expenses incurred by Indemnitee in connection with a Claim prior to final disposition of the Claim, to the fullest extent permitted by law but without requiring any preliminary determination of the ultimate entitlement of Indemnitee to indemnification, as soon as practicable, but in any event within two (2) business days, after request by Indemnitee. Notwithstanding anything in this Section 2 or Section 5 of this Agreement to the contrary, Indemnitee will not be entitled to indemnification pursuant to this Agreement in connection with any Claim initiated by Indemnitee against the Company or any director or officer of the Company except as provided in Section 4 of this Agreement or unless the Company has joined in or consented to the initiation of such Claim.

3. Establishment of Trust. The Company will create a trust (the "Trust") for the benefit of Indemnitee and from time to time upon written request by Indemnitee will, if so authorized by the Company's Board of Directors, fund the Trust in an amount sufficient to satisfy any and all Expenses reasonably anticipated at the time of each such request, and any and all judgments, fines, penalties and settlement amounts of any and all Claims relating to an Indemnifiable Event from time to time actually paid or reasonably anticipated or proposed to be paid. The terms of the Trust will provide that (i) the Trust will not be revoked, or the principal thereof invaded, without the written consent of Indemnitee, (ii) the trustee thereunder (the "Trustee") will advance, within two (2) business days of a request by Indemnitee, any and all Expenses to Indemnitee, (iii) the Trust will continue to be funded by the Company in accordance with and to the extent of the funding obligation set forth above, (iv) the Trustee will promptly pay to Indemnitee all amounts to which Indemnitee is entitled in respect of the Company's indemnification obligations under this Agreement or otherwise, and (v) all unexpended funds in the Trust will revert to the Company upon a final determination by a court of competent jurisdiction that Indemnitee has been fully indemnified under the terms of this Agreement. The Trustee will be an independent third party, and will be chosen by Indemnitee. Nothing in this Section 3 will relieve the Company of any of its obligations under this Agreement.

4. Indemnification for Additional Expenses. The Company will indemnify Indemnitee against and, if requested by Indemnitee, will, within two (2) business days of such request, advance to Indemnitee, any and all attorneys' fees and other costs, expenses and obligations paid or incurred by Indemnitee in connection with any claim, action, suit or proceeding asserted or brought by Indemnitee for (i) indemnification or payment or reimbursement of Expenses prior to final disposition of the Claim by the Company under this Agreement or any other agreement or under any provisions of the Charter or Bylaws now or hereafter in effect relating to Claims for Indemnifiable Events and/or (ii) recovery under any directors' and officers' liability insurance policies maintained by the Company, regardless of whether Indemnitee ultimately is determined to be entitled to such indemnification, advance expense payment or insurance recovery, as the case may be.

5. Partial Indemnity, Etc. If Indemnitee is entitled under any provision of this Agreement to indemnification by the Company for some or a portion of the Expenses, judgments, fines, penalties and amounts paid in settlement of a Claim but not, however, for all of the total amount thereof, the Company will nevertheless indemnify Indemnitee for the portion thereof to which Indemnitee is entitled. In addition, notwithstanding any other provision of this Agreement, to the extent that Indemnitee has been successful on the merits or otherwise in defense of any or all Claims relating in whole or in part to an Indemnifiable Event or in defense of any issue or matter therein, including dismissal without prejudice, Indemnitee will be indemnified against all Expenses incurred in connection therewith. In connection with any determination as to whether Indemnitee is entitled to be indemnified hereunder, the burden of proof will be on the Company to establish that Indemnitee is not so entitled. The Company agrees to make any such determination, or to cause such determination to be made, as expeditiously as practicable.

6. No Presumption. For purposes of this Agreement, the termination of any Claim, action, suit or proceeding by judgment, order, settlement (whether with or without court approval) or conviction, or upon a plea of nolo contendere or its equivalent, will not create a presumption that Indemnitee did not meet any particular standard

of conduct or have any particular belief or that a court has determined that indemnification is not permitted by applicable law.

7. Non-Exclusivity, Etc. The rights of Indemnitee hereunder will be in addition to any other rights Indemnitee may have under the Charter, the Bylaws or the Maryland General Corporation Law (the "MGCL") or otherwise; provided, however, that to the extent that Indemnitee otherwise would have any greater right to indemnification under any provision of the Charter or Bylaws as in effect on the date hereof, Indemnitee will be deemed to have such greater right hereunder, and provided, further, that to the extent that any change is made to the MGCL (whether by legislative action or judicial decision), the Charter and/or the Bylaws which permits any greater right to indemnification than that provided under this Agreement as of the date hereof, Indemnitee will be deemed to have such greater right hereunder. The Company will not adopt any amendment to the Charter or the Bylaws the effect of which would be to deny, diminish or encumber Indemnitee's right to indemnification under the Charter, the Bylaws, the MGCL or otherwise as applied to any act or failure to act occurring in whole or in part prior to the date upon which the amendment was approved by the Company's Board of Directors and/or its stockholders, as the case may be.

8. Liability Insurance. The Company shall maintain an insurance policy or policies providing directors' and officers' liability insurance in an amount not less than \$1,000,000 and on customary terms. Indemnitee will be covered by such policy or policies, in accordance with its or their terms, to the maximum extent of the coverage available for any Company director or officer.

9. Period of Limitations. No legal action will be brought and no cause of action will be asserted by or on behalf of the Company or any affiliate of the Company against Indemnitee or Indemnitee's spouse, personal or legal representatives, executors, administrators, successors, heirs, distributees or legatees after the expiration of three (3) years from the date of accrual of such cause of action, and any claim or cause of action of the Company or its affiliates will be extinguished and deemed released unless asserted by the timely filing of a legal action within such three (3) year period; provided, however, that if any shorter period of limitation is otherwise applicable to any such cause of action, such shorter period will govern.

10. Subrogation. In the event of payment under this Agreement, the Company will be subrogated to the extent of such payment to all of the related rights of recovery of Indemnitee against other persons or entities. Indemnitee will execute all papers reasonably required and will do every thing that may be reasonably necessary to secure such rights and enable the Company effectively to bring suit to enforce such rights (all of Indemnitee's reasonable costs and expenses, including attorneys' fees and disbursements, to be reimbursed by or, at the option of Indemnitee, advanced by the Company).

11. No Duplication of Payments. The Company will not be liable under this Agreement to make any payment in connection with any Claim made against Indemnitee to the extent Indemnitee has otherwise actually received payment (under any insurance policy, the Charter, the Bylaws or otherwise) of the amounts otherwise Indemnifiable hereunder.

12. Successors and Binding Agreement. (a) The Company will require any successor (whether direct or indirect, by purchase, merger, consolidation, reorganization or otherwise) to all or substantially all of the business or assets of the Company, by agreement in form and substance satisfactory to Indemnitee, expressly to assume and agree to perform this Agreement in the same manner and to the same extent the Company would be required to perform if no such succession had taken place. This Agreement will be binding upon and inure to the benefit of the Company and any successor to the Company, including, without limitation, any person acquiring directly or indirectly all or substantially all of the business or assets of the Company whether by purchase, merger, consolidation, reorganization or otherwise (and such successor will thereafter be deemed the "Company" for the purposes of this Agreement), but will not otherwise be assignable, transferable or delegable by the Company.

(b) This Agreement will inure to the benefit of and be enforceable by Indemnitee's personal or legal representatives, executors, administrators, successors, heirs, distributees and legatees.

(c) This Agreement is personal in nature and neither of the parties hereto will, without the consent of the other, assign, transfer or delegate this Agreement or any rights or obligations hereunder except as expressly

provided in Sections 12(a) and 12(b) hereof. Without limiting the generality or effect of the foregoing, Indemnitor's right to receive payments hereunder will not be assignable, transferable or delegable, whether by pledge, creation of a security interest or otherwise, other than by a transfer by Indemnitee's will or by the laws of descent and distribution, and any such attempted assignment shall be null and void and of no effect.

13. Notices. For all purposes of this Agreement, all communications, including, without limitation, notices, consents, requests or approvals, required or permitted to be given hereunder will be in writing and will be deemed to have been duly given when hand delivered or dispatched by electronic facsimile transmission (with receipt thereof orally confirmed), or five (5) calendar days after having been mailed by United States registered or certified mail, return receipt requested, postage prepaid, or one (1) business day after having been sent for next-day delivery by a nationally recognized overnight courier service, addressed to the Company (to the attention of the Secretary of the Company) at its principal executive office and to Indemnitee at Indemnitee's principal residence as shown in the Company's most current records, or to such other address as any party may have furnished to the other in writing and in accordance herewith, except that notices of changes of address will be effective only upon receipt.

14. Governing Law. The validity, interpretation, construction and performance of this Agreement will be governed by and construed in accordance with the laws of the State of Maryland, without giving effect to the principles of conflict of laws.

15. Validity. If any provision of this Agreement or the application of any provision hereof to any person or circumstance is held invalid, unenforceable or otherwise illegal, the remainder of this Agreement and the application of such provision to any other person or circumstance will not be affected, and the provision so held to be invalid, unenforceable or otherwise illegal will be reformed to the extent (and only to the extent) necessary to make it enforceable, valid or legal.

16. Miscellaneous. No provision of this Agreement may be waived, modified or discharged unless such waiver, modification or discharge is agreed to in writing by Indemnitee and the Company. No waiver by either party hereto at any time of any breach by the other party hereto or compliance with any condition or provision of this Agreement to be performed by such other party will be deemed a waiver of similar or dissimilar provisions or conditions at the same or at any prior or subsequent time. No agreements or representations, oral or otherwise, expressed or implied with respect to the subject matter hereof have been made by either party which are not set forth expressly in this Agreement. References to Sections are references to Sections of this Agreement.

17. Counterparts. This Agreement may be executed in one (1) or more counterparts, each of which will be deemed to be an original but both of which together will constitute one and the same agreement.

IN WITNESS WHEREOF, the parties to this Agreement have executed this Agreement as of the date first above written.

MACK-CALI REALTY CORPORATION
Certification

I, Michael J. DeMarco, certify that:

1. I have reviewed this annual report on Form 10-K of Mack-Cali Realty Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - c) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - d) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
